Outing

*« Do not miss anything, live in real time. »*

# WHITEPAPER

The first Community application (iOS & Android) dedicated to the outputs and events in real time, integrating its own decentralized crypto-currency based on the blockchain Ethereum, and usable anywhere in the world.

## Table des matières

# 1 – The story behind the Outing Project

The Outing project is part of a simple problem that we all asked ourselves one day :

"What's going on around me right now? "

It is by trying to answer this problem that we imagined Outing, an iOS and Android application, simple and intuitive, which allows its users to indicate an event by geolocation. Other users can then notify their presence and the quality of this event when they are geo-located nearby.

Here are some examples that will talk to you :

- You are at home on a Saturday afternoon, you want to go out in your city but you do not know what to do. You then open the Outing application and you can at a glance look at the events around you and which is the most interesting thanks to the opinion of other users: a street dancer, a musician, an exhibition or even a public concert.
In addition, you can see if your friends are already at a specific event and go find them!

- You are walking in the street when you come across a street marketing event that is not yet indicated on the application, then you hasten to notify it by indicating the characteristics of it.
Congratulations, thanks to you other users can see this event and now indicate their presence and if it pleases them, you become an "outlet finder" and a real influencer for the whole community !

- We are Saturday night, you are with your friends and the fateful question arrives : "where will we go out? ".
Either you go as often in the same bar, the same nightclub or you launch Outing to discover new places and especially to see where there is the most people and the best atmosphere in real time thanks to other users. So you are all together in this bar where the evening is in full swing and you indicate your presence and your opinion on the evening. No more surprises with Outing, you enjoy the best parties !

We have also integrated a "level" system for the users, the more you will live the application, the more you will gain experience and so your "level" will increase. This will be a real guarantee of trust for other users when you indicate events.
You will also be able to unlock official badges during special events or when you meet certain conditions !

But that's not all, we wanted to reward you for your use of the application because it is thanks to you that she will live. That's why we created Outing (OTG), our decentralized crypto-currency based on the Ethereum blockchain and usable anywhere in the world thanks to a physical card linked to its own secure wallet.

Indeed, every time you indicate an event, your presence, evaluate the quality, you will win OTG stored on your secure and visible wallet via your profile on the Outing application.

Then, all you have to do is send these OTG to your Outing card, the exchange in the currency of your choice is done automatically.

Your Outing card is like any other bank card, it's up to you to use it as you wish to buy something from your favorite store, buy online, have a drink in your favorite bar or pick up cash !

Finally, the Outing application will also be a new means of communication for professionals: bars, nightclubs, museums, brands organizing street marketing events, etc. They will be able to touch in real time, the users who really count for them by indicating their events.

## 2 – Outing Team

Outing's idea came at the end of 2016 and since then we have assembled a team of professionals and experts, passionate entrepreneurs who want to make the use of cryptocurrency accessible to everyone with an innovative application where the community will be at the heart. of the daily use of Outing.

**Martin MUSSET**
*Chief Executive Officer*

**Gauthier TESTU**
*Chief Marketing Officer*

**Mickaël DEBRIE**
*Chief Product Officer*
*Crypto-Expert*

**Romain RICHARD**
*Chief Technical Officer*
*Blockchain Expert*

**Jérémy MATHON**
*iOS & Android Developer*

**Benjamin SOMRANI**
*Android Developer*

**Antonin BRETON**
*UX/UI Designer*

**Albane RAVIART**
*Press Relations Officer*

**Benjamin DUTRIEZ**
*Social Media Expert*

- ### **Martin MUSSET – Chief Executive Officer**

At the head of the Outing project, he was able to detect this real issue concerning outings and events. He wanted to answer it by providing a simple, effective and innovative solution that is the Outing application.

Graduate of a Master II in Event Communication, Martin MUSSET is passionate about organizing events and finding new ideas for outings. It was therefore obvious to want to set up this project. As a true conductor, he has managed to bring together a team of professionals and experts in their field with the same vision for the future of Outing.

- ### **Gauthier TESTU – Chief Marketing Officer**

A passionate entrepreneur, he is at the head of a Champagne brand: Mazarus, which is a partner in the Swarovski® branding program with its partner Mickaël DEBRIE.

