

# **BABY META WHITEPAPER**

Discover our plans, step by step

# INTRODUCTION TO BABY META

Welcome to BABY META, a project born on a decentralised BEP-20-based cryptocurrency, that is looking forward to the upcoming opportunities offered by virtual reality, NFTs and blockchain technology.

This white paper will provide to you a clear overview about the project and all its aspects, in order to make a more self-aware decision about your investments.

# OUR MISSION

BABY META is an innovative continuous development project, currently located on the Binance Smart Chain, and soon on Metaverse.

Our vision, strategy, and roadmap are based on transparency and facts.

We are very excited to be pioneers in this field, and we're excited to exhibit to you our plan. BABY META will move forward through technological updates that we believe are the next revolution of the internet world.

The possibilities with NFTs, cryptocurrencies, and virtual reality technologies are endless, and we're here to give everyone an opportunity to invest early in a market that could explode in the next 24 to 36 months.

Our mission is to make an item that combines all of this potential available and accessible to everyone, thanks to a project that will grow with its community: BABY META.

## TIMING

We want to be the first players to compete when the VR experience will become part of our daily life

## POTENTIAL

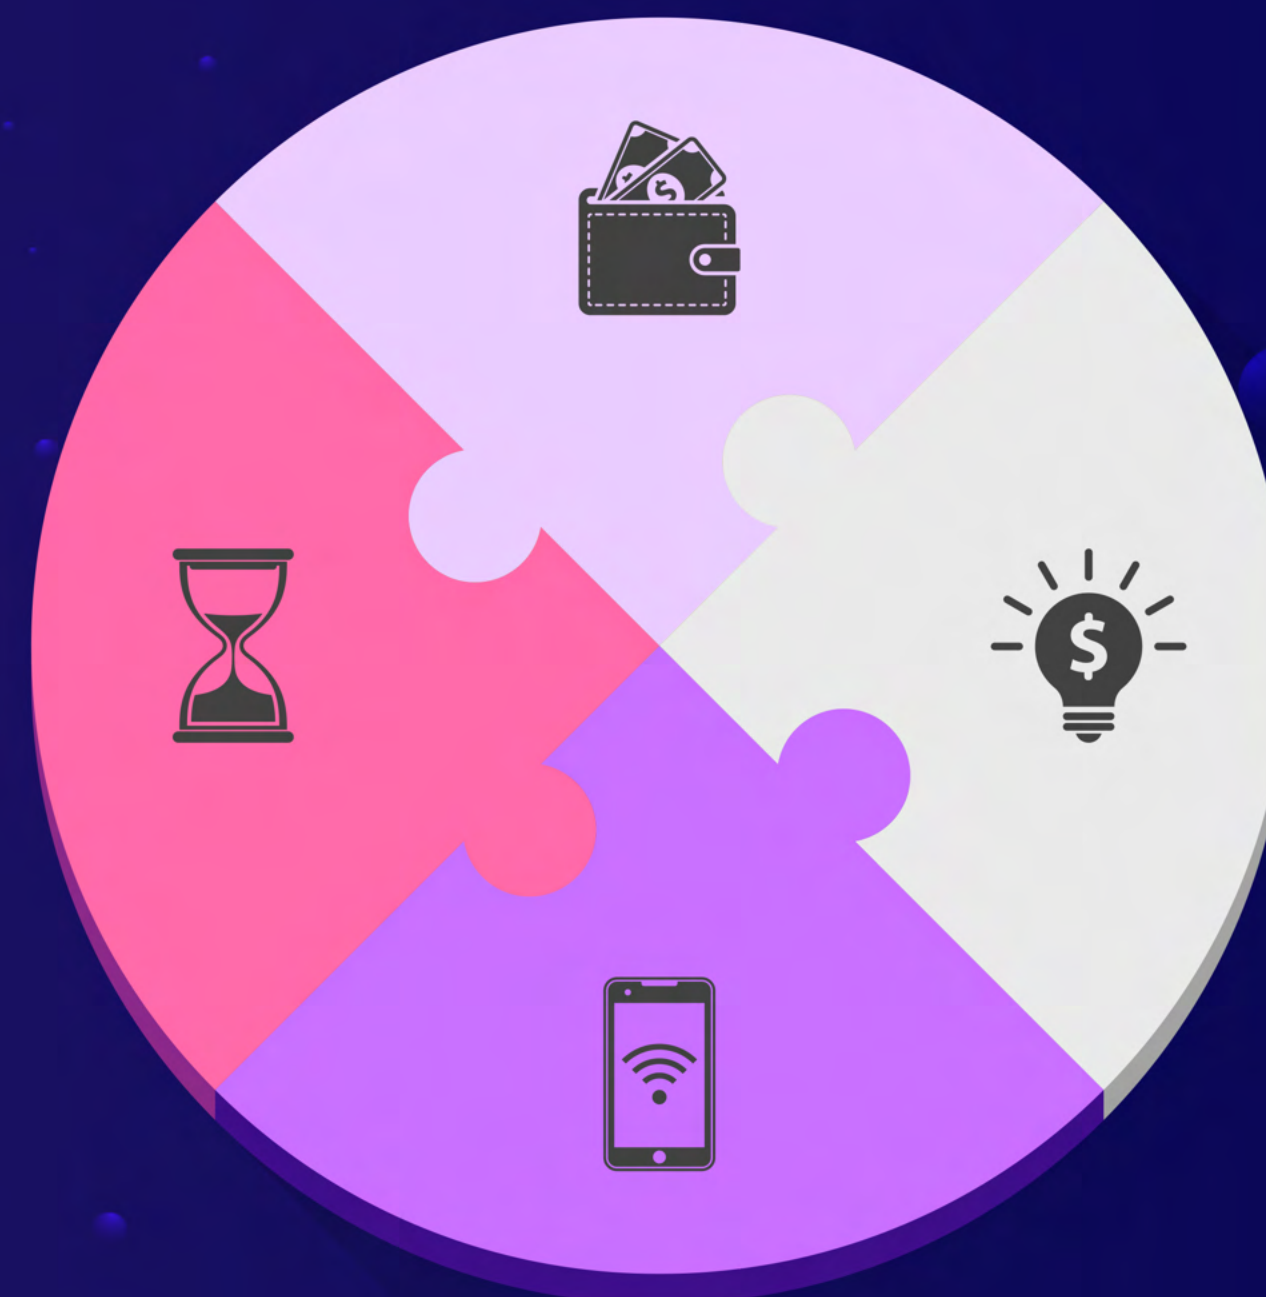

BABY META isn't just a name. It's a solid project that can go viral thanks to the hype for NFTs and VR

## NFTs & VR

Things are about to change for the internet. NFTs are getting bigger every month, and VR will be soon accessible to everyone.

## COMMUNITY

Though the core development team is always working on BABY META, it is the community who can guarantee its success.

