# USE CASES

## **MADHATTER SPORTS:** (Current)

A members only P2P sports betting app designed for AWC members to bet on sports games. Bets and winnings are paid out in AWRT tokens. Current sporting events include the NFL, MLB, NHL, and NBA games. These games allow AWC Club members to create a fun environment with plans to be launched in the metaverse in 2022.

## **AWC NFTX MARKETPLACE:** (Current)

AWC has created its own NFT marketplace to create, purchase, swap and stake NFT's. It currently has over 100 video games, films, songs and original works of art which include sketches, paintings, poems, notes, play lists and other such forms of art to be created as NFTs. One exciting project is being the first ever NFT producer of a major motion picture, The Performance starring Jeremy Piven. NFT's will use AWRT as the native token for the marketplace.

## **AMIGA GAMES:** (Future)

AWC has contracted with Amiga Games, Inc and Retro Infinity, Inc to be the exclusive NFT producer for over 100 retro video games such as Dune II, Final Odyssey, Indiana Jones and the Fate of Atlantis, Invasion, Word Search and many more. In addition, the Club has the rights to use all characters and other images within the games for NFT's and all promotional material. This is a strategic way to attract gamers to AWC while simultaneously developing a fun use case and potential burn event or reward for AWRT token holders.

## **METaverse:** (Future)

AWC plans to enter the Metaverse with land purchases to create a playland for AWC members in such platforms as The Sandbox, OVR and Wilder World. Utilizing projects and partnerships, AWC has plans to create an arcade, casino, and NFT virtual marketplace for members and visitors. AWRT will be the native token used for all activities in each metaverse world.