Gauthier TESTU, graduated from a Master II Brand Marketing Manager, will bring all his expertise and his strategic vision in marketing to make the best decisions and make outing the reference in terms of application for outputs and events in real time. Moreover, since he was very young with new technologies, it's only natural that Gauthier accepted this new challenge.

- ### **Mickael DEBRIE – Chief Product Officer**

Associate manager of the brand of Champagne Mazarus, Mickaël is a lover of the entrepreneurial universe but it is also a crypto-investor of the first hour, in the ambitious and community projects. Convinced of the power of blockchain technology, he knows that we are experiencing a worldwide revolution.

Graduate of a Bachelor in Communication & Marketing, as well as a Bachelor of Entrepreneurship and Management, Mickaël will transmit all his precious experience and his energy for the good of the community and the Outing team, while creating this global solution.

- ### **Romain RICHARD – Chief Technical Officer**

An emblematic person of our team with multiple skills that will bring all its rigor and technical expertise to guide the teams of developers.

Blockchain expert, he has studied this technology since its inception and will be benevolent about the development of the project as a whole. He is already an accomplished entrepreneur, since he now manages the company SecondLIFE, a specialist in the repair of smartphones and tablets. Graduate of a degree in mathematics, Romain will be force of a pragmatic and structured vision.

- ### Jérémy MATHON – iOS & Android Developer

At the heart of the project, Jérémy is an outstanding iOS & Android developer, he has been programming since his teenage years and has already participated in many successful HACKATHONs. He will lead the development of the application where his talent and professionalism will marry brilliantly, with our future developers and engineers. He is a future graduate of the famous Epitech programming school. Proof of his talent, he easily combines his end of higher studies with the development of this ambitious project.

Jérémy has also been a digital nomad for 1 year, his many travels and his encounters with different cultures gives him an open mind to the rendezvous. He is a central part of the team, who will put his heart and soul into this project.

- ### Benjamin SOMRANI – Android Developer

Discreet and professional, Benjamin will support Jeremy in the development of the Android version of the application. He will bring his precise and technical knowledge on this support. Benjamin graduated from a Bachelor in Epitech and a license to Supinfo is a true perfectionist and a lover of work well done.

For total transparency, Benjamin joined the team a little over 6 months ago.

- ### Antonin BRETON – Designer UX/UI

For a project of this magnitude, Antonin has put his talents and creativity into developing a simple and intuitive design for Outing.

His vision allowed us to develop a very visual and optimized user experience. Graduate of a Master II in graphic design, Antonin is the artist at the heart of this project that will enrich the interface of the application and improve its use.

- ### Albane RAVIART – Press Relations Officer

The sunbeam of the team, Albane exudes a real joie de vivre and knows how to transmit all its positive energy.

But it is above all an excellent communicator, who will effectively manage the Outing project's communication and ensure the necessary media coverage on a global level. Graduate of a Master II in Communication, Albane will put all her knowledge to make Outing shine.

- **Benjamin DUTRIEZ – Social Media Expert**

Conductor of various social networks, Benjamin puts his mastery in the service of the Outing community where responsiveness and transparency will be the watchwords of our communication. It will federate and animate this great and beautiful community that will not stop growing.

Graduate of a Master II in Marketing, Benjamin will be Outing's ambassador on social networks and where he will be present during events to be closer to the community.

This team will of course get to grow as a result of this ICO, no less than 4 developers (according to the various CAP reached during this ICO) will join us to complete the development team of the application and also develop the complete banking payment solution and secure wallet.

A cohesive team with the same common goal: the success of the outing project.

# 3 – Outing Summary

- Community application (iOS/Android) dedicated to real-time events and exits. It will be free and available during the 4th quarter of 2018.

- You are the main actor of the life of the application, indicating and notifying events (street musicians, street-marketing, exhibitions, public concert ....) but also evenings in bars or nightclubs , nearby via geolocation. Thanks to Outing, you are always informed of what's happening around you in real time !

- It is also a new tool of communication for all professionals organizing events : museums, bars, nightclubs, brands.

