WHITEPAPER
DECEMBER 2021

Cryptomakers
FOUNDATION

The White Paper is a product of Crypto Makers Foundation for the purpose of public dissemination.

Crypto Makers Foundation (CMF) is a decentralized autonomous organization (DAO) for investing in non fungible tokens (NFTs) used in virtual worlds and blockchain-based games.

The organization's mission is to create the biggest virtual world economy, optimizing its community-owned assets for maximum utility and sharing its profits with its token holders.

VISION

Crypto Makers Foundation is a community-driven platform empowering users by rewarding them for their engagement and enjoyment.

By using innovative tokenomics, utilizing Play to earn, Networking, scholarships and GameFi. Whilst also combining the best of DeFi and NFTs.

We want you to be part of this revolutionary industry, obtaining cryptocurrencies, creating profits, helping the community and learning everything that decentralized finance and Nfts will bring.

CHALLENGES AND SOLUTIONS

1

Gaming guilds have proven themselves to be an effective onboarding vehicle for this new gaming era. Thus, we foresee multiple forms of gaming guilds that cater to different types of players, from play-to-earn to social guilds, many more gaming projects and a more comprehensive range of NFT assets across the metaverse in the near future.

2

Our first Gamefi Protocol Wisdom Meta combines the best of the non-fungible token (NFT) and the decentralized finance (DeFi) space, bringing yield farming to game economies while adding value to these virtual worlds by developing the content and economy of these games.

GROWTH POTENTIAL

With blockchain and NFT, the gaming experience can be taken to another level. We see a future where blockchain games become a norm and the metaverse becomes as interoperable as the real world.

At the same time, we want to create value in the virtual world for our guild members to thrive in a virtual environment - the competitive gamers, the artists, and content creators that populate the metaverse.

We want to own and develop assets in the metaverse as we believe that virtual economies will be more valuable than real-world economies over time.

Not to mention that virtual economies have proven to gain prominence, to be much more effective and to interact better with the disruptive technologies that have been developed in recent times. Making gaming one of the markets with the greatest growth opportunities among the population worldwide.

ACTIVITIES OF CMF

- CMF's goal is to maximize the value of NFTs used in virtual worlds and blockchain-based games. Its protocol is automated by smart contracts instructed by consensus through the DAO based on governance proposals and voting of a distributed network of token holders.
- Building a global community of play-to-earn gamers who play competitively to collect in-game rewards (e.g. players in Axie Infinity earning tokens from winning battles).
- Producing revenue through the rental or sale of CMF-owned NFT assets.
- Allowing the community to participate in the DAO by passing proposals and voting.
- Coordinating research and development for gamers in the DAO to arbitrage on yield generation by being competitive in metaverse-related games.

BUSINESS MODEL

- As technology allows more people to move more of their lives online, an entire digital economy is developing inside these new virtual worlds, known as “the metaverse”.
- Crypto Makers Foundation business model builds both, the real-world value into the crypto gaming industry with our Guilds and also the fundamental metaverse economics that we recreate in our NFT gamefi platform Wisdom Meta.
- The Scholarships model involves lending assets (NFTs) to the recruited gamers, allowing them to start playing and earning without any upfront cost, therefore removing the barriers to entry. The guild model is revolutionary in the GameFi space.
- This is one of the reasons why guilds are necessary, aside from supporting players, guilds also support games by onboarding large communities.
- Our goal is to create an infrastructure that helps to onboard, connect, and add real value to the entire community.

BUSINESS THESIS

- The primary revenue of the DAO will come from leveraging CMF-owned NFT assets, either directly, or indirectly, via a rental program where guild members utilize the assets in exchange for a portion of the in-game rewards going directly to CMF.
- NFT ownership will benefit from the rise of the in-game asset's economic value being reflected in the value of its native fungible token on the open market.
- The value of all activities in CMF will be captured in the fully diluted market capitalisation of CMF governance tokens.

VOCABULARY

Dao

is a Decentralized Autonomous Organization.

DeFi

Decentralized Finance.

NFT's

Non-fungible token.

Play to earn

Play-to-earn games allow users to farm or collect crypto and NFTs that can be sold on the market.

GameFi

It's a mix of two words: **gaming and decentralized finance**.

Tokenomics

coined from the words "token" and "economics", is an informal term that explains the structure and the cycle of how a token is acquired and used.

Scholarships

The Scholarships model involves lending assets (NFTs) to the recruited gamers , allowing them to start playing and earning without any upfront cost, therefore removing the barriers to entry. The guild model is revolutionary in the GameFi space.

THE TREASURY

The role of the CMF treasury is to oversee the management of CMF assets to maximize value returned to the CMF DAO over time.

ECONOMIC ACTIVITIES

- Purchase of assets in the form of cryptocurrencies, virtual assets in the metaverse, in-game tokens , as well as other NFTs to contribute to the development of metaverse economies.
- Arbitrage farms to maximize yields.
- Manage locked, unvested, undistributed tokens of all parties.
- Perform financial operations such as accounting, audits, reporting and tax.

