# VISION

**Bringing affordable crypto to the masses on a global scale.**

**We aim to facilitate and empower everyone worldwide to participate in the wealth redistribution and creation that is currently taking the world by storm with the introduction of Cryptocurrencies.**

# INTRODUCTION

**GFC (*Global Free Coin*)** is a revolutionary initiative with the aim at empowering everyone to enter the world of crypto. With cryptocurrency growing at a staggering rate throughout the globe it has become evident that the market is currently dominated by the wealthy as purchasing crypto can be a very costly and not accessible to the masses. With the many advantages attached to utilizing cryptocurrencies, it is not merely seen as an investment but also the most secure and fastest means of trading across borders due to the elimination of conversion from currency to currency, which often comes with a multitude of hidden costs and obstacles.

Cryptocurrency is no longer an option and is fast becoming a necessity in all aspects of everyday life. Shopping platforms are evolving along with the crypto world and more and more shopping platforms are coin based because of the transparency and speed. Unfortunately provision was not made for the masses with regards to crypto.

**GFC** aim at removing the current exclusivity of crypto and providing a crypto coin that is abundant and affordable to everyone.

With a Total Token Supply of 500 Billion it will allow every person on earth to own 70 **GFC**, whereas other currencies have a limited supply.

We are truly making Crypto Accessible to everyone.

## Goal and purpose of the FREE coin project

**GFC** is determined to pave the way for Global Mass Usage by means of making available a cryptocurrency which is affordable and obtainable to all income groups and by doing so, leveling the ground for the lower income bracket. With the growing rate of crypto usage for investment as well as purchasing and selling it has become fundamental to create an opportunity for all to have access to crypto.

At present cryptocurrencies are not suited for the masses as a limited amount of crypto is available which makes it unattainable to people in the middle and lower income bracket. Cryptocurrency trading and investment is growing at a rate that was never anticipated and not provided for. With Bitcoin, Ether, Litecoin etc. provisions were not made for millions whereas billions are needed to accommodate everyone.

The team at **Global Free Coin** has, after extensive research, established that a solution for this imbalance was detrimental to accommodate everyone and avoid a huge part of the global population being excluded from the advantages of cryptocurrency.

The most effective solution to rectifying the current exclusion is by means of infiltrating the market with a coin that is not only affordable to the

masses, but also ensures availability to the billions as opposed to the millions which are currently reaping rewards of limited crypto. Supply must meet demand.

**GFC** is providing the solution using the Ethereum Blockchain because of its stability within the crypto market. Wallets and Exchanges are readily available, mining is guaranteed as a multitude of altcoins run on top of the Ethereum Blockchain and they have substantiated technology which is fast and reliable for both storage and exchange of value.

## Creating Global Wealth

Over recent years it has become evident that cryptocurrency will become the world standard “storage of value” as it is gradually replacing all current methods to store value such as bank accounts, pension funds, fiat money etc.

Cryptocurrency is fast becoming the preferred method of payment across the globe as more and more businesses are getting onboard because of the transparency and speed of transactions coupled with the simplicity of cross border sales and purchases.

Because of that staggering growth in the demand for crypto, the value of cryptocurrencies will increase at a rate that is very formidable. A huge amount of wealth will be generated during this growing process as well as the wealth that will be transferred from prior storage of value into cryptocurrency. The early investors in cryptocurrency will profit significantly from this inevitable growth and generate significant wealth.

The **GLOBAL FREE COIN** project is the means to give everyone access to crypto and thereby empowering everyone to participate in this wealth creation.

# Obtaining Coins

**GFC** acknowledges the two requirements for enabling a “store of value” and “exchange of value” and aim to meet both.

Availability – enough coins to accommodate everyone worldwide to use it.

Price – a substantial amount of coins to lower the initial cost thereof.

At **GFC** we have decided to make available 500 Billion Free coins. This may sound like an excessive amount however when calculated it amounts to a mere 70 GFC coins per person throughout the world.

We will be selling our initial tokens via Forkdelta and PayPal.

Distribution of the **Global Free Coin** will be initiated in the following manner:

ForkDelta Link For Pre-ICO

<https://forkdelta.app/#!/trade/0x3330a571af9e2cab4a4b609b6010f2becc65ae24-ETH>

## **Token Sales Prices are as follows:**

### Pre-ICO 1

- 5% Total Token Supply
- 25,000,000,000 GFC
- Price = 0.0000000001 ETH
- Bonus = 9900%
- Purchase = ForkDelta and Paypal

### Pre-ICO 2

- 5% Total Token Supply
- 25,000,000,000 GFC
- Price = 0.0000000005 ETH
- Bonus = 1900%
- Purchase = ForkDelta and Paypal

### Pre-ICO 3

- 5% Total Token Supply
- 25,000,000,000 GFC
- Price = 0.0000000025 ETH
- Bonus = 300%
- Purchase = ForkDelta and Paypal

## ICO Phase 1

- 5% Total Token Supply
- 25,000,000,000 GFC
- Price = 0.0000000050 ETH
- Bonus = 100%
- Purchase = ForkDelta and Paypal

## ICO Phase 2

- 10% Total Token Supply
- 50,000,000,000 GFC
- Price = 0.0000000075 ETH
- Bonus = 30%
- Purchase = ForkDelta and Paypal

## ICO Phase 3

- 20% Total Token Supply
- 100,000,000,000 GFC
- Price = 0.0000000100 ETH
- Bonus = No Bonus
- Purchase = Smart Contract SelfDrop

# Technical

## **Smart Contract**

The **Global Free Coin** is created as an ERC20 smart contract on the Ethereum ETH blockchain.