- An ERC20 cryptocurrency dedicated to the use of the application: Outing (OTG).
  You are rewarded for your daily use of the app by earning OTGs, they are stored on your own secure wallet wallet and visible through your profile on the app.

- An Outing physical card.
  You can transfer your OTG on this card with its own wallet, for use in everyday life by converting them in the currency FIAT (€, $ etc ...) of your choice: make payments online and offline but also withdrawals via distributors. Outing card is the latest technology making the use of cryptocurrency accessible to all. Such features as advanced security and ease of use make it a must.

# 4 – Main Features

## A – A community app dedicated to outings and events

Outing is, as explained above, a free iOS & Android application scheduled for launch in Q4 2018.

The beta test will be launched during the 3rd quarter of 2018. All ICO participants will be included in this beta and they will be able to follow the development of the application, talk with developers and more.

We are developing our MVP for the moment, which you can see the first screenshots at the end of this whitepaper and on our official website. At the end of this ICO and depending on the funds raised, we hope to have 4 full-time developers on the development of Outing application and secure wallet.

The application is natively developed on each medium for added stability and to provide users with unparalleled experience.

We are already reserving some nice surprises and more features for the V2 that will be released in mid-2019.

## B – A cryptocurrency based on the Ethereum decentralized blockchain that rewards users and can be used anywhere in the world

To reward users of the Outing application, we created our own cryptocurrency: Outing (OTG). It is based on the ERC20 protocol of the Ethereum blockchain.

Thanks to this cryptocurrency that rewards the use of the application by notifying and indicating events, we want to make use of crypto-currencies in everyday life.

Our cryptocurrency will have its own wallet that will be directly visible from the application, for a simple, intuitive and secure use and storage of OTG for users. Indeed, your wallet is protected with advanced technology in order to secure and preserve your financial privacy. As a result, Outing does not hold your property and no personal data, you are the only holder authorized to manage your funds.

This wallet will be coupled to a physical Outing card to use your OTG anywhere in the world.

## C – A physical card working with its own secure wallet

Once you have obtained Outing (OTG), thanks to your use, these will be stored in your wallet and linked to your Outing account. You can then simply transfer them to your Outing card.

With outing cards, our users can shop online and in real time by converting their OTG to FIAT currency (Euro, Dollar, etc.). With the implementation of a decentralized liquidity network, Outing users will be able to manage their OTG payments and transfers while converting them, as simply and quickly as sending a message.

The borderless potential of this cryptocurrency is essential for users. Outing will therefore develop a decentralized system to make payments more flexible and fast.

Now users will spend less time making payments and converting to foreign currency. You can transfer and exchange your OTG in more than 10 currencies with low and transparent rates. This function will allow you to avoid abrupt price changes on trade and make your transfers reasonably.

