This draft White paper is for discussion and pre-information purposes only. The information contained herein is subject to change. No part of this White Paper is legally binding or enforceable. Please do not copy or disseminate any part of this White Paper without including this disclaimer

The Initial Startup Offering (hereafter, the “ISO”) projected presented by Polar Bear Group Limited (hereafter, the “Company”) is an unregulated fundraising operation. It poses several risks to buyers, in particular, that of losing all amounts traded for PBX tokens.

You acknowledge and agree that there are risks associated with purchasing, holding, and using PBX tokens in connection with the company products, services, and platform developed for product and/or services (hereafter, the “platform”) as disclosed and explained in the White paper.

By purchasing PBX Tokens, you expressly acknowledge and assume these risks. You acknowledge that PBX token is not a security, will not give dividends, and will not give the same privileges as shares in the company.

Only people who are fully aware of these risks should participate in ISO.

Our Mission and Vision

The best financial products are generally accessible to the wealthiest people, what we call High Net-Worth Investors. Our technology makes it possible to bring institutional-grade financial products to global investors, giving them the automating tools to increase their wealth.

While our long-term vision is to bring financial products based on the traditional asset classes, like Stocks, Mutual funds, Gold, FX, and Futures, We are expanding our technology to the Cryptocurrency market. For our purpose, our roadmap includes developing a complete and comprehensive platform for asset management by Fully AI-Driven automated investing.

Our vision is to develop a comprehensive asset management platform with an automated investing feature fully driven by artificial intelligence. We focus on the traditional asset classes in the initial state, including Stocks, Mutual funds, Gold, FX, and Futures. Currently, we are expanding our technology to the Cryptocurrency market.

We aim for total transparency in the financial industry, which is made possible with blockchain technology. We inspire to start a new era for the financial industry to make it more fair, transparent, and efficient.

PolarBear100X team

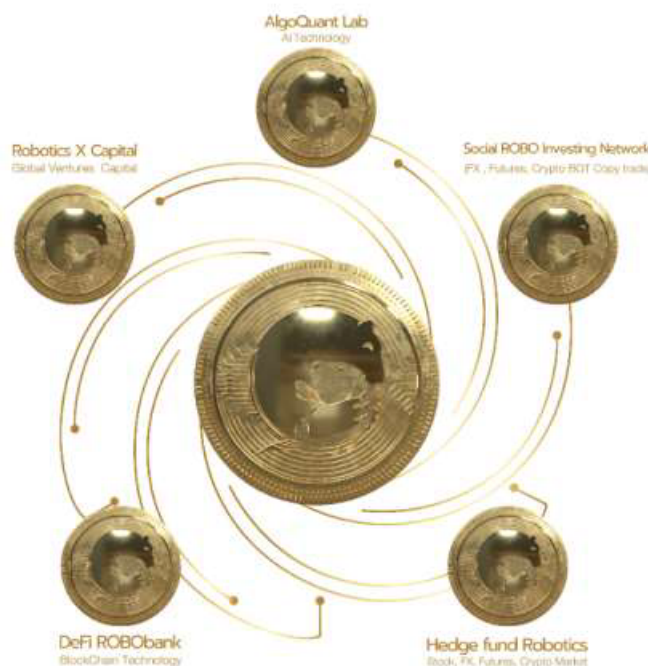

PolarBear X DeFi Robotics

The Ultimate All-in-one AI-driven Robot trading and Platform for Global investors integrated Blockchain-based on DeFi.

PolarBear X DeFi Robotics is Algorithmic trading and Quantitative trading ecosystem in Stock, Mutual Funds, FX, Futures, and Cryptocurrency Market based on Artificial Intelligence. With AutoCopyX technology, the ecosystem can be scaled up to Hedge fund Robotics and DeFi ROBOBank based on Blockchain technology, including Staking, Farming, Lending. This ecosystem will interoperate to maximize returns while minimizing risks for Investors.

