WHAT IS RUPEEZA?

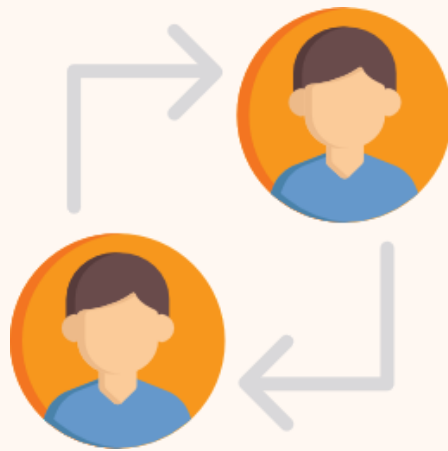

- Rupeeza is an Open Source , peer-to-peer, community Driven decentralized Cryptocurrency that allow people to invest their wealth in a non-government controlled currency , and even earn a substantial interest on Investment. This means that anyone Holding Rupeeza Coins in their wallet will receive interest on their Balance in Return for help maintaining Security Of the Network.

PEER-TO-PEER

TRANSFER INSTANT PEER-TO-PEER

- Peer-To-Peer Itself means Rupeeza Runs without having a Central Server. The Storage server is decentralized and Distributed-divided into Various Servers Run by each user connected to the network. Rupeeza Transactions are Untraceable and Not under control by Any Third-Party. Rupeeza transactions are processed instantly. After a transaction has been initiated, it is impossible to revert them. We recommend everyone to make sure they're sending RPZ to right person while transferring.

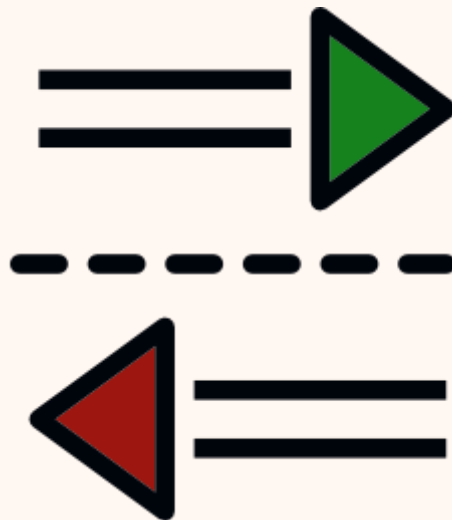

ADVANTAGES

TRANSFER MONEY EASILY

- Just Like Bitcoin, It can be sent anywhere in seconds, whenever and wherever you want. Money Transfer with Rupeeza Can happen only with just a Smartphone and any Internet Access.

TRANSFER FEE IS VERY SMALL

- Transfer Fee can be removed Until Free. But to speed up transactions you can set the Fee in Your Waves Wallet as needed no matter how much coin is sent.
