INTRODUCTION

Astra Guild Ventures (AGV) is a Decentralized Autonomous Organization (DAO) that invests in Non-Fungible Tokens (NFTs) and other blockchain assets.

Our mission is to build the largest community of NFT and blockchain tech leaders, enthusiasts, and contributors around the world. We aim to create a completely transparent virtual economy that provides equal value to all stakeholders.

Furthermore, AGV aims to:

- Help speed up adoption of new NFT and blockchain projects by introducing them to the community through partnerships or by purchasing assets and equities from these projects
- Help NFT and blockchain enthusiasts earn by renting out community-owned assets and providing training to them
- Help contributors maximize their earning potential by utilizing the abundant human resources and partnerships of the DAO for NFT play-to-earn games

VISION

Astra Guild Ventures aims to become the most valuable DAO in the world by 2022, capitalizing on the increasing adoption of NFT assets, NFT Play-to-Earn Games, and other blockchain projects.

AGV believes that there is a need for having a decentralized community that connects contributors, tech leaders, and NFT enthusiasts as we are on the verge of NFTs and other digital assets becoming part of day-to-day transactions all around the world.

Having an early position on these assets will bring opportunities to the DAO, its token, and the community.

THE MARKET

Astra Guild Ventures (AGV) aims to primarily capitalize on the growing NFT industry.

- US\$2 Billion total NFT industry valuation as of Q1 of 2021 (1)
- 2,100% increase in the amount spent for NFTs from Q4 of 2020 to Q1 of 2021 (2)
- 2,803,080 total users of NFT games as of SEP 2021 (3)

CURRENT ASSETS AND EARNINGS OF THE DAO

Astra Guild Ventures has the following assets as of OCT 2021:

- US\$ 2,489,387 worth of NFT assets
- Total of 6,108 Axie Infinity NFTs
- 225,429 SLP Earnings per Day
- US\$ 800K Monthly Revenue

Fig 1. Daily Average SLP Earnings

You may access the list of AGV assets [here](#).

ACTIVITIES OF THE DAO

1. Buying of NFT assets from NFT Play-To-Earn Games and other NFT marketplaces
2. Renting out Pay-To-Earn Games' NFT assets to community members
3. Provide training and seminars to community members on NFT Play-To-Earn Games
4. Trading of cryptocurrencies owned by the DAO
5. Creating content to promote current and upcoming NFT Play-To-Earn games
6. Facilitating AGV Token Staking and Airdrops
7. Proposal-making and voting through the DAO governance board
8. Conducting of research and development to introduce new NFT projects into the community

FEATURES OF THE DAO

EARNINGS DASHBOARD

Aiming for complete transparency with all of its stakeholders, Astra Guild Ventures (AGV) will launch an earnings dashboard accessible by everyone that tracks the total earnings of all AGV-owned NFT assets

AGV ASSETS LIST

Astra Guild Ventures (AGV) will also make the list all of its assets publicly accessible by everyone, including non-DAO members. All assets will be easily verifiable through the blockchain network.

DAO GOVERNANCE BOARD

Astra Guild Ventures (AGV) will have a DAO Governance Board where AGV token holders can propose and vote changes and new policies of the DAO.

AGV STAKING PLATFORM

AGV token holders can also lock up their tokens through the AGV website to earn rewards and interests.