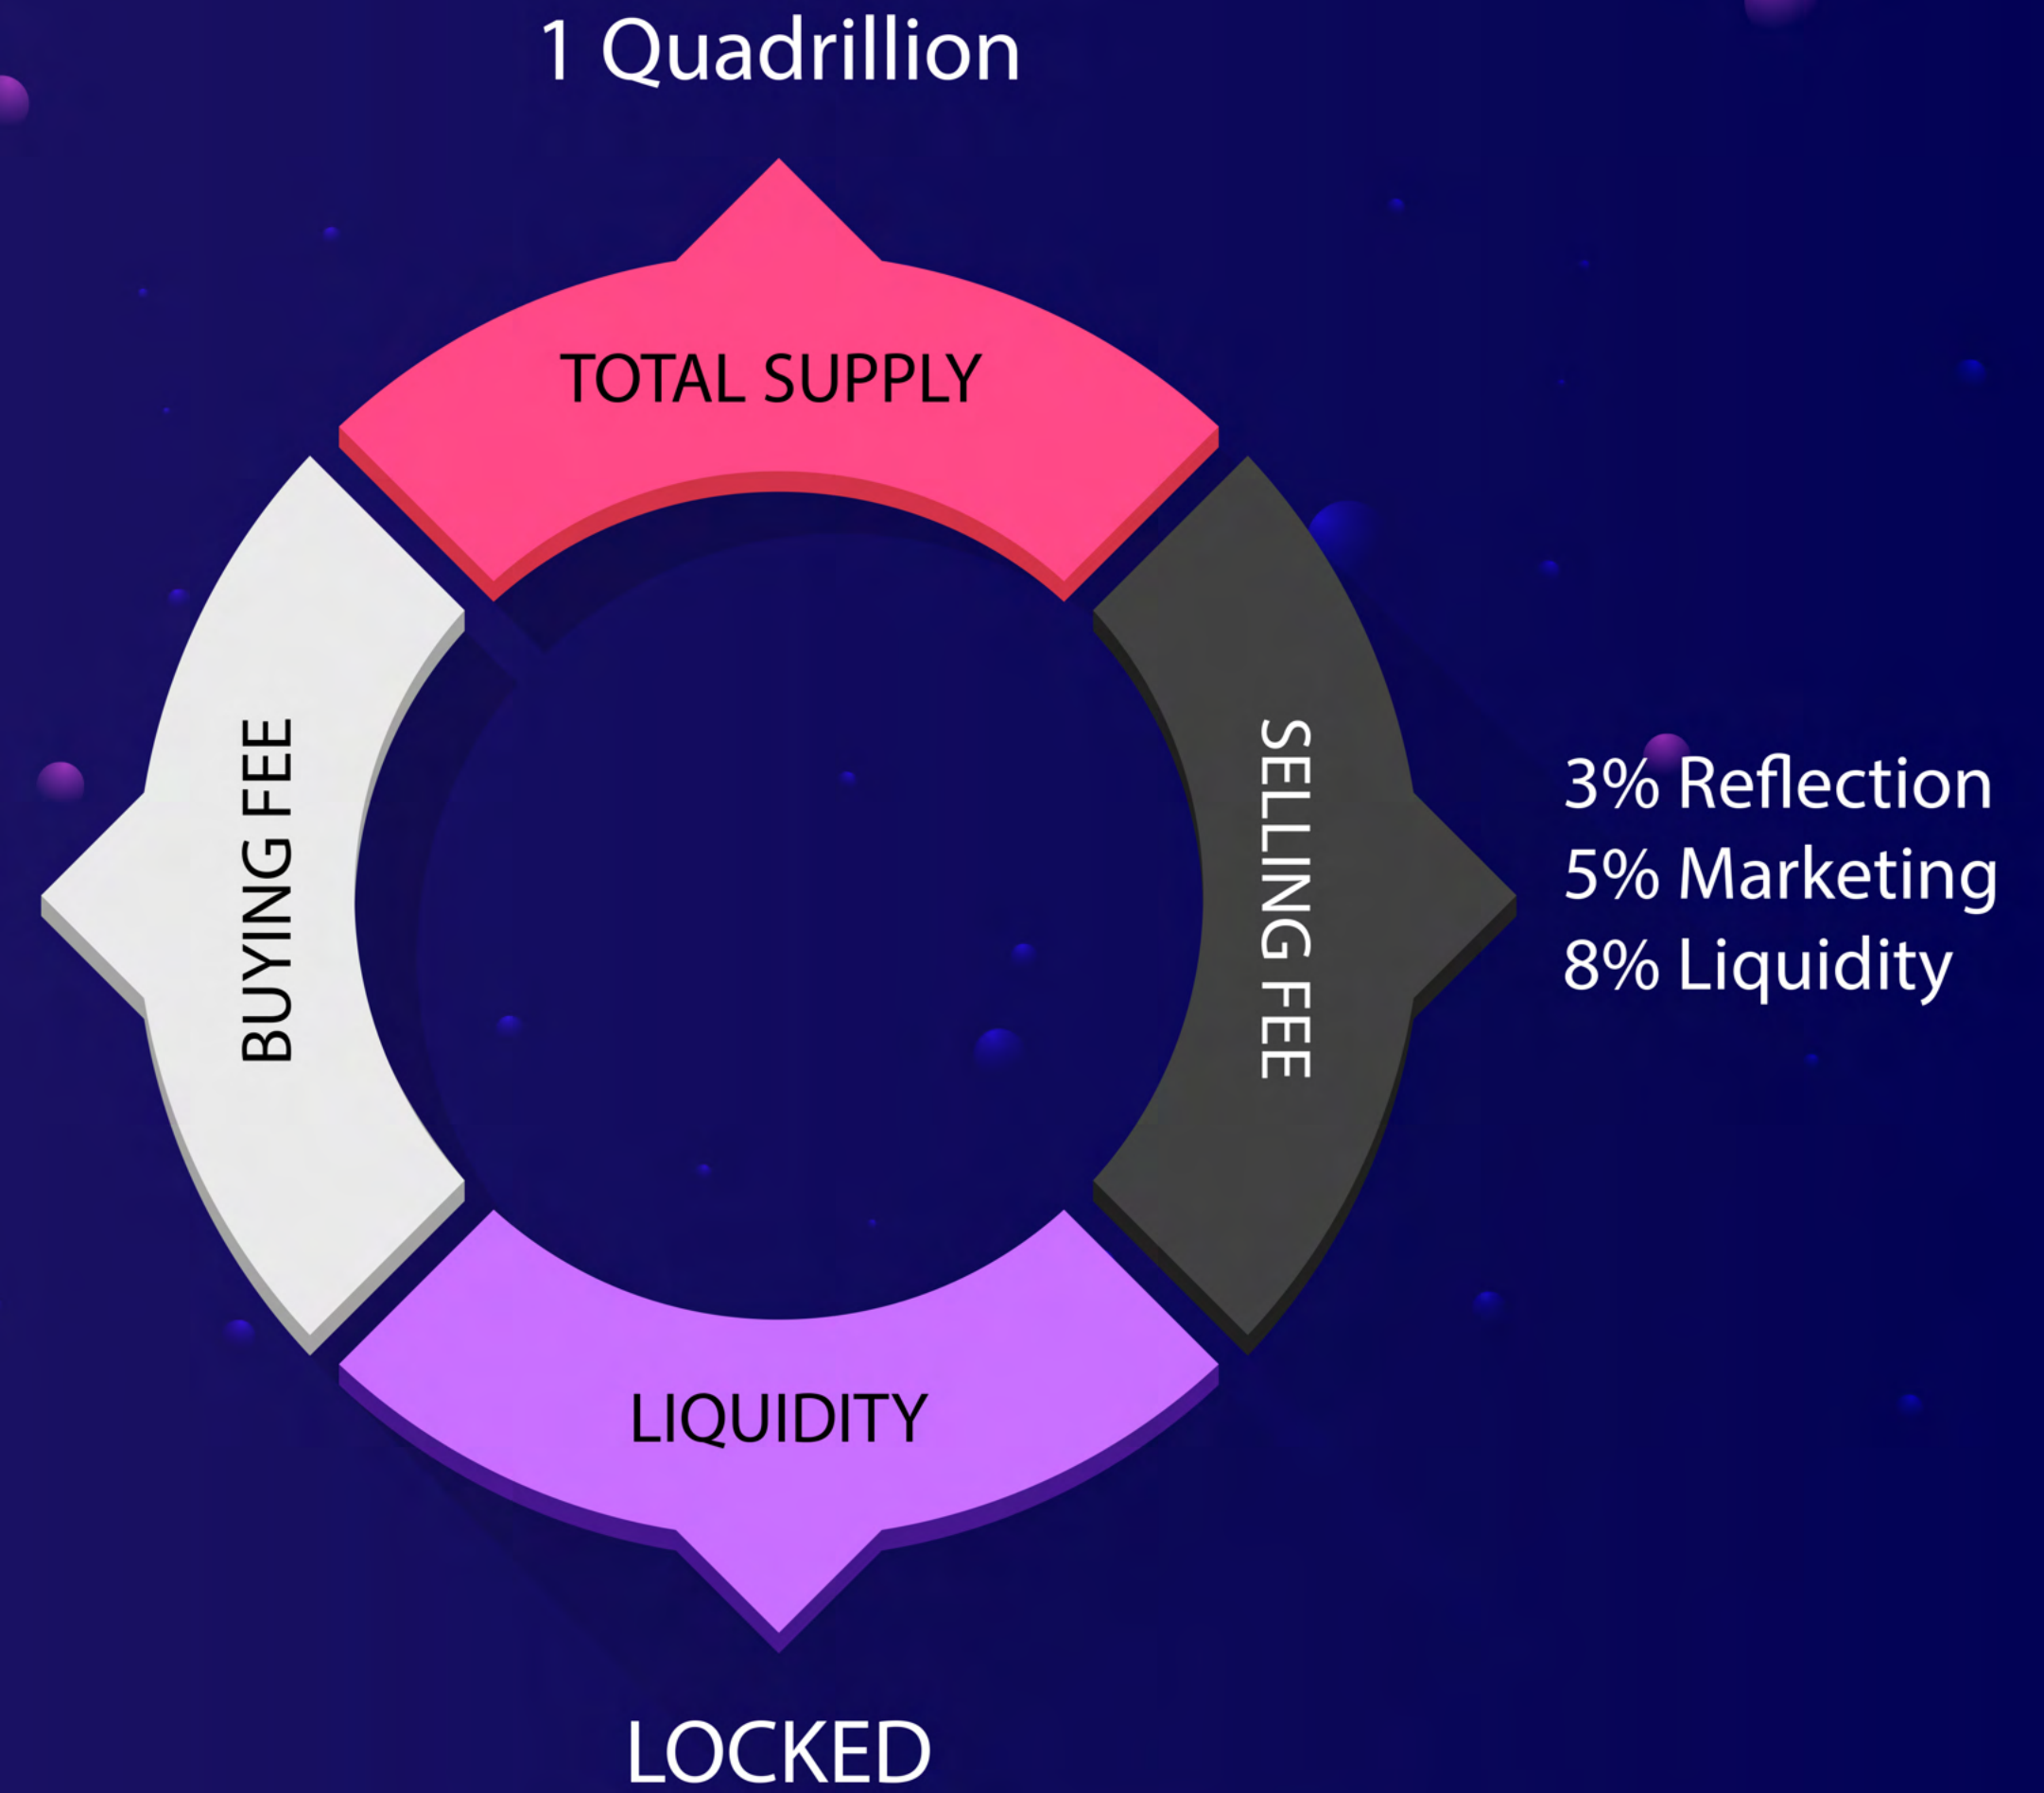

# METANOMICS

BABY META's supply and max wallet limit will be announced after launch for anti-sniping measures.

A Claim Button is available on the website for holders to get rewards without waiting.

Also the initial liquidity will be locked, the liquidity that grows is to be burned directly.

# ROADMAP

- Smart Contract Audit
- 2,000 Telegram Members
- Marketing Campaign
- Giveaways for the community
- Heavy investments into popular influencers
- Billboard Ads #1

## PHASE 2

- #2 Charity Donation
- Pitching to Big Investors
- 10,000 Telegram Members
- NFT Release
- VR App Release
- Stay Tuned for more!

## PHASE 4

## PHASE 1

- Smart Contract Creation
- Website Launch
- Community Building & Marketing Push
- 250 Telegram Members
- Coinhunt & Coinsniper Promo

## PHASE 3

- #1 Charity Donation
- NFT Introduction
- 5,000 Telegram Members
