HZM contribution to WEB 3.0 Community

Mejhool is a revolutionary decentralized private messaging app powered by HZM offers a comprehensive, secure communication experience to its users by allowing them to send text messages, make voice and video calls, share images, documents, emojis, HZM stickers, and more, while maintaining their privacy. With the app, users can enjoy all the features of top-tier chat apps like WhatsApp, Telegram, and Signal, but with the added assurance of peer-to-peer or decentralized connections that eliminate the risk of third-party data breaches.

Partnerships and Collaborations

We recognize the value of partnerships and collaborations in building credibility and exposure for HZM Coin. We are actively seeking out opportunities to collaborate with industry leaders, form strategic alliances, and participate in conferences and other events. With the launch of Nemo Land Kingdom, HZM Coin is now in full circulation within the metaverse. This is helping us prove the practicality of HZM Coin and establish partnerships that can back us as a leader in the blockchain world.

Founders Wallets

The founders of HZM coin has locked their personal wallet for 5 years to demonstrate commitment to the project's long-term success and to prevent personal financial gain from influencing the coin's future. This creates trust and stability in the community by showing the founder's belief in the coin's potential.