We will strive to reduce the distance between our cryptocurrency and FIAT currencies in everyday life by following the principle of decentralization.
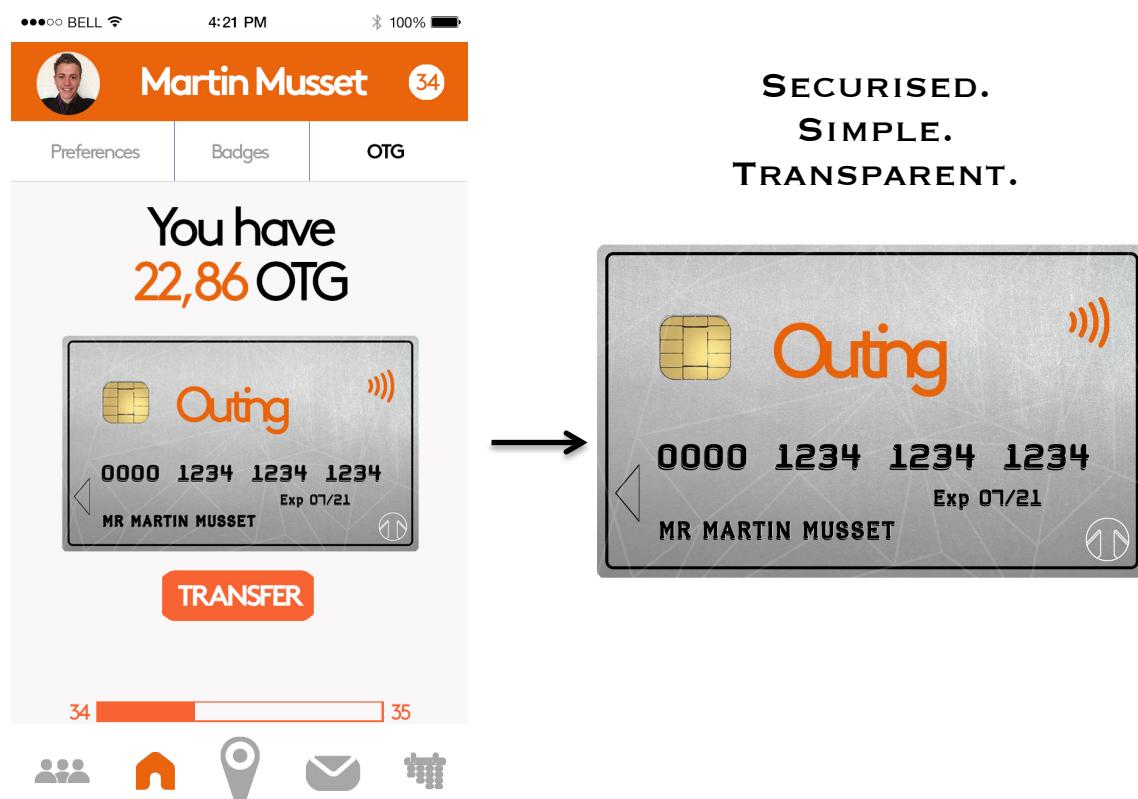

# 5 – Outing Tokens

## A – Detailed structure of OTG tokens distribution

At Outing, we believe that the key to success lies in the convergence of Outing's interests, goals and community.

We are confident that you share our vision of the future and that is why 56% of OTG tokens created will be stored and blocked in the Outing Reserve until the application is released. They will be used to reward users for their use of the application, as written above.

36% of OTG tokens are distributed during the ICO, unsold tokens during this phase will be burned. The remaining 8% is dedicated to founders and employees as a reward for their efforts and the resources contributed to the project. This fund will be blocked during one year.

For a total of 560 million OTG tokens created.

# 6 – Outing Initial Coin Offering (ICO)

## A – Why organize an Outing tokens ICO ?

The idea of organizing an ICO was evident at a meeting where we were looking for a way to reward users of the application for their involvement and their everyday use.

The Outing team is made up of "crypto-enthusiasts" and passionate about blockchain technology, so we decided together to create our OTG token and integrate it as a key part of this project.

Indeed, with this decision, Outing is no longer just an application but a large-scale community project to develop the use and understanding of cryptocurrency by all.

We decided to share this project with you so that together we can grow it, develop it and bring it to fruition in the common interest with complete transparency. This is a great way for us to get feedback and communicate with all the passionate about the Outing project.

Finally, this ICO will allow us to raise the funds necessary to ensure the development in the medium term and to give birth to the project, which we know will be a success thanks to you! We are aiming for achievable goals and are full of ideas to make outing in the coming years through other features.

# B – ICO DETAILS

| TOKEN NAME | TOKEN TICKER | MINING | PROTOCOL | TOTAL TOKEN SUPPLY |
|---|---|---|---|---|
| OUTING | OTG | NO MINING OR ANY OTHER MEANS OF INCREASING TOKEN AMOUNTS WILL APPLY TO OUTING TOKEN | ERC 20 | 560 000 000 OTG FIXED, NO DILUTION |

| SOFT CAP | NORMAL CAP | OPTIMAL CAP | HARD CAP |
|---|---|---|---|
| 20 000 000 OTG | 50 000 000 OTG | 100 000 000 OTG | 201 600 000 OTG |

| OUTING RESERVE FOR DISTRIBUTION | OTG TEAM RESERVE | ICO TOKEN PUBLIC SALE PRICE | TOKEN DISTRIBUTION |
|---|---|---|---|
| 313 600 000 OTG OTG LOCKED DURING 6 MONTHS | 44 800 000 OTG ( 8%) OTG LOCKED DURING 1 YEAR | From 0,07 $ to 0,10 $ Depending to tier of the ICO | IMMEDIATELY |

| MINIMUM PURCHASE | MAXIMUM PURCHASE | START TRADING ON EXCHANGE | TOKEN UTILITY |
|---|---|---|---|
| 0,2 ETH | 125 ETH | APRIL 2018 | REWARD IN APP |

13

## C – ICO Tiers Bonus

Because it is thanks to you that the project will be born and that it is with you that we wish to advance in this wonderful adventure, we reward you for your participation.

