1 - WHAT IS SAFEPLUS

SAFEPLUS IS THE FIRST TOKEN THAT PROVIDES YOU WITH SIX DIFFERENT TYPES OF PASSIVE INCOME.

SafePlus is a deflationary token, created to reward holders, earning not only from the token itself, but also from its **passive income**.

Tokenomics was designed to **discourage cryptocurrency traders** (thus avoiding price drops and manipulations for the benefit of a few experts) and reward holders, those who want to have an automatic medium/long term income, in addition to the value of the token that can increase over

SAFEPLUS: FOR HOLDERS ONLY

2 - WHY INVEST IN SAFEPLUS

How many times have you thought that it was stupid and useless to keep money in the bank at zero interest (or rather by paying the expenses of the current account)? Well, it is, like to spend it to buy "stuff", without understanding anything about financial management.

Poor people in fact buy **liabilities**, debts (car, mortgage, things, objects).

Rich people on the other hand use money to generate more money, **investing** in assets (income generating properties, stocks, cryptocurrencies) and stop trading time for money.

For this Safeplus was born, the first token that provides six forms of passive income.

3 - SIX FORMS OF PASSIVE INCOME

1

REFLECTIONS IN BUSD

With Safeplus, you will have directly in your wallet reflections (token automatically redistributed by purchases or sales) in Busd (the stable coin of Binance).

Whenever someone in the world buys or sells Safeplus, a percentage of Busd will enter your wallet!

2

REFLECTIONS IN BNB

Directly in your wallet, you will also receive reflections in BNB, one of the most famous tokens in the entire crypto world!

Whenever someone in the world buys or sells Safeplus, a percentage of BNB will enter your wallet!

3

STAKING BNB

You can also stake your BNB, earning other daily earnings.

3 - SIX FORMS OF PASSIVE INCOME

4

STAKING SAFEPLUS

You can "park" (staking) your Safeplus directly on our dApp (decentralized application) thus automatically increasing your daily earnings.

5

STAKING BUSD

You can also stake your Busd, earning other daily earnings.

6

PLUS ACADEMY

"The best investment you can make is in yourself" Warren Buffet.

By owning Safeplus you can access our digital academy for training in Forex, Stocks, Productivity, Time Management, Personal and Professional Growth. Why is this a passive income? Because is the way the skills and mentality are created to be able to obtain a x10, x100, x1000.

Training is a virtuous circle in which benefits always return, it's the secret of the wealthiest people.

In fact: "Investing in one's personal growth is the only thing that never loses its value". Jim Rohn

4 - THE 3 PLUSES OF SAFEPLUS

1) BUYBACK

What's that? A percentage of the proceeds of the transaction will be held in the form of BNB which will be used for GRADUAL purchase of Safeplus, in order to increase volumes if necessary. Tokens purchased in this way will then be burned to push the price further.

Benefits: in this way price and volume will always be sustained, they will be more stable over time ensuring a more homogeneous reflection, and with the burn, Safeplus becomes less available, with a consequent increase in value.

2) GREEN MOON

What's that? A percentage of the proceeds of the transaction will be held in the form of BNB which will be used for MASSIVE purchase of Safeplus, in order to increase volumes if necessary. Tokens purchased in this way will then be burned to push the price further.

Benefits: in this way price and volume will always be sustained, they will be more stable over time ensuring a more homogeneous reflection, and with the burn, Safeplus becomes less available, with a consequent increase in value.

3) ANTI-WHALE SYSTEM

What's that? Safeplus's smart contract includes an anti-whale system, which prevents the sale of more than 0.05% of total supply for week, avoiding manipulation by the so-called whales, wallets with large quantities of tokens.

Benefits: This system will guarantee a more stable price and will protect holders from sudden future collapses, also preventing its appearance.

8 DAPP / ECOSYSTEM

We foresee an entire enhanced ecosystem in which our Safeplus deflationary token will be at the center and can be used as a utility so that holders can enjoy even greater advantages over the already mentioned pluses.

With the dApp it will be possible **to stake**, view the accumulated **reflections, reinvest** them, participate in **lotteries /giveaways** and more.

The Safeplus token will allow investors to also access various services provided by **Plus Finance** (more details in the future) and the **Plus Academy**.

And with a new way of calculating reflexes, we encourage holders by rewarding them more.

9 - PLUS-ACADEMY

THE PLUSACADEMY IS AN EXCEPTIONAL FORM OF PASSIVE INCOME BECAUSE...

Life is all about learning: the more you learn and the more you grow, the more you grow and the more results you get

Training Ecosystem

The PlusAcademy will be a protected, digital environment, where it is possible to train on financial topics (forex, trading, psychological management of capital, habits of the rich people) and on personal and professional growth (self-motivation, productivity and time management, public speaking, effective communication, sales).

This is the missing piece and, perhaps, the most important, of the whole Safeplus ecosystem.

Growing up to be more and more people of value is precisely the "secret" of those who get results in the personal, professional and economic fields.

The mind is what we have most important so it is essential to train it: those who do not wash their brains themselves, have it washed by others.

Training is a teacher of life.

There is no need to reinvent the wheel or learn over several years by trial and error, what you can discover in a few hours of a course.

The training consists **in the application of tested and effective models**. Brian Tracy, dean of education with over 60 books published, wrote that we must be as hungry for knowledge as Pac-Man because we cannot know what knowledge can transform our lives.

COMMUNITY

And that's not all... PlusAcademy wants to aggregate a community of people with the same values and the same desire to improve themselves and their lifestyle. A good community is as important as training «because we are the average of the 5 closest people to us» said Jim Rohn, one of the fathers of training on personal growth.

Looking for who looks like us -our "peers"- or who has the qualities, skills, knowledge we want to acquire, is the right way.

In short, if we want to improve at something, we must associate ourselves with those who really know how to do it.

There is only one "but" in this broad discourse, but as a sacrosanct saying goes: "You can't hire people to do push-ups for you". We are the ones who have to make the choices that change our life.

Training is one of them.
