# TOKENOMICS

Token Name: Gilgamesh

Token Symbol: \$GIL

Blockchain: Ethereum

---

Total Supply: 1,000,000,000,000,000,000

Total Tax: 10%

1% Reflections

4% Marketing

5% Giveaways & Buybacks

Contract: 0xfde19f0de7a4e7eca8ab29c9f202a21a3b3503de

---

# DISCLAIMER

The utility presented in this whitepaper is what the Gilgamesh team initially intended to create for our Bablyon Ecosystem. However, these are just our own ideas for what we wanted, and not something that is unchangeable.

Since we have started this token, we have noticed different utility applications other tokens were doing (P2E Games, Metaverse applications, etc) that we would love to do as well, and that is why we are willing to be flexible with what the Babylon Ecosystem consists of. Our fantastic community has had great ideas of what we could add to Gilgamesh and we are taking them all in. However, what is written in this version of the Whitepaper is what we are doing as of now.

# INTRODUCTION

## *Who is Gilgamesh?*

Gilgamesh is a character from the Japanese visual novel and anime *Fate/Stay Night*.

He is derived from an ancient Mesopotamian work known as *The Epic of Gilgamesh*. In which the legendary King of Kings overcame great trials and tribulations along his journey.

We chose to base our token off the great King because of his ties to wealth, power, and prosperity.

---

Gilgamesh was inspired by the recent boom in Anime based Crypto tokens. However, we noticed that a lot of these initial tokens lacked an actual reason to invest in them other than pure hype, which unfortunately can only drive a project for so long before fatigue sets in.

We wanted to go against that.

We wanted to offer up an entire ecosystem of utility functions, that which you'd see in the likes of something like Saitama, Luffy, and others. That is when we came up with the Babylon Ecosystem.

---

# OUR FUTURE

Gilgamesh is intended to be an ever expanding utility token that continually adds on different applications over time. That is why we came up with the concept of the *Babylon Ecosystem*, a product that will encompass all the different utility functions we make. So far, the *Babylon Ecosystem* consists of three different projects we initially came up with to kick off our project. They are detailed as follows.

---

## THE BABYLON ECOSYSTEM

### LAUNCHPAD

It's no secret that Anime themed Crypto tokens have been exploding like crazy recently, and that is why one of our three main utility functions is going to be a launchpad. The launchpad will provide upcoming Anime tokens with a platform to help launch their new currency on, and investors will be able to see what these new projects are, and get involved with them early. Those holding \$GIL can also get access to presales, whitelists, or airdrops of these new tokens.

---

# THE BABYLON ECOSYSTEM

## NFT MARKETPLACE

NFTs without a doubt have taken over Crypto by storm, with popular NFTs like BAYC or Crypto Punks selling for millions of dollars. To capitalize on this craze, we want to create an NFT Marketplace that mainly centers around the NFT Collections for other Anime Crypto tokens. We have analyzed the problems that well known marketplaces like OpenSea have had, and intend to solve them with our own. Gilgamesh holders will be able to purchase and exchange NFTs using \$GIL, and a portion of sales will go towards funding future Gilgamesh projects.

---

## GILGAMESH SWAP

Gilgamesh Swap will be a decentralized exchanged centered around Anime Crypto tokens. To protect the safety of our investors, all tokens will go through an audit process before listing, with requirements such as an extensive locked liquidity period and audits from known groups (Certik, Techrate, etc). Buyers will also be able to swap their \$Gil for a number of different tokens and vice versa, streamlining the process for converting a variety of different Anime Crypto tokens into \$Gilgamesh.

---

# OUR ROADMAP

## PHASE 1

~~Stealth launch~~  
~~250 Holders~~  
750 Telegram Members  
~~Marketing Campaign~~  
~~Community Building~~

## PHASE 2

750 Holders  
1250 Telegram Members  
Coingecko Listing  
~~Whitepaper Release~~  
Audit release

## PHASE 3

CEX Listings  
2500 Holders  
Partnerships  
Beta of our first utility appliance is teased  
CMC Listing

## PHASE 4

Launchpad, NFT Marketplace,  
or Swap are finalized and dropped  
5000 holders  
Tap into Metaverse applications  
with our NFTs

# A MESSAGE TO OUR COMMUNITY.

Thank you to everyone who has supported us on this journey. It is truly amazing what we have accomplished in the short time we've been around so far, and the future is exciting for what it can hold. We are working hard every day to build Gilgamesh and truly make it the King of Anime Crypto that we want it to be! As this is a community oriented token, help us out by spreading the word and sharing Gilgamesh with all! We would not be here without you, and once again, we thank you all for everything you have done for us!

- The Gilgamesh Team
