What is MetaVerse Dog?

MetaVerse Dog is a decentralized all-in-one ecosystem on Ethereum Blockchain which is one of the fastest-growing and safest Blockchain protocols. Our team developed the community-driven project. It's our aim to take cryptocurrency to new heights. We aim to be a platform that will provide all facilities under a single platform. MetaVerse Dog will be a whole ecosystem that will provide features like Staking, NFT Marketplace, and Metaverse. MetaVerse Dog will develop its own unique NFT marketplace and will connect the decentralized community. People will now be able to own exclusive rights on NFT's.

MVDG has Following Key Features:

secure

NFT

Community
Focused

What is MetaVerse Dog?

MetaVerse Dog has been built with one purpose to build the best-decentralized technology available and make an equal impact on Community at the same time by implementing it in their ecosystem. We are revolutionizing the decentralized protocol with a community-driven ecosystem. We are more than just a token, we are the future of decentralization and swapping in an open-source environment, on modular frameworks, that is censorship-resistant. MetaVerse Dog is built to balance all aspects of its protocol and achieve justifiable long-term growth with deliberately developed tokenomics. MetaVerse Dog is launching virtual land and gaming-based ecosystem in near future.

Staking will allow users to earn yield in a form of MetaVerse Dog tokens. We are revolutionizing the market with a more open, accessible, and fair global financial system with decentralized-powered crypto. Unlike, other conventional platforms, Our wallet allows tracking and sending/Receiving to generate more value to user's crypto-assets.

Key Features:

Ethereum

Virtual Games

Virtual Land

VISION

BE THE OFFICIAL MEME TOKEN OF THE METAVERSE.

We use blockchain technology to provide user-friendly, efficient, and secure crypto solutions.

The Future is Coming. The Metaverse is changing the way we think and act. Meme tokens of the past offered very little value. MetaVerse Dog's goal is to change the way we use the internet. Anything now is possible. The world is within your reach. Imagine a whole ecosystem running on one Meme token. No need for dozens of other Meme tokens. That is where MetaVerse Dog comes in. We will be your gateway into the future, a world that is all around you. Our ecosystem is vast and ever-growing.

We aim to have millions of users in the years to come, using MetaVerse Dog to transact in their daily life. Your one-stop ticket to the Metaverse. A gateway that takes you to the unknown, where the only limits are limits you impose on yourself.

OUR MISSION

MetaVerse Dog is a decentralized finance platform built on a blockchain with a mission to create a community-driven ecosystem that empowered the holders to better their financial condition.

Our mission is to:

- **Provide every Holder with simple and effective ways to gain exposure to digital assets.**
- **Lower the barrier for entry to a more advanced financial ecosystem.**
- **Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.**
- **Decrease volatility and increase positive price pressure in digital asset staking.**
- **Our mission is to pave the growth of crypto adoption - this happens when the users feel confident to explore the blockchain space.**
- **Provide an opportunity to everyone to invest in the virtual world without any discrimination.**

STAKING

Staking is a great way to maximize your holdings in staking coins that would otherwise be sitting in your MetaVerse Dog account. Once you have staked your assets you can earn staking rewards on top of your staking and grow them further by compounding those future rewards. This provides dual benefits of securing the blockchain network as well as creating an opportunity for users to get incentives or dividends on their staking.

As an incentive to acquire and keep onto staking assets, you can receive incentives by staking cryptocurrencies for a period of time. Simply choose the asset you want to stake to earn staking rewards, and after it has done bonding, it will be ready to start staking and receiving rewards.

Our staking platform will help the community increase the number of MetaVerse Dog that users hold. More importantly, every time you stake, you will participate in the charity donation.

STAKING

You will be able to stake your tokens and print your own MetaVerse Dog Crypto at the end of staking periods. You will be in charge of your own private keys. The longer you stake the more you can print. It is like having your own personal printing press.

