ABOUT HIERO

Hieroglyphics the band was founded by Del the Funky Homosapien. Members include Casual, Del, Dj Toure, Domino, Pep Love, and the Souls of Mischief (Tajai, Aplus, Opio, and Phesto).

Hieroglyphics has always been on the cutting edge of technology. Hiero was one of the first bands to sell music online, starting in 1995. In fact, their award-winning website was online before many companies knew the internet would be a mainstay in our culture.

From early internet success to their mayor-commemorated holiday in Oakland California, Hiero Day, Hieroglyphics has always played the role of a trailblazer in the music industry.

After making their first property acquisition in 2004, Hieroglyphics became ambitious in pursuing their independent endeavors. They began to build a merchandising empire.

Stepping into the crowd after each performance to sell merchandise to fans was expected after Hiero's encores.

In 2014, while trying to buy a currency for a virtual world called Second-Life, one of the founding members, Casual, was introduced to cryptocurrency. Within two years Hiero had a fork of Litecoin deployed to its own blockchain, called Hierocoin.

Hieroglyphics has always represented jet-setting, cutting-edge art, lyricism, and new technology. And now with Hierocoin we step into the crypto space with a great use case for our cryptocurrency, Hierocoin \$BAR.

HIEROCOIN BAR

A COMMUNITY TOKEN

Hierocoin BAR is a Community Token for Crowdfunding
the Hierocoin DAO and Much More

Hierocoin is a community token for crowdfunding the build of the Hierocoin DAO. The symbol for Hierocoin is \$BAR. BAR is a BEP20 token that runs on the Binance Smart Chain. BAR will also serve as the native currency of the Hierocoin DAO.

Most DAOs have governance tokens that give each member voting rights. Hierocoin BAR is not a governance token. BAR is a community cryptocurrency with the crowdfunding purpose of building a DAO. Once established the Hierocoin DAO will initiate a system that brings market scarcity to BAR tokens.

BAR holders can also use BAR to farm more BAR on Hiero Farms. Our initial liquidity pair is locked for one year and the token will remain tradable for BNB on Pancake Swap. Other liquidity pairs will be added within a year's time.

HIEROCOIN BAR

A COMMUNITY TOKEN

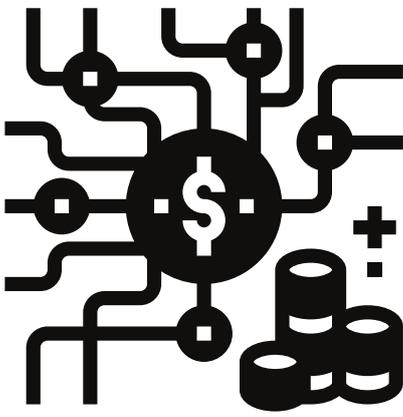

Hierovr.com, Gaming, and other use cases for Hierocoin BAR

BAR is also a metaverse currency in Hieroglyphics' metaverse world - Hierovr.com. Users will be able to shop and enjoy unique experiences in Hierovr.com in exchange for BAR. This will allow seamless in-metaverse purchases of real-world and virtual items.

Currently, gaming and metaverse currencies are the fastest growing sector in the cryptocurrency space. Our plans with BAR and hierovr.com are in sync with the growing blockchain culture. We intend to add another layer of entertainment to the gaming aspect of the metaverse by hosting unique virtual world quests for hidden tokens.

Funding the build of the Hierocoin DAO is why BAR exists. BAR functions as a currency branded after Hieroglyphics but has nothing to do with the success or failures of Hieroglyphics, Hieroglyphics Imperium, or Hieroglyphics Enterprises LLC. BAR is a cryptocurrency branded after the music group used to crowdfund the Hierocoin DAO.

BAR serves as the only currency the Hierocoin DAO will offer to incubate projects. See Hierocoin DAO whitepaper.

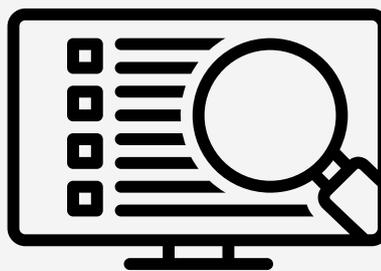

TOKENOMICS

| | |
|-----------------------------------|-----------------------|
| TOTAL SUPPLY | 93,000,000 BAR |
| INITIAL LIQUIDITY OFFERING | 50,000,000 BAR 53.76% |
| LIQUIDITY | 33,810,000 BAR 36.35% |
| TO HIEROGLYPHICS THE BAND | 9,000,000 BAR 9.68% |
| FOR HIEROCOIN FARMS | 300,000 BAR 0.32% |
| AIRDROPS | 7500 BAR 0.00806452% |

Our tokenomics depends upon the outcome of our Unicrypt pre-sale. If we reach our hard cap goal of 1000 BNB the total supply will be 93,000,000 BAR. Anything less and excess tokens are burned by Unicrypt. This measure is to protect pre-sale investors.

MORE INFO ABOUT HIEROCOIN BAR

BAR token contract address: `0x34550001Fbf7d6e42e812763C91eF96F129742AB`

Unicrypt pre-sale contract: `0x9de1d45b290705d1602c2ce317909e5a46db99af`

Unicrypt liquidity locker: to be updated after pre-sale. See pre-sale contract

Token audit: <https://github.com/OpenZeppelin/openzeppelin-contracts/tree/master/audit>

Token audit 2: In progress by Solidity.Finance

KYC: Performed by Solidproof.io

Trading Pair BAR/BNB

Exchange: Pancakeswap

Project Manager: Jonathan Owens

Developer: Jonathan Owens

The Band: [https://en.wikipedia.org/wiki/Hieroglyphics_\(group\)](https://en.wikipedia.org/wiki/Hieroglyphics_(group))

A SOLID COMMUNITY CURRENCY

Just like most cryptocurrencies with a good use case, the key to creating effective cryptocurrencies lies in their utility. Consistency in branding is important for businesses, but good tokenomics, a proven trustworthy team, and a 25-year-old fanbase set Hierocoin apart from other cryptos.

BAR will fund the creation of the first legal DAO for the Arts. The Hierocoin DAO.

OUR TEAM

Jonathan "Casual" Owens

PROJECT MANAGER

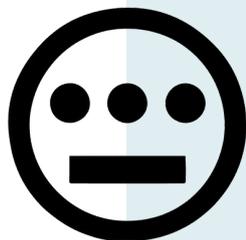

Author, Songwriter, Producer, Independent Researcher, and quasi-Developer, Jonathan Owens reads Ancient Egyptian hieroglyphs fluently. Studying blockchain technology since 2012, Jonathan achieved his first fork of litecoin in 2014 becoming the first "rapper" with a blockchain.

Brooks Boyd

DEVELOPER

Brooks Boyd is a super developer and was really the brains behind Casual's 2014 fork of Litecoin. Brooks currently works with Midnight Designs and is our first call for problem-solving.
