

PESETA TOKEN WITHEPAPER

"The token for renewal to solar energy"

CONTRACT:

0x12f5b3aea951ebd313ea802a1dbce2be9369cb93

INTRODUCTION:

- > We present you Peseta token, the token oriented to renewable energy, more specifically to solar energy.
- When we think of renewable energies, wind, hydraulic, tidal, biomass, solar, among others, may come to mind.
- ➤ Of all of them we have decided to take advantage of solar energy. On average, Spain has about 2,500 hours of sunshine per year. This level of sunshine makes our country an ideal place to generate our own clean energy through solar panels. That is why we have decided to create this project, in order to improve the quality of energy and make it cleaner and more renewable.

MARKETING:

The following breakdown will be made of the 15% of the proceeds from each sales transaction of the Peseta Token:

- > 20% to EShib Ecosystem (marketing + liquidity)
- > 10% to Donations for reforestation of the Euro Shiba Inu project.
- > 20% to ADEX (internal expenses)
- > 50% to Eco-Energy Investments

• SECURITY:

- > The liquidity of the Peseta Token is and will remain blocked indefinitely.
- > Soon an audit will be carried out in CERTIK to grant greater security to the token.