- Apply for CoinGecko and CoinMarketCap
- Billboard Ads #2
- VR App Development

# LONGTERM CONCEPT: CRYPTO&VR INTEGRATION

We developed what we believe is the best code that we can offer for our cryptocurrency. But we won't stop there, we want to expand our services! Interest and the total monetary value of NFTs grew significantly in 2021, with sales of NFTs exceeding \$2 billion during the first quarter of the year - more than 20 times that of the previous quarter.

We believe this trend is here to stay, and we want to be the first players to compete when the VR experience will become part of our daily life, like a modern version of Social Networks.

Our vision is all about making the experience more immersive - thanks to the VR technology, it's already possible to enter in a virtual room and interact with the surrounding objects.

By simply adding an exchange system for cryptocurrencies, it'll be possible to trade NFTs like in a real shop. In other words, just simply a virtual showroom and marketplace.

You'll be able to show the NFTs you own, placing them into 3D structures, like frames, that you can move, change and place where you want.

And, most importantly, trade everything you wish. Offers and auctions, all using our cryptocurrency BABY META.

Think about how much money is spent every second for rifle skins in FPS games, players packs on sport games, backgrounds for your computer, and everything else you can think of.

And think about how much more potential there's in this market that gives the possibility to buyers to sell back what they own, making their own price.

We want to invest as early as possible in this and you can do it too if you believe this is going to be the future, by simply owning and holding BABY META, to be a part of this journey right before it goes viral.