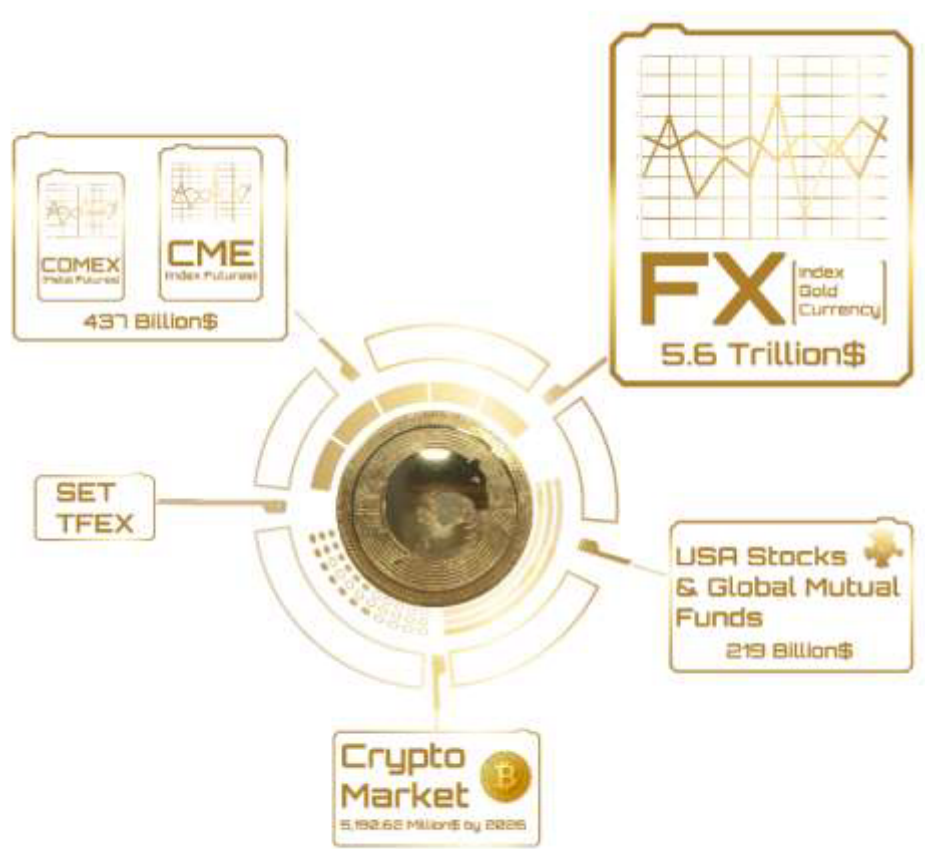

PolarBear X DeFi Robotics is Automating Fund Management Protocol, a Fully Automated Investment decision-making system with no human intervention. Our technology can help global investors grow their capital without deep knowledge or experience of the market by copying (AutoCopyX technology) the AI-driven robot trading, which connects to the FX bridge Futures Platform. It is an innovative and friendly solution that enables global investors to get passive income with minimum efforts and dividends using Staking.

Polar Bear X DeFi Robotics token [PBX] is at the core of our ecosystem, consists of AlgoQuant Lab, Social ROBO Investing Platform, Hedge fund Robotics, DeFi ROBObank, and Robotics X Capital.