This bonus system takes the form of progressive level (named "Tiers") on the unit price of a token Outing. The earlier you invest in our ICO, the more attractive price you get.

In addition, each ICO participant will be included in our beta testing of the current 3rd quarter 2018 application.

Our story is written together!

| | PRICE 1 OTG → 0,00010328 ETH |
| --- | --- |
| 08 JANUARY / 21 JANUARY | PRICE 1 OTG → 0,00010328 ETH |
| 22 JANUARY / 04 FEBRUARY | PRICE 1 OTG → 0,00011803 ETH |
| 05 FEBRUARY / 11 FEBRUARY | PRICE 1 OTG → 0,00013278 ETH |
| 12 FEBRUARY / 18 FEBRUARY | PRICE 1 OTG → 0,00014754 ETH |

*14th December 2017 → 1 ETH = 678,00$*

## D – ICO CAP

HARD CAP - 4
201 600 000 OTG

OPTIMAL CAP - 3
100 000 000 OTG

NORMAL CAP - 2
50 000 000 OTG

SOFT CAP - 1
20 000 000 OTG
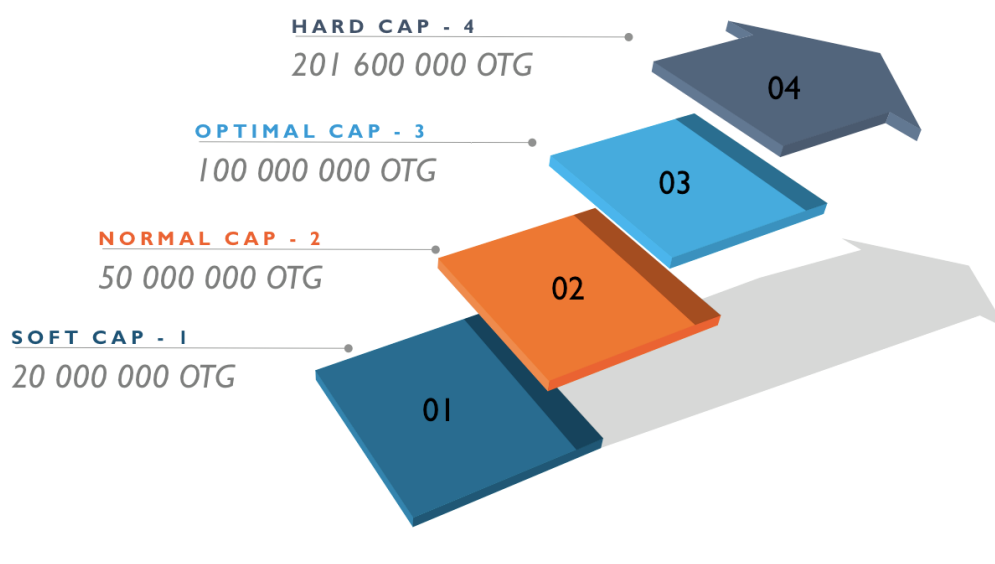

### *Soft CAP > 20 000 000 OTG*

This is the minimum amount to launch the development of the application on iOS and Android as well as the Outing card management and the development of our secure portfolio. We will also be able to carry out communication and marketing actions for the launch in a moderate way.

### *Normal CAP > 50 000 000 OTG*

With over 50,000,000 sold we can significantly shorten the development of the application and make it more quickly accessible by integrating an additional developer team. In addition, the communication and marketing budget will be increased to accelerate our reputation globally and grow the community.

