

Metaverse Career

WHITEPAPER

A decentralized world : Welcome to the world of MetaVerse Career

Earn tokens by working in the metaverse universe. Thanks to the virtual businesses you will establish, you can earn real money by making a career. As you guessed, the currency of this metaverse career universe is very different from physical coins. Here, your earnings will be "Metaverse Career" tokens.

What is the Metaverse Career

Metaverse Career enables to establish various businesses in the metaverse world to be built and earn Metaverse Career Tokens thanks to these businesses.

How do I earn ?

The businesses you will establish should be the kind of businesses that will serve this universe. For example, an NFT store can be established and your product can be purchased by visiting these stores with VR glasses. If your NFT work is an image, you display it in the Art museum and customers

can purchase it by experiencing your work in a unique way with VR glasses. Maybe you're crafting clothes for a metaverse avatar. People can buy the clothes you produce for their avatars. In the world of Metaverse Career, your imagination can save you money.

Tokenomic

We chose to design our utility token with a built in %10 transaction fee on every transaction. 5% get burnt, lowering the total supply. The other 5% are redistributed amongst the holders of our token.

MetaCareer token has a total supply of 100 quadrillion tokens.

Right after we launched on pancakeswap we burned 20 quadrillion(20%) tokens.

We added 40 quadrillion tokens in the liquidity pool tokens.

20% Will be burned when it reaches 1000 holders.

20% Will be burned when it reaches 5000 holders.

Our MetaCareer minter is powered by Binance Smart Chain.

Smart contracts and adheres to the universal ERC-721 token standard. Later on we will be adding support for ERC-1155.