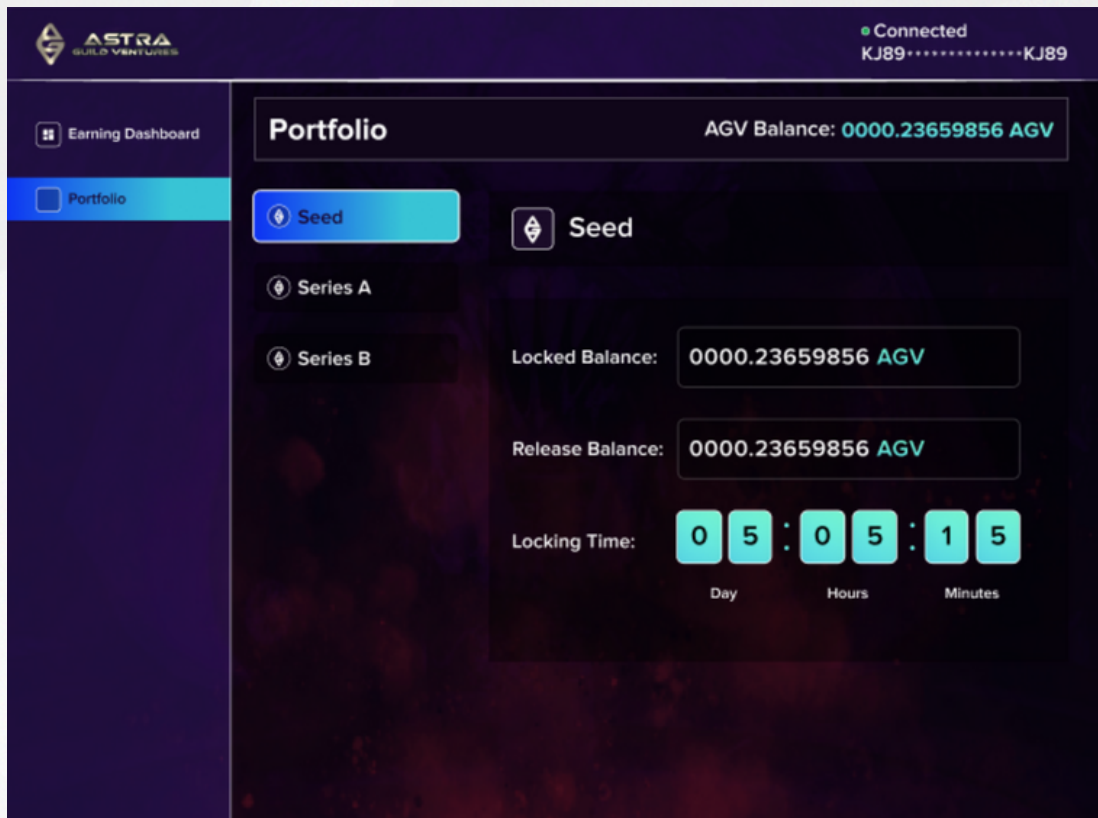

Fig 3. Vision for AGV Website Dashboard

THE AGV TREASURY

Astra Guild Ventures Treasury is responsible for recording all transactions, may it be regarding investments or other costs associated with managing the DAO. The ACV Treasury is under the office of the AGV Chief Finance Officer (CFO).

TREASURY ACTIVITIES

1. Astra Guild Ventures Treasury is responsible for the purchase of NFTs such as Axies, Land and other virtual assets to be approved by the DAO.
2. Propose up-to-date proposals regarding diversification of DAO assets to be approved by the DAO.
3. Manage lock, unvested, and undistributed tokens of all community members.
4. Propose up-to-date proposals regarding buybacks and future funding rounds to be approved by the DAO.
5. Report updated information regarding accounting, audits, reporting and taxes.

Astra Guild Ventures Treasury has raised USD 2.3 Million in exchange for 230 Million AGV tokens in a Seed Round that ended in July 2021, being led by Global Construction Inc.

AGV will be conducting its PRIVATE A funding round on October 17, 2021, raising an amount of USD 3.2 Million in exchange for 130 Million AGV Tokens. AGV will then conduct its PRIVATE B funding round on December 16, 2021, raising an amount of USD 8 Million in exchange for 100 Million AGV tokens.

AGV will conduct its Public Sale on December 17, 2021 at USD 0.2 per AGV.

UTILIZATION OF FUNDS

All funds collected during the Seed Round were utilized for the procurement of NFTs and other digital assets used for breeding Axies, the NFTs of the game Axie Infinity. The entire USD 2.3 Million that was raised went into increasing the amount of Axies that can be lent by the DAO.

The founding team worked for the DAO without any kinds of compensation coming from the Seed Round for the first few months of operations.

For the PRIVATE A, aside from procuring more Axies, other costs such as Marketing, Management, Operations, and Development of Tools and Technologies will be considered. Funds will be distributed based on the DAO's priorities as displayed in Figure 4.

Fig 4. Proposed Utilization of Funds

PORTFOLIO REPORTING

AGV Token Holders and Community Members can check the portfolio in real-time through the AGV ASSETS LIST and the EARNINGS DASHBOARD.

SECURITY OF THE PORTFOLIO

Treasury assets are separated in vaults (specified wallets) that are managed by the CEO, CFO and CMO via a multi-signature Gnosis wallet. All three of the Trezor hardware wallets signatures are required for any transactions. These transactions will be scheduled to be conducted every 15 and 30 of the month, unless otherwise approved by the DAO.

VALUE PROPOSITION

Astra Guild Ventures creates value for everyone within the community through the following activities:

EARNINGS FROM NFT GAMES

Significant value is derived from the scholars gaining cryptocurrency through “Play to Earn” games such as Axie Infinity. Since this earning potential is proportional to the amount of scholars within the community, it is expected that it will increase as more investments come in and more Axie teams are deployed.

Earnings are split between the DAO and the scholars. As of August 2021, the DAO generates over USD 1 Million monthly in NFT earnings. With the goal of 10,000 scholars before the end of 2021, that would result in over USD 5,000,000 in earnings per month.

CREATION OF GLOBAL COMMUNITY

Astra Guild Ventures aims to create one of the largest NFT communities in the world, composed of individuals from every nation and every social class. Having new scholars, managers, ambassadors, contributors, streamers and influencers within the community will evangelize, not just NFT gaming, but also cryptocurrencies in general.

Starting with over 2000 scholars, Astra Guild Ventures is targeting to have a reach of over 1 million community members before the year 2021 ends.

USAGE OF THE AGV TOKEN

Astra Guild Ventures aims to assist in the efforts to increase acceptance of cryptocurrencies for day-to-day transactions. The DAO will encourage its community to use their AGV tokens in exchange for other products and services.

Specifically, the AGV Token will be used for the following:

- Proposing and voting in the DAO Governance Board
- Receiving rewards through various DAO activities
- Participating in DAO events and accessing exclusive content
- Paying for services in the AGV network

THE DAO

AGV Token Holders and Community Members can check the portfolio in real-time through the AGV ASSET LIST and the EARNINGS DASHBOARD.

TOKEN ISSUANCE

There will be only 2,000,000,000 AGV tokens to be minted and distributed.

All tokens will go to a Gnosis Safe Multisig Wallet with an address of 0x03872114a6581E035Da8387159B00197EDe5D0cb under the responsibility of the Astra Guild Ventures Treasury pending the distribution schedule.

Distribution will occur depending on different schedules and for different purposes. After tokens are distributed, it can then be traded immediately in any exchange where available.

Allocation of the token can be seen in FIGURE 3. The Monthly Distribution Breakdown can be found in TABLE 1.

PROJECTED VALUE OF AGV

Given the potential earning and the scarcity of the token, it is more likely that the value of the AGV token will increase overtime. Based on the current situation of the market as of August 2021, it is likely that AGV token's price will be at USD 1 – USD 4 by September 2022.

That said, all information presented may be wrong and it should not be used for any financial decision.