## **Wallets**

The **Global Free Coin** can be stored in every wallet which is Ethereum ETH ERC20 compatible.

## **Exchanges**

The **Global Free Coin** can be traded via address trading on every Ether based Distributed Exchange (DEX) – Token store, Forkdelta, Etherdelta, etc. Once we have raised enough funds we plan to use the majority of funds to list on bigger and better exchanges.

# Token Information

Name: Global Free Coin

Symbol: GFC

Supply: 500,000,000,000

Pre-ICO: 0.0000000001 ETH

ICO: 0.0000000100

Verified Token:

<https://etherscan.io/token/0x3330a571af9e2cab4a4b609b6010f2becc65ae>

[24](#)

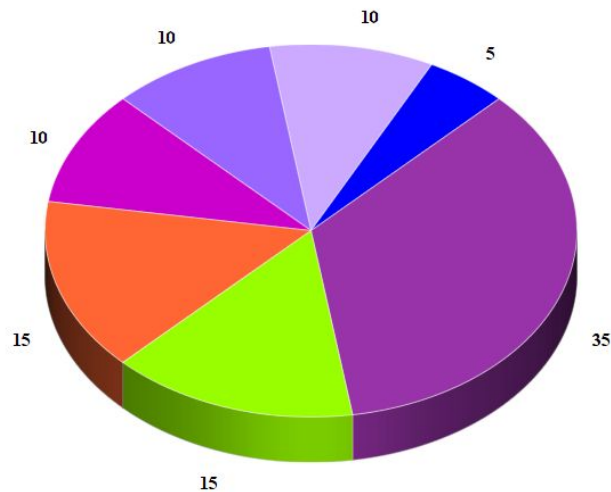

# Token Allocation

**SUPPLY = 500,000,000,000**

- Founders (Locked for 12 Months): 15% = 75,000,000,000
- Bounty / Marketing: 10% = 50,000,000,000
- Airdrops: 10% = 50,000,000,000
- Giveaways and Daily Lottery: 10% = 50,000,000,000
- Pre-ICO: 15% = 75,000,000,000
- ICO Public Sale: 35% = 175,000,000,000

TOKEN DISTRIBUTION

Founders (Locked For 12 Months)   Bounties / Marketing   Airdrops   Daily Lottery (Distributed Over 12 Months)  
Exchange Listing / Partnerships   Main Token Sale   Early Investors / Pre-ICO

# Use of Funds Raised

Since we are selling the token at such a cheap initial price we estimate that we will raise between 200 ETH to 1700 ETH. We will use these funds to get listed on exchanges, marketing to build our community and building new partnerships. Listing on as many quality exchanges as possible together with marketing will be our biggest priority. Below are estimates depending on how successful the project is. These figures may vary.

**Marketing / Exchange Listing / Development – 50%**

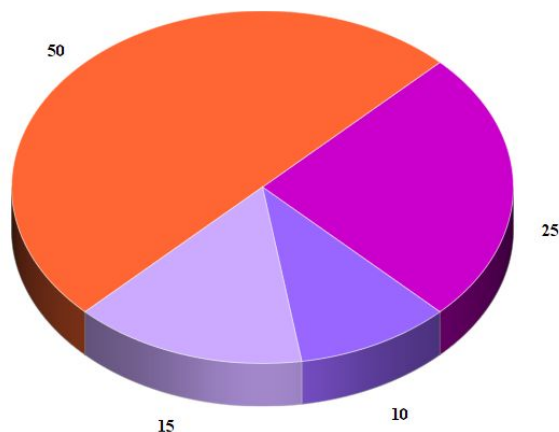

**Backup Reserve – 25%**

**Legal - 10%**

**Operation – 15%**

FUNDS ALLOCATION

Marketing, Development, Exchange Listing   Backup Reserve   Legal   Operations

# Roadmap

## Global Wealth Creation

### Q4 2018

#### Project Idea And Creation

1. Creation of Smart Contract
2. Creation Of Website and Social Media Accounts
3. Creation of Whitepaper
4. Begin With Airdrop and Lottery
5. Start Pre-ICO Via Forkdelta and Paypal

### Q1 2019

#### ICO Token Sale + Exchange Listing

1. Main ICO Token Sale Begins
2. Build up Social Community Via Airdrops and Competitions
3. List on 2 Smaller Paid Exchanges
4. Pay Participants of Airdrop
5. Instead of Burning unsold tokens we will airdrop them to the first 500 wallets who purchased for 0.1 ETH or Higher.

## **Q2 2019**

### **Continued Community Growth**

- 1. List on 2 Medium Sized Paid Exchanges**
- 2. Begin Voting Airdrop and Bounty Campaign to Vote for multiple Exchange Listings.**
- 3. Begin Bounty Campaign For Social Media Marketing.**
- 4. Establishing of the GFC Social Media Leaders and Administrators to Assist in Creating Multiple Accounts in over 20 Languages.**

## **Q3 2019**

- 1. List on 1-2 Large Paid Exchanges**
- 2. Recruit Global Ambassadors to educate the masses about cryptocurrency and spread the word about Global Free Coin throughout the globe.**
- 3. Continue To Build Community Support**
- 4. Get Listed on Coinmarketcap (Latest Date) Could be much sooner.**
- 5. Search For Partnership with Crypto accepting e-commerce platforms.**

# The Team

In honour of Satoshi Nakamoto, the creator of Bitcoin.  
The team of Global Free Coin wishes to remain anonymous.

Our objective is to create global wealth and change the world for the better  
using blockchain technology.

We want to achieve this without individual recognition and once all of our  
objectives have been achieved we will reveal ourselves.