You will be able to stake for different periods of time. The longer you stake your position, the more coins you will be able to print yourself. Currently, with the Federal Reserve holding interest rates near zero, you can't earn anything that resembles a return on your own money. Inflation currently at 8%, makes you lose huge amounts of money on your fiat. With Metaverse Dog, that will change.

You will be able to earn high rates of return, by printing your own tokens. Stake for a year, two, or more, and at the end of the staking periods, you print your own rewards. Your rewards will depend on what others are doing, so, therefore, can be substantial. Stay tuned for more details about our Staking Rewards program.

BENEFITS OF STAKING

Sovereign system

A decentralized global currency complete with an efficient infrastructure

SECURITY

It has inherent security which is essential to maintaining the integrity of a ledger

FAST TRANSACTION

It has a higher speed transaction rate than other projects which makes it fast and more unique than others.

LOW TRANSACTION FEES

MVDG runs on Ethereum which has low transaction fees

COMPLETE UNIQUENESS

MetaVerse Dog is a decentralized token with a Community focus.

DECENTRALIZATION

Data is replicated in a distributed network of nodes, thus eliminating several present risks when data is stored centrally. There is no single point of failure in the case of MetaVerse Dog app.

MetaVerse Dog NFT

MetaVerse Dog is also going to launch its own NFT platform where users can sign up and claim their own MetaVerse Dog NFT characters by the artist. Our NFTs' basic characteristics provide them a distinct value and categorically distinguish them from other forms of assets. These characteristics include verifiable uniqueness and indivisibility. Because the underlying code is transparent, the scarcity and ownership of any given token can be determined without the use of a trusted middleman.

MetaVerse Dog NFT

1-Easily Transferable:

The transfers of NFTs are centered on their uniqueness and indivisibility, thus the tokens are sold and purchased on a unique market.

2- Trustworthy:

NFTs are based on blockchain technologies. Consequently, you will be confident that your NFT is right, as counterfeiting a decentralized and permanent record is difficult.

3- Maintain Ownership Rights:

This is a network of open platforms, with no buyer having the ability to modify the data later.

How MVDG ecosystem is transforming the NFT

Transparency, authentication, ownership, provenance, copyright, and forgery have all been issues in the NFT industry for a long time. Moreover, the industry has historically been restricted to the elite who can manage to invest millions of dollars on a single piece of art. On the other hand, is unquestionably intended to be enjoyed by everyone, and it can transcend all social and economic barriers.

Fortunately, with our designed ecosystem, the obstacles outlined above are nearly resolved. And, as of today, the industry has created and effectively deployed amazing and sophisticated pieces of art. We are ready for transformation in the way NFT is purchased, marketed, sponsored, loved, and even made.

We will eventually be adding an NFT platform to the MetaVerse Dog website, where artists will be able to upload their NFT's to the blockchain and be able to compete against one another to have their art and brand promoted through the MetaVerse Dog channels.

Imagine being able to buy MetaVerse Dog NFT's, which are limited edition, which you can trade and sell just like other popular limited NFT's like CryptoPunks or Bored Apes? Well, that possibility will become reality in 2022. We are working on the coolest, most unique NFT's possible.

All will be limited edition. NFT's are all the rage. Many are going for Millions of Dollars. Beeple sold one for \$80 Million plus. CryptoPunks sell for more than \$100,000 each. MetaVerse Dog, the leader of the Meme MetaVerse, will be selling the best NFT's on the marketplace. You will be able to buy them right from our website IF you are a MetaVerse Dog token holder. This is a unique opportunity for our community only, and can give you the early advantage before prices soar.

You will be able to trade them, swap them, and keep them for your collection. We will also be working on ways to incorporate your NFT in select games we are working on. Imagine have your MetaVerse Dog being the hero of a story? Imagine your MetaVerse Dog saving the day? It will all be possible in our game world.

2022 looks to be a promising year for MetaVerse Dog in our MetaWorld!

Virtual Real Estate

MetaVerse Dog is working on an application that will allow everyone to claim their own Property Address on the internet for free. You will be able to print a certificate for it and trade it for others if you wish. You will also be able to buy other properties and resell those as well.

