

## Specification

Coin Name : Dash Platinum

Algorithm : X11

Pow/Masternode(POS)

Pow 18%, Masternode(POS) 72%, Governance 10%

Max supply : 197,000,000

Pre-mine : 4.7%

Block reward 4

Block time 150 seconds

decreasing by 10% every year

Required 1,000 DASHP for Masternode

## About Dash Platinum

Dash Platinum is a modern cryptocurrency with security features

Dash Platinum supports High-speed transactions, minimal commission and top-notch security

Dash Platinum can be spent securely both online and in person with only minimal transaction fees.

Dash Platinum is aimed to be used in single-party broadcast platforms(Like a twitch), SNS chat platform infrastructures

It is possible to send dash-platinum coins to BJ on a one-man broadcasting platform.

The broadcast has a virtuous circle that generates income from dash-platinum coins.

## Reward

To guarantee long term sustainability of the blockchain, the network keeps a portion of the block rewards back as new blocks are created, with the masternode operators tasked to act as stewards and invest in the maintenance and expansion of the network by voting.

This results in faster development and promotion, creating a virtuous cycle that benefits all actors, including miners, masternode operators, investors and users.

Masternode (POS) 72%

Mining (POW) 18%

Decentralized Governance Budget 10%

## Mining

Dash Platinum implements an algorithm known as X11.

Mining is possible on a range of hardware.

## Masternode

The masternode system is referred to as Proof of Service (POS), since the masternodes provide crucial services to the network.

Masternode is required to have 1,000 Dash Platinum collateral, a dedicated IP address, and be able to run 24 hours a day without a more than a 1 hr connection loss.

Masternodes are all paid from the same pool of money, approximately 72% of the total block reward is dedicated to this program.

As the masternode grows, Dash Platinum coin lock rate goes up, so the price is stabilized.

*We recommend VPS services such as Vultr or DigitalOcean*

Example								
	2018	2018	2019	2020	2021	2022	2023	2024
Required 1,000 DASH for Masternode	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000
Block amount (1year)	210,240	210,240	210,240	210,240	210,240	210,240	210,240	210,240

$Reward = Reward\ Amount / Masternodes$

*(If the master node is small, the compensation ratio rises)*

## Governance

Dash Platinum uses 10% of the block reward to fund its own development.

Every time a block is mined, 18% of the reward goes to the miner, 72% goes to a masternode, and the remaining 10% is not created until the end of the month.

During the month, anybody can make a budget proposal to the network.

If that proposal is approved by at least 10% of the masternode network, then at the end of the month a series of "superblocks" will be created.

At that time, the block rewards that were not paid out (10% of each block) will be used to fund approved proposals.

Public participation(Masternode) is more important than the skills of a few developers.

This type of compensation scheme, which makes it desirable for anyone to get involved in development, facilitates the development and activation of Dash Platinum

Our community will continue to develop naturally and continuously without the need for artificial effort from a few developers.

## Distribution

Development team 30%  
Marketing expense 55%  
Advisors and project managers 10%  
Legal support 5%

## Road Map

### 2018

#### 1Q

Dash Platinum Project start-up  
Launch Website, Explorer  
Window Wallet Release

#### 2Q

Bounty Program Start  
Get listed on masternodes.online  
Get listed on Exchanges crypto-bridge

#### 3Q

Launch conference organization(Masternode)  
Mac, Linux, Web Wallet Release  
Listing on Coinmarketcap  
Release of Mobile (Android/iOS) wallet

#### 4Q

Expansion of the development team, marketing team

More exchange listing  
Launch chatting SNS platform (Use Dash platinum coin)

## **2019**

### **1Q**

Launch single-person broadcast platform (Use Dash platinum coin)  
Release Dash platinum market beta open  
Interworking with online shopping mall sites

---

# **Specification**

## **Instant**

Your time is very important. Instant Send payments confirm in less than a second.

## **Private**

Protect your financial information. Masternode servers around the world encrypt and secure transactions.

## **Blockchain Technology**

Dash Platinum is a community-centric cryptocurrency with distributed consensus

## **Peer-to-peer Transactions**

Dash Platinum has no central authority or bank.

## **Dash Platinum Platform**

Dash Platinum is aims to be used in single-party broadcast platforms and SNS chat platform infrastructures

Dash Platinum Platform will become more active.

# **Conclusion**

The White Paper is to present information about Dash Platinum (DASHP) to potential  
The purpose of the following White Paper is to provide relevant and reasonable information to the  
public and to potential Dash Platinum holders to be able to make an informative decision  
An updated version of the White Paper may be published at the web site of Dash Platinum  
and it is  
advisable to regularly check for such updated versions.