### *Optimal CAP > 100 000 000 OTG*

If we reach this milestone, the stability and performance of the first release will only improve, and we will be able to implement other features. Partnerships will be forged around the world to keep the app alive and grow while rewarding you.

### *Hard CAP > 201 600 000 OTG*

This milestone ensures our development and the sustainability of the company in the medium term and will propel the project to the top. There is no reason to raise funds above our needs.

# 7 – Business Model

This project is destined to become a viable and sustainable business over time, which is why it is important for us to detail you our business model.

Our business model will be based on the sale of outing cards, which will be available for purchase either in OTG or in more than 10 FIAT currencies, for you to decide how you want to buy it.

Once this one in your possession you will be able to transfer your OTG on it, which will be transformed directly in the motto of your choice. We will take a OTG % which will be minimal on each transfer. Retrieved OTG will allow us to have a rollover so we can redistribute them to the outing community.

Then, when you spend with your Outing Card, a small percentage charge in the FIAT currency of your choice will also be charged. We assure you that these percentages will never be high and will not tarnish the overall Outing experience.

Finally, we will offer running 2019 for the V2 application, the possibility for professionals organizing events to pay for advertising, as a sponsored marker on the map to touch and inform users of the application. They can really target the people who really matter to them and thus attract more people, by having a communication tool dedicated to events and outings.

# 8 – Communication Strategy

Values :
- Prescriber of outputs
- Community
- Transparency
- Proximity
- Interaction
- Sharing

Target heart : Students aged 18 to 25 years, they go out regularly (2 to 3 times a week) and like to party. They have outing habits but also want to discover new places, new atmospheres.
Main Target : young actives 25 to 35 years, this target likes to go out and discover new places. They know most places to go out in their city but eager for novelties and unlike students they come out less but promote the quality of evenings.

Positioning : Allow users to know and locate live events around him and evaluate the quality of them.

**Brand Plateform :**

*Vision* : Every moment represents a multitude of exit opportunities.
*Mission* : To let people know what's going on around them in real time and evaluate their quality.
*Ambition* : Become the reference, the "Waze" outputs. That it becomes a reflex for the users to use it daily.
*Inheritance* : A group of friends who want to create an application after a brake: impossible to access events in real time and know the quality of them.
*Valeurs* : Transparency, proximity, interaction, community, sharing.

**Issues (Communication) :**
- How to gain notoriety with our targets ?
- How to create a faithful community ?

**Key objectives :**
- Become known ;
- To be downloaded, used and shared  ;
- Create an active community ;
- Become a reference ;
- Reflex to use it daily ;
- Reflex to add and evaluate events ;
- Rely on shared opinions.

Concept  :
- A new way to go out .
- Do not go out as before.
- Creator of outputs. "Do not miss anything, live in real time. "

**Copy Strategy :**

Objectives : to become known, to become a reference in the field of outings, to create a faithful community.
Targets : students and young people aged 18 to 35, who like going out, having fun, wanting to be surprised, discovering new places and bringing importance to the quality of events.
Targets behaviors : target attached to its smartphone, has between 35 and 55 applications, the target is ultra-connected. The target consults and likes to compare the opinions of other Internet users before trying a new service.
Target receptive : the target is receptive at any time, as long as it has an Internet connection.
Positioning : Allow users to know and locate live events around him and evaluate the quality of them.
Proof : Just download the Outing app to view events around you in real time. The opinions of people who have gone there appear. Once there, it is possible for the user to evaluate the event in turn.
Personality : A fun, dynamic, ergonomic, unique and useful application.

**Communication actions :**

Official Website

- Showcase of the application, the company and the brand.
- Relayer of all information concerning the company, the brand and the application.

**Facebook :**

- Tone : Offset, friendly, modern and soberPublication: 3/4 times a week.
- Target : BDE pages, bars, boxes, our partners, our targets (18-35 years old) as well as our future targets who will be older.

Talk about application and company news, its development, adding new partners, testimonials, relaying important events, organizing contests, sharing exclusives and interesting articles around outings, teasing Outing official events, photos and event photos...

**Instagram :**

- Tone : modern, engaging, artistic
- Publication : 3 times a week.
- Target : 18-35 ans.

Beautiful photos, photos of past events, repost of user photos, create a story around the brand and humanize it, use staged...