Virtual land prices are soaring. Many are going for Millions of Dollars. MetaVerse Dog will allow people to buy an island, the Empire State Building, Statue of Liberty, etc. in our MetaVerse Dog World. You will be the only registered holder of that land in our MetaWorld. Trade it, Buy More, Trade-up, the possibilities are endless.

It is like the first explorers to the New World. They got their lands cheap. The possibilities of being first in our MetaWorld are endless. All proceeds from initial sales will go towards staking rewards and coin burns. This is truly a win-win for the MetaVerse Dog World!

Ecosystem

There is an absolute feeling of liberty in the virtual world that is generated as people break free from the real environment: there is no pressure, gravity, or any physical obstacles that obstruct people's advancement. The virtual world does not enable the physical and natural worlds to exist in isolation, but instead fuses them together to "insert digital bits into physical atoms," resulting in a revolutionary way for humans to move and interact in the future! Users would be able to obtain virtual land through our ecosystem, and we will be able to draw a virtual universe that is the same scale as the actual world and fits any point on the globe. Our ecosystem consist of 3 major stakeholders

1-Buyer

2-Seller

3-Renter

Sellers get money in the form of increase in value of their virtual asset and land rent.

MetaVerse Dog Virtual Land

MetaVerse Dog is a vital component of The MetaVerse platform, and we're aiming to build fundamental dynamics that will make it inextricably linked to the platform's value. It is an Ethereum-based ERC-20 token that serves as the foundation for making new transactions. It may be used for the following purposes:

Obtain access to the MetaVerse Dog platform by going to MetaVerse Dog, which players use to play games, purchase equipment, and personalize their Avatar characters. Creators use it to buy ASSETS, LANDS, and stakes. LAND sales drive demand for MetaVerse Dog to acquire LANDS. Artists gain Gems to define Rarity and Scarcity and spend MetaVerse Dog to post ASSETS to the Marketplace.

MetaVerse Dog is a governance token that uses a DAO framework to allow holders to participate in platform governance decisions. They may vote on important issues like Foundation grant attributions to content and game developers and feature prioritization on the platform Roadmap. Owners of MetaVerse Dog can vote for themselves or assign voting privileges to other players.

MetaVerse Dog Virtual Land

VR land and property ownership is an emerging market, the initial reaction from investors and the VR community has been highly positive and has generated tens of millions of dollars in its early days. To predict what the future landscape may look like, we can look to the Second Life model to gauge what might happen. Brands will again utilize the opportunity of a whole new world in which to promote their products but on a far grander and more immersive scale.

Beyond those who will buy virtual land as a commodity in order to sell it at a higher price, many will develop the property and open digital stores – from boutiques to malls – like those that featured in Second Life. Other virtual property owners will host popular activities that generate a lot of footfall and may begin to lease their building space for real-life brand adverts. So just as the world's biggest brands inject their logos and marketing messages into the consciousnesses of the public at mass gatherings, such as music concerts, sports matches, and city centers, the same will occur at VR events.

VR property owners discover this new way to interact with the world. Virtual Reality already is and will continue to have, an impact on the global economy. More and more people will find their daily jobs in VR and will never work in the real world again. Think of it a bit like the way mobile phones leapfrogged landlines in Africa and India – there was never any need to install landlines. The same could happen with young people searching for a job. They will work in VR, managing stores, concerts, events, etc., and will leapfrog 'real world' jobs altogether. Early investors in digital worlds where the amount of available land is a finite will, therefore, need to think very carefully about the locations of the plots they reserve – and may make many of the same considerations that a landowner or property developer would in real life.

BENEFITS OF VIRTUAL Real Estate

Through the use of tokens, the Owners will be able to get the following benefits from the ecosystem

TRUE DIGITAL OWNERSHIP:

True and perpetual owners of digital items with blockchain, every virtual item can be tokenized, allowing them to decide how they want to trade, sell, or gift their items.