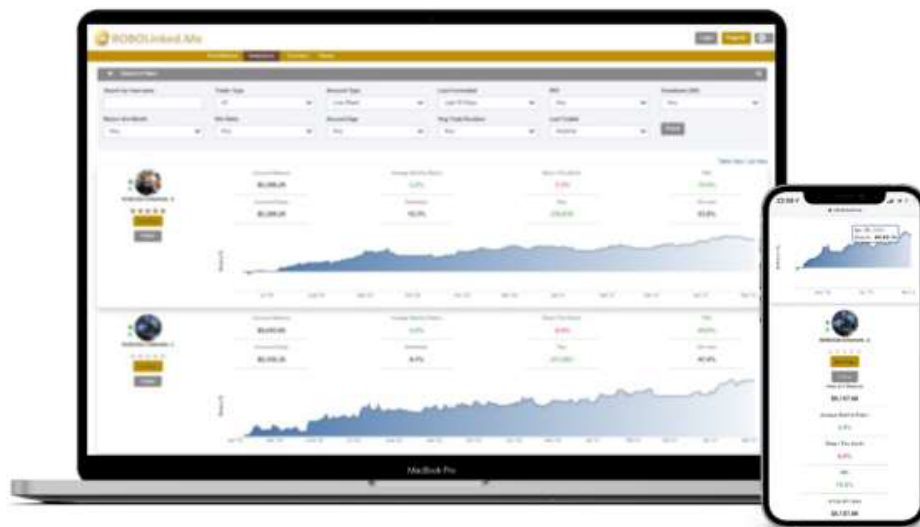

AlgoQuant Lab

AlgoQuant Lab is a Research and Development in 100% Fully Automated Robot Trading by using AI Technology in CME, COMEX Futures products (No.1 of Derivatives Market) under SEC Thailand with MTSGold (Licensed Broker's Thailand) under PolarBear100X. AlgoQuant Lab focuses on AI Driven Robot trading on FX (CFD Equity Indices), Gold spot (XAUUSD), Currencies, and Cryptocurrencies. And also, research and develop Robo Advisor in the USA Stocks, Global mutual funds applying machine learning algorithms to quantitative trading to support Hedge fund Robotics managed FX, and Futures, serving institutional and individual investors

Social ROBO Investing Network (Existing Platform)

Social ROBO Investing Network (www.robolinked.me) is an innovative cloud platform based on AutoCopyX Technology for FX and Futures market, hosting in Singapore. The AutoCopyX technology is capable of integrating between Metatrader4 (FX Markets) and Metatrader5 (Futures market). It can be used to copy trade among different FX Brokers to support Global Investors, Financial Firms, Hedge funds, and Licensed FX Brokers such as Oanda, IG, IC Markets, XM, BDSwiss, GMIEdge, FBS, MTSGold, and many more.

The ecosystem of Global FX and Futures Brokers

Support Regulated Brokers for Scale up

Tokenization Benefits

PolarBear X DeFi Robotics Token (PBX) is a utility token used as a credit for using copy trade service for Automated Trading Robots for FX and Futures market on Social ROBO Investing Network (www.robolinked.me). It is also used for DeFi Products for Staking, Lending, Farming in Decentralized Exchange (DEX) connected Crypto robot trading for spot and futures products. In the future, the PBX token will be added to be Investment Token for Hedge fund Robotics, Initial Exchange Offering (IEO) for Centralized Exchange (CEX) on the Road Map.

Best features

PBX Token (PBX) is connected to Cutting-Edge DeFi Solution and Trading autopilot among Financial markets

Ultra Fast & Reliable - Instant Transaction

The smart contract is used for fund management protocol from Crypto Exchange connected to Financial markets (Stock, FX, Futures)

Highly Scalable- Limitless Financial Markets

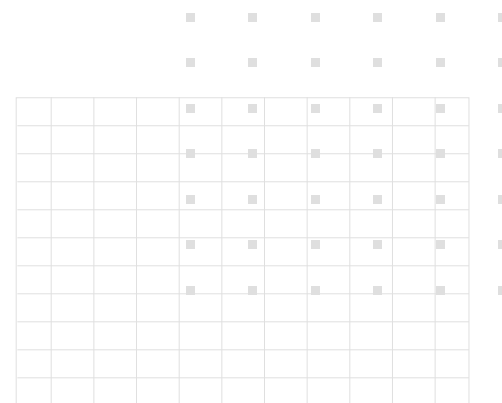

AutoCopyX technology on Cloud is used for copy trading by global investors from FX bridging Futures and used for scale-up to Hedge fund Robotics (Stock, FX, Futures, Crypto Robot)

Automated Earning-Profit Sharing / Staking Reward Pool/Passive Generator

In-house R&D autopilot (Stock, FX, Futures, Crypto Robot)using AI/ML, which dynamically adapt to the market

Get a 2% redistribution fee to holders every time a transaction occurs automatically and without the need for staking.

Get Profit Sharing and Dividend by Staking (Annual Percentage Yield, APY), expected **15-30%** APY and APR distribution by Monthly

PolarBear X DeFi Robotics Token (PBX) is used as a Utility token to buy Credit to copy trade Automated Trading Robots in Social ROBO Investing Network (www.robolinked.me) by AutocopyX Technology of Automated Trading ROBOTS for FX and Futures market PBX token is used for DeFi Products for Staking like Stock Dividend payment as an Investment token.

