ROADMAP: PAVING THE PATH TO SUCCESS

02. ROADMAP: PAVING THE PATH TO SUCCESS

Phase 1: Presale And Marketing

Dogecoin20 begins its journey by ensuring a level playing field for all investors through a fair and transparent presale. A portion of the funds raised during the presale will be dedicated to crafting a professional and comprehensive marketing strategy. This strategy will lay the groundwork for broader awareness and adoption, setting the stage for the token's future growth.

Phase 2: Early Staking Incentive

In this phase, the early supporters and buyers of DOGE20 from the presale will be offered a unique opportunity. They will have the chance to stake their tokens directly into the smart contract even before the official listing day. This strategic move is designed to provide them with a high early Annual Percentage Yield (APY) advantage, setting the tone for the token's staking ecosystem.

Phase 3: Presale Token Claiming

To ensure an equitable launch, presale buyers of DOGE20 will be granted the ability to claim their tokens simultaneously with the Uniswap listing. This simultaneous release will foster trust and maintain the integrity of the project, ensuring that all participants have an equal footing in the token's distribution.

Phase 4: DEX Launch On Uniswap

The highly anticipated moment arrives as DOGE20 makes its debut on Uniswap, the world's largest decentralized exchange. This strategic choice of platform guarantees a seamless trading experience for users, offering them the best possible environment to buy, sell, and interact with DOGE20. The early liquidity provided by Uniswap listing will serve as a solid foundation for the token's market presence.

Phase 5: Allocated Liquidity Provision

Continuing the commitment to establishing a robust ecosystem, the Dogecoin20 team dedicates a significant portion of its resources to adding liquidity to the Uniswap pool. This liquidity provision is made possible by allocating 10% of the total token supply. This move ensures that the token maintains healthy trading volumes and minimizes potential volatility, safeguarding the interests of both early and future investors.

Dogecoin20

Phase 6: Long-Term Staking For Passive Rewards

As Dogecoin20 establishes its presence in the crypto space, the focus shifts to ensuring sustained value and rewards for its holders. The DOGE20 staking contract, inspired by the original Dogecoin emission schedule, is activated. This feature enables token holders to engage in long-term staking, generating passive rewards based on a proven and trusted model.

Looking Ahead: A Future Of Innovation And Impact

As Dogecoin20 progresses through its roadmap, it remains committed to the principles of fairness, innovation, and community engagement. The journey ahead holds the promise of further enhancing the token's utility, amplifying its reach, and contributing positively to the crypto landscape. Together, we forge a path towards a more inclusive and prosperous blockchain future.