SECURITY AND IMMUTABILITY:

Virtual items can be easily tokenized and traded in primary and secondary markets that are managed and facilitated by blockchain technology. Items based on scarcity and demand usually invite fraud and theft, but these risks are minimized on blockchain because it is a distributed ledger.

TRADING:

Our platforms can provide users with ultimate control over their virtual assets. They can buy and sell items freely without concern that they will be ripped off or that a platform will close and cancel all the value of their items.

Our System:

We created a system where owners will be able to craft, share, and trade without central control, enjoying secure copyright ownership with the ability to earn tokens.

BENEFITS OF VIRTUAL Real Estate

Life in the virtual world has a myriad of advantages which we cannot possess in our literal lives. You can construct an entire society, culture, city with the cooperation of others.

Anything is possible

You can be a Unicorn, you can fly like SuperMan, you can be enormous and break things like Hulk. There are no physical rules that you must obey

You can try extreme experiences without consequences:

You can fly off a skyscraper, die and respawn. You can undo or redo the things that give a soothing calmness or bring an unpleasant feeling.

You can customize it to make you happy

Real life is boring, full of problems. VR can be programmed so that you have lot of friends, you always do interesting stuff, etc..

VIRTUAL TOUR

Additional perks include infinite respawns, starting over again and again, and even a visit to the past and the future!

Utility of MVDG

Advertising Brands may advertise using billboards near, or in, high-traffic land parcels to promote their products, services, and events. Some neighborhoods may become virtual versions of Times Square in New York City. Additionally, brands may position products and create shared experiences to engage with their audience.

Social Groups that currently gather in online forums, chat groups, or even other centralized multiplayer games could port their communities into our ecosystem. Offline communities could also find a space together.

By implementing an identity system to establish ownership, users will be able to track and verify owner consent through cryptographic signatures.

Virtual Games

It is a Game-based community token developed mainly to create a safe haven for Game lovers. Our main goal is to provide people with a safe and trustworthy place where they can use their crypto for rewards, staking & buying, or selling of NFT. As a gaming community developed token, we focus on the needs of our game lover community members.

MetaVerse Dog is an upcoming next-level gaming platform, aimed at bringing cryptocurrency and smart contract-based protocols to the mainstream. The platform is used for transactions on the platform, allowing for unparalleled flexibility and speed in Gaming. It works on the most advanced blockchain system for smart contracts, allowing for cheap transaction fees and Fast Transaction.

We offer Gaming with no human or corporate entity in the intermediary. The system is secure, and the software and transactions have been shown to be fair and reliable. It's easy to conclude why BIT NFT Gaming is the future of the gaming business when you consider how easy to earn money by participating in MetaVerse Dog games or by selling or trading NFT.

MetaVerse Dog is an Open Gaming ecosystem. it has the following features:

- Adventure in the virtual world, meet in-game characters or other players.
- Complete quests, clear levels by fulfilling requirements playing different games.
- Game issue and extending
- NFT Rights Management & NFT Marketplace
- Digital Assets Rights Management & Digital Assets Exchange
- Player Community Interaction & Player Database
- Yield Farming allows players or token investors to compound their profits