The diagram, titled "Hedge Fund Robotics", illustrates a complex ecosystem of financial and technological components. It features several interconnected nodes and flows:

- Swap** and **Trade** are connected by a **Smart contract** and a **Transaction fee** flow.
- Trade** and **Fund** are connected by a **Smart contract** and a **Profit** flow.
- Fund** and **R&D** are connected by a **Test** and **Profit** flow.
- R&D** leads to **AI-ROBOTS** through a **Qualified** flow.
- AI-ROBOTS** leads to **AutoCopyX** through a **Scale up** flow.
- AutoCopyX** leads to **Investment** through an **Operate** flow.
- Investment** (which includes Stock Market, Global Mutual Funds, FX Market, Futures Market, and Crypto Market (Spot, Futures)) leads to **Fund** through a **Profit** and **Manage** flow.
- Fund** leads to **DEX** through a **Smart contract** flow.
- DEX** leads to **dApp/ Liquidity Pool** through a **Smart contract** flow.
- dApp/ Liquidity Pool** leads to **Investors** through a **Staking/LP Token** flow.
- Investors** leads to **Swap** through a **Transaction fee** flow.
- Investors** also leads to **Farm** through a **Add Liquidity** flow.
- Farm** (labeled as a **Future Project**) leads to **dApp/ Liquidity Pool** through a **Add Liquidity** flow.

The diagram also includes a **Hedge Fund Robotics** label at the bottom right, which is part of the overall system's branding.

Competitor analysis - Our approach different from our competitors

- Unique profit-sharing Smart contract on BNB Blockchain
- Totally blockchain-based with PBX token at the core of our ecosystem
- Combine Financial markets (Stock, FX, Futures) with CEX & DEX Trading
- Strategy In-house which adapts dynamically to the market with consistent performance
- Highly selective Marketplace emphasizing quality over quantity with FIFO Strategy

Road Map

2019 Q2 - Research and Develop, AI-ROBOT Trading on SET50 Index on TFEX Market (Awards and Recognition)

2019 Q3 - Research and Develop, AI-ROBOT Trading on Equity Indices on CME Futures Market

2019 Q4 - Research and Develop, AI-ROBOT Trading on Gold Futures on COMEX Futures Market

2020 Q1 - Research and Develop, AI-ROBOT trading on CFD Indices on FX Market, ROBO Advisor on USA Stocks

2020 Q2- Develop &Test, Social ROBO Investing Network (www.robolinked.me) on FX market-based in Singapore

2020 Q3 –Research and Develop, AI-ROBOT trading on Gold Spot (XAUSD) on FX Market

2020 Q4 - Research and Develop, AI-ROBOT Trading on Currency on FX Market

2021 Q1 –Develop & Test, Social ROBO Investing Network (www.robolinked.me) on FX market (MT4) bridge to Futures Markets (MT5) to Scale-up

2021 Q2 – Develop & Deploy, PolarBear X DeFi Robotics (PBX Token) to list on Decentralized Exchange (DEX), ROBOT Trading on Crypto Market (Spot, Futures)

2021 Q3 – Pre-Sale ICO, Staking on Decentralized Exchange (DEX) and dApp

2021 Q4 – Scale-up, Hedge fund Robotics on FX and Futures Crypto using AI-ROBOT trading, Digital asset fund manager (SEC)

2022 - IEO, Initial Exchange Offering (IEO) on Centralized Exchange (CEX)

2023 - Expand, Hedge fund Robotics on Stocks, FX, Futures, and Crypto using AI-ROBOT based in Vancouver, Canada

2024 - Expand, DeFi ROBOBank (Lending/Farming) on Decentralized Exchange (DEX), Green Crypto Mining/Farming

2025 - Expand & IPO, Robotic X Ventures Capital, Initial Public Offering (IPO) to MAI Markets (Depending on Situation)

About us

At the beginning of PolarBear100X, We are 1 of the last 12 teams in Thailand Fintech Challenge the Discovery 2018 of the SEC of Thailand.