**Snapchat :**

- Tone : quirky, humorous, close, transparent.
- Publication : everyday
- Target : 18-25 ans

Follow the daily life of the start-up through that of the creators, immersion in the Outing organization, live events live Influencers / specifiers...

**Influencers / prescribers :**

Targets : BDEs, bloggers, bartenders, waiters and artists...

Create real influencers of outgoing, ambassadors of the application, send a press release to bloggers, invite bloggers to different launch parties, create a real relationship with our influencers.

**Press Relations :**

Targets: local press and specialized magazines

Sending of press release, allow the press to discover the creators, the company and the proposed services, to show the interest and the demand, to make known the innovating concept and our will to undertake

**Events :**

Perform events every month on alternate between evening and afternoon.

Objectives: Make talk, increase the number of downloads, create a community, be close to users.

**Street-marketing :**

At street performances, outdoor concert, etc ...

Invite people to download the application and discover them live. We will therefore prioritize our communication efforts on social networks in order to be close and transparent to our community. In addition, we rely on our sponsorship system and promote viral development.

**Logo Design**

For the design of the logo and the block mark we have chosen as main color the orange, which is a warm and pleasant color, subtle mixture of red (representing the activity) and yellow (the joy of living). It is often associated with creativity and communication, because it is true that it is a carrier of optimism and openness.

We chose a custom dosage: R: 251; V: 138; B: 57.

As for the font of the brand we wanted something in agreement with the orange, we wanted rounded shapes, it is easily readable while being pleasant to look at. We opted for the "brown" font but with a customization for writing the brand at the "i" level.

Finally for the logo, to stay in the same lineage, we wanted something rounded that evokes the outputs, the world and is easy to recognize.
The logo evokes 2 doors that open onto the world and at the same time the shape of the O and the T, the main letters of the brand name.

# 10 - Notes

If you have any doubts about the suitability of your investment in this ICO seek advice from professionals in the legal, tax and financial fields.

 TG Tokens do not constitute "securities" within the meaning of any jurisdiction. The present "Withepaper" does not purport to constitute an offer to invest in securities within the meaning of any legislation.

This document does not contain any recommendation or advice to buy or sell OTG Tokens, neither from the Seller nor from the Distributor. This document does not constitute an investment proposal or a contract and may not be the basis of an investment or constitute an investment agreement. Revenue from the sale of OTG Tokens will fund the Outing project as a whole.

No "third parties" are required to enter into the contract or legal obligations in connection with the sale or purchase of OTG Tokens. No crypto-currency or other form of payment can be accepted on the basis of this document.

Any potential "agreements" in connection with the sale and purchase of OTG Tokens between Outing or you as a Buyer are governed by this document.

If you are a Citizen, Resident (tax or otherwise), or holder of a United States Green Card or citizen or resident of the Republic of Singapore (or acting on behalf of such persons, you may not purchase tokens OTG as part of ICO Outing.

No information presented in this document has been reviewed by any regulatory authority. The publication and distribution of this document does not mean that it complies with the Laws, Regulations, and Regulatory Requirements.

There are ambiguities and risks relating to Outing, its Distributors, its business relationships and its contractors, OTG Tokens and ICO Outing.

This document (Whitepaper) or any of its parts must not be distributed in countries where the circulation of such a document is restricted or prohibited.

No part of this document may be disseminated, copied or reproduced without the warnings set forth in this chapter and following: 'Outing liability exclusion', 'No commitments and warranties', 'Your commitments and warranties' warning to forward-looking statements', 'no advice', 'no more information or updates',' restrictions on dissemination or dissemination ',' no offers, no guarantees, no registration ' market and industry information and lack of other people's consent 'and' risks and uncertainties'.

In summary of the foregoing, this document is published for informational purposes, and can not be considered as a legal document or investment proposal. We therefore strongly advise you to read the following sections of this document before making any investment decision in the Outing project.

**EXCLUSION OF LIABILITY OF OUTING**

In all possible situations and in application of the Laws, Regulations and Usings Outing and / or its Distributor can not be held responsible for any kind of damage, direct or indirect, as well as any loss, such as loss of income, profit, of use or data, which may result from your adhesion to this document or any of its parts.