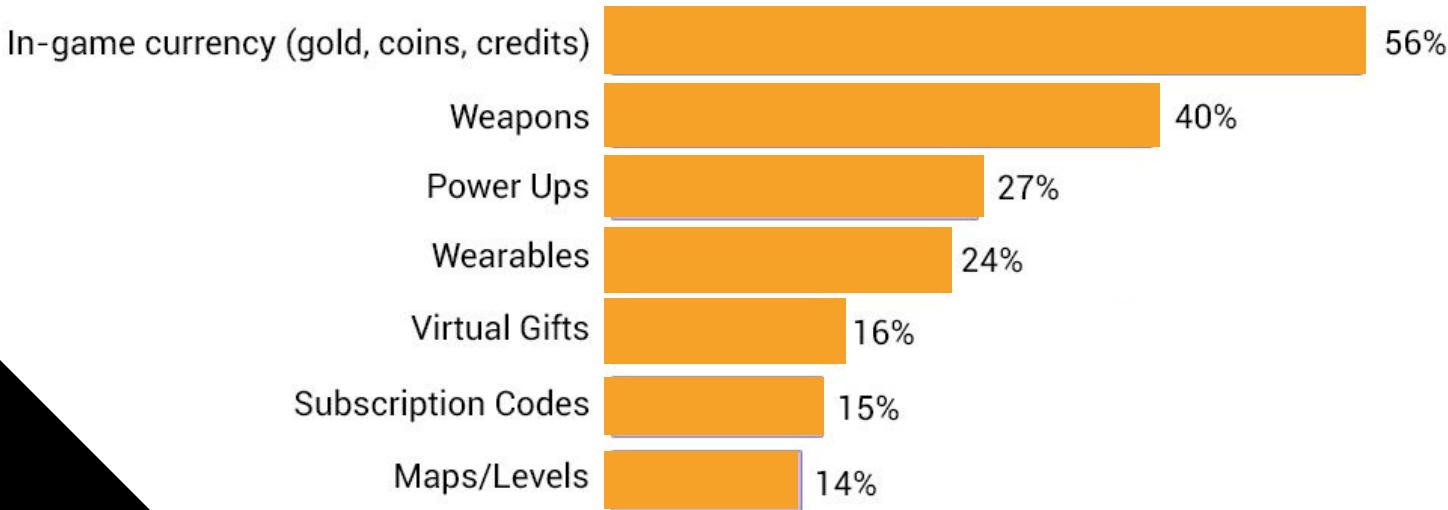

Virtual Goods market

It's estimated that, the overall value of the Global Social Gaming market by 2021, is to reach US\$30.4BN. Virtual goods, advertisements, and lead generation offers are the main revenue generation sources of the global social gaming market. Among these, the virtual goods segment is likely to expand the fastest at a compound annual growth rate of 15.20% over the forecast period.

Revenue from the different content types of virtual goods

Why you should invest in MetaVerse Dog?

Open for global participants

MetaVerse Dog facilitates the transaction and brings them closer to a wider audience. An added benefit of MetaVerse Dog use is that it's completely decentralized, so trading can be done freely across borders. The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. MetaVerse Dog has no border so these can be used no matter where you are located globally. This also has a huge effect on international payment fees. Traditionally international transfers have much higher fees than domestic transfers and payments. International payments and transfers with crypto are the same as domestic.

Free from corporate and government interference

MetaVerse Dog transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization and waiting period requirements.

Increased liquidity for investors

MetaVerse Dog enjoys high liquidity as they are traded. The importance of high liquidity includes fair asset prices, market stability, technical analysis accuracy, and quicker transactions.

Blockchain compliant

MetaVerse Dog is a Blockchain-compliant token means that it supports functions that Ethereum tokens support.

Why you should invest in MetaVerse Dog?

Transparency & Immutability

With MetaVerse Dog, each time exchange of tokens is recorded on the blockchain, an audit trail is present to trace where they came token from. This can not only help improve security and prevent fraud in exchange-related businesses, but it can also help verify the authenticity of the traded assets.

Lower Fees and Security

The fees associated with MetaVerse Dog transactions are far less than those associated with debit, credit cards as well as wire transfers, and BACS payments. MetaVerse Dog is a secure and private cryptocurrency that keeps the investor's assets anonymous without compromising security.

Transaction Traceability

MetaVerse Dog is far more secure than other record-keeping systems because each new transaction is encrypted and linked to the previous transaction. MetaVerse Dog is formed by a complicated string of mathematical numbers and is impossible to be altered. This immutable and incorruptible nature of the MetaVerse Dog makes it safe from falsified information and hacks once formed.

Ease of use

Ease of use is the reason why MetaVerse Dog has more value. All you need is a smart device and an internet connection. Investors can easily earn rewards by staking the token.

Safe & Secure

MetaVerse Dog is a safe and secure platform that is audited by Techrate and our technical team is continuously improving the security of the system to ensure the safety of platform.