As the digital workforce team, We research and develop financial robotic automation in the derivatives market with artificial intelligence.

Under the AlgoQuant Lab project, it consists of

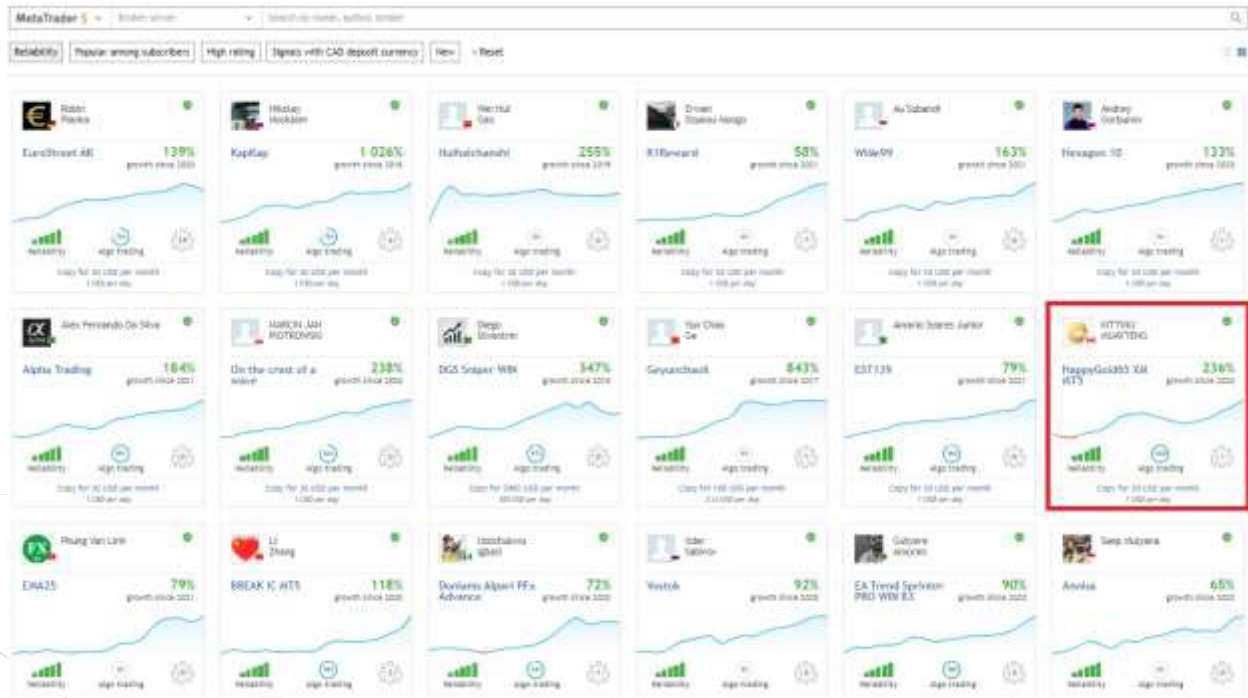

- Algorithmic trading
- Quantitative trading
- Artificial Intelligence (AI)

Year2019-2020, AlgoQuants Lab is expanding to Global financial markets (USA Stock, Mutual funds, FX, Futures, and Cryptocurrency market)

In the development of Financial automated robots to help investment on behalf of humans integrated Blockchain Technology integrated to DeFi.

We are 1 of 12 Reliability Trading Signals on Auto-Copy trading Platform (www.mql5.com) and 26 Amazing Hedge funds Startups Worth a Follow in 2021.

26 Amazing Hedge Funds Startups Worth A Follow In 2021

This article showcases Startup Pill's top picks for the best Hedge Funds startups. These startups are taking a variety of approaches to innovating inside of the Hedge Funds industry and around the world. They are all exceptional startups well worth a follow.

We tried to pick companies across the size spectrum from cutting edge startups to established brands.

We selected these startups for exceptional performance in one of these categories:

- Innovation
 - Innovative ideas
 - Innovative route to market
 - Innovative product
- Growth
 - Exceptional growth
 - Exceptional growth strategy
- Management
- Societal impact