**NO COMMITMENT OR GUARANTEES BY OUTING**

Outing declares that it does not give any delegation, warranty or obligation in any form whatsoever to any legal or natural person. Outing also declares to give no guarantee or commitment regarding the accuracy, truth, or completeness of the information presented in this "Whitepaper".

**YOUR COMMITMENTS AND GUARANTEES**

By reading the information in this Whitepaper or any of its parts, you agree and warrant to Outing the following:

1 / You agree and fully understand that OTG Tokens do not constitute "securities" in any jurisdiction.

2 / You acknowledge and agree that the "Whitepaper Outing" does not contain any recommendation or advice to purchase OTG tokens from either the Seller or the Distributor; that the "Whitepaper" does not constitute an investment proposal and therefore can not be considered an "investment offer" or a "contract" and that the fact that it is disseminated can not be the basis of an investment or the conclusion of an investment agreement.

3 / You acknowledge and agree that the information provided in this document has not been validated or approved by any regulatory authority or regulatory body; and that to publish and distribute this document to you does not mean that its content is in conformity with the Laws and Regulations applicable in any country.

4 / You acknowledge and agree that this document, the launch and possibly the completion of the ICO Outing, as well as the future listing of OTG tokens on crypto-currency trading platforms will not be considered, construed or collected by you as proof of the success of Outing and / or its Distributor, OTG Tokens, ICO Outing and Wallet Outing.

5 / You make sure that the circulation and distribution of this document or any of its parts is not restricted or prohibited in your jurisdiction by the appropriate Laws and Regulations, and if so you take sole responsibility for it .

6 / You become aware and you agree that in case you wish to acquire OTG Token you can not consider them :

a) As a form of currency other than a "crypto-currency".

b) As debt securities, shares or corporate shares issued by a legal or natural person          .

c) As rights, options, derivative instruments issued by a legal or natural person.

(d) As rights in a "difference contract or CFD" or any other contract the purpose of which is to make a profit or to protect against capital losses.

(e) As a unit of account for a common fund of investment

f) As a value inside a trust.

g) As a business derivative.

h) Like any other form of "securities" or class of "securities" of corporation.

7 / You become aware and agree to be fully informed that if you are a Citizen, Resident (tax or other), or holder of a Green Card of the United States of America or citizen or resident of the Republic of Singapore (or acting on behalf of such persons, you may not purchase OTG Tokens as part of the ICO Outing.

8 / You have basic knowledge of operation, functionality, use, storage, transfer mechanisms and other features related to crypto-currencies, blockchain-based software systems, wallet for cryptocurrencies and Token storage mechanisms, blockchain technology and smart contract technology.

9 / You become aware that Outing and the Distributor and their respective operations and operations include certain risks and uncertainties

10 / You become aware that within the maximum scope of applicable laws, rules and regulations, Outing or the Distributor are not liable for any significant, special, delegated damages as well as any losses such as loss of profit or revenue, or loss and the use of data caused by the trust granted by yourself to this whitepaper.

11 / All information and warranties mentioned above are true, complete, accurate and not misleading at the time of your accession and / or possession of this whitepaper (as it should be).

## WARNING NOTE TO PROSPECTIVE STATEMENTS

All statements made in this whitepaper Outing, statements made in the press or in any place available to the public or any oral statement made by Outing and / or the Distributor or the members of his team, and which is not a fait accompli, may represent forward-looking statements. Some of these forward-looking statements may be considered as such by the following terms: 'believe', 'if', 'we will', 'anticipate', 'expect', 'wish', 'possible', 'objectives',' target ',' power ',' estimates', 'except', 'want', 'can', 'should' and similar terms.

However, the terms mentioned above are not necessarily the only ones to be identified as forward-looking statements. All statements that consist of information about Outing and / or the position of the Distributor; in terms of future plans and prospects, the company's strategy and the future prospects of crypto-currencies and the banking industry must be considered as forward-looking statements.

These forward-looking statements are not facts already made but only projections that include, but are not limited to, statements about Outing and / or Distributor Profitability, forecasts and revenues, future plans and possible industry trends.
