

WHITEPAPER

Invest & Connect
Beyond Cash

A decentralized financial system with peer to peer transactions based on
Blockchain Technology.

What is BCHConnect ?

BCHConnect is a Lending platform to make our customers financially independent through a decentralized cryptocurrency. We use decentralized blockchain transaction technology, so no centralized third party to trust. Transactions are performed directly between the users.

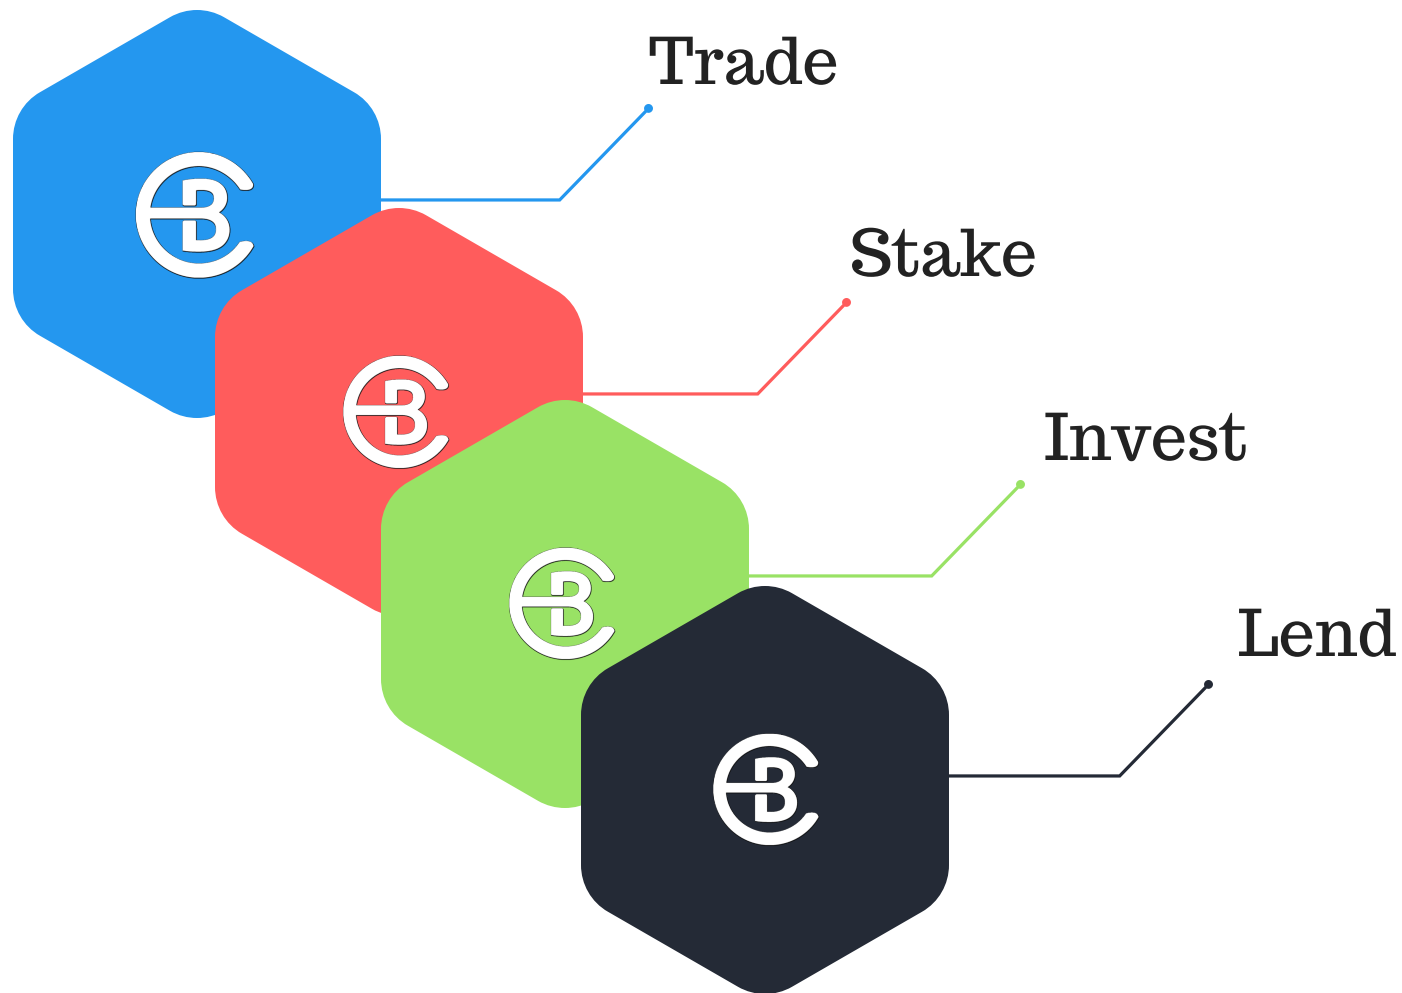

BCHConnect provides various investment options which suit our customers who have varied investment strategies. Our customers can choose the plan of their choice and invest.

We use Artificial intelligence and Machine learning techniques to predict the short term prices of Bitcoin & Bitcoin cash to make profits on a daily basis.

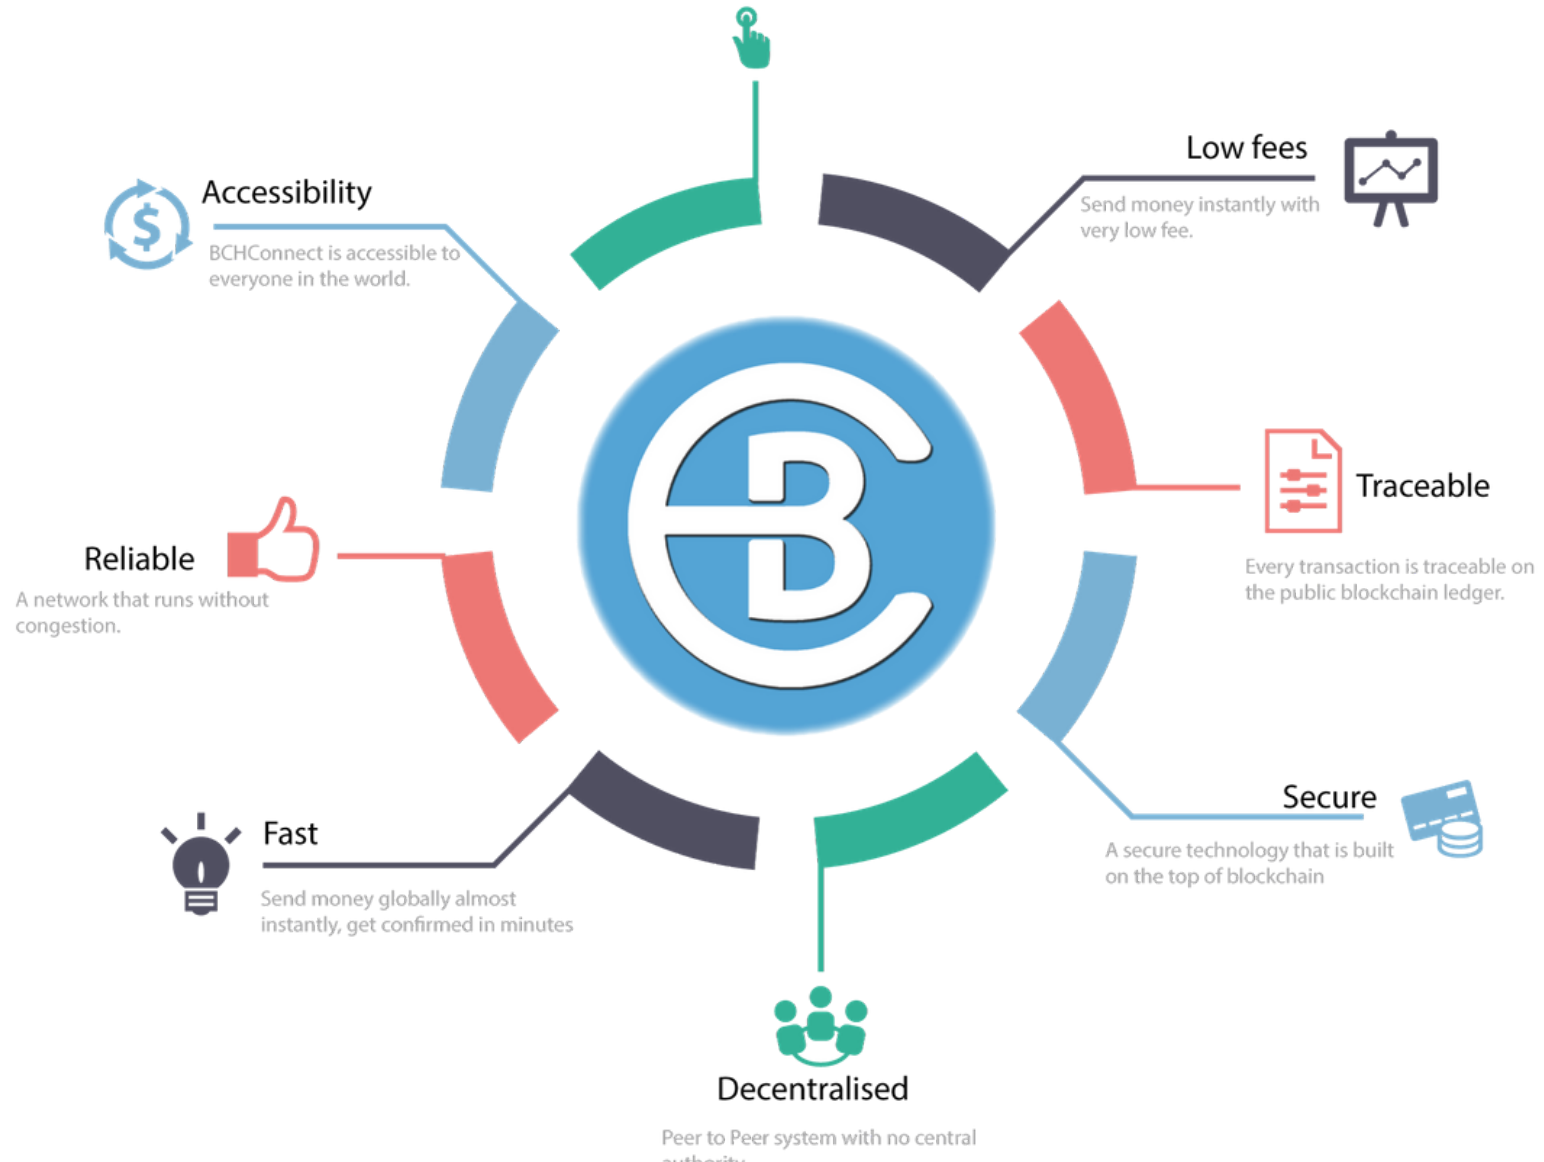

Our customers will be provided with daily interest on their investments. Daily interest is based on the price volatility of both the Bitcoin Blockchains Bitcoin(BTC) and Bitcoin Cash(BCH).

This is a one time opportunity to take advantage of growing digital economy.