TOKENOMICS

There will be 1,000,000,000 CMF tokens minted in aggregate. Distribution of supply will occur in multiple phases scheduled at different dates and for different purposes.

Allocation is as follows:

BACKEND: BINANCE SMART CHAIN

The Crypto Makers Foundation project decided to develop on the platform of Binance Smart Chain BSC.

In the Wisdom Meta, there are different assets like Cryptos and NFTs which are unique. They need to be protected by smart contracts. There are a lot of buying and selling transactions that need smart contracts and decentralized platforms between buyers and sellers.

Features like staking, Yield farm NFT, level up Nft's and joint ventures are all smart contracts running on BSC's platform. Our goal is to help players of Wisdom Meta GameFi protect their assets forever. To do this, we believe that BSC is our best choice at the moment.

CMF Token Usage can be used for the following:

- Participate in the DAO by passing proposals and voting.
- Used as a payment method for our gamers.
- Stake CMF for CMF token rewards.
- Use CMF to Mint NFT's in our first GameFi Platform Wisdom Meta.
- Stake CMF for Wisdom Token rewards , the utility token used in Wisdom Meta.
- Participate in launch pools in our GameFi metaverse.

CMF TOKEN VALUE

The tokens represent the activities of Crypto Makers Foundation DAO from NFT asset rentals, merchandise, esports and NFT breeding activities.

As the metaverse NFT economy grows, especially in gaming, it will have a multiplier effect on the value of CMF.

Aside from it being positively correlated with the metaverse economy, its yields are from vetted projects and revenue generating activities from those projects.

WISDOM META

Our first Gamefi Protocol
powered by
CMF Dao Token.

WIDO TOKEN VALUE

The tokens represent the economy of our first Gamefi protocol powered by our community.

Crypto Makers Foundation DAO has created a unique infrastructure that builds on the growing DeFi ecosystem and combines it with Gaming through unique NFTs and Art.

“This protocol represents how our community with many different types of jobs in the real world are powering our mission to create the most powerful guild in the crypto gaming metaverse”.

We have created a unique yield farming mechanism that puts your NFTs to work. By staking unique NFTs users can farm the Crypto Maker Foundation platform DAO token (CMF).

Using Liquidity Pools, Yield Farming, and NFTs, the GameFi infrastructure will not just find the best yield strategies for users but also generate unique NFTs collections that can be used across the metaverse.

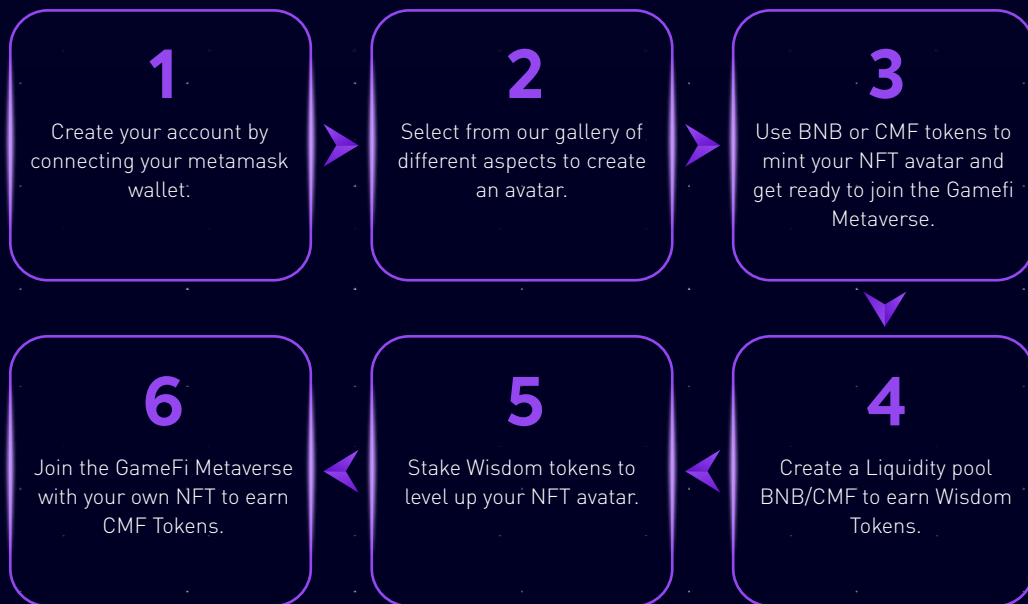

- Users can Yield Farm by staking **Pancakeswap CMF-BNB LP (BEP20)** into Wisdom Meta Ventures to obtain WISDOM token rewards.
- CMF tokens can be used to create your own NFT's collection of avatars through the Smart Contract.
- By staking CMF tokens the users are rewarded with our utility token in our gamefi Metaverse named Wisdom (WIDO).
- WIDO tokens can be used to make ventures in the Gamefi Protocol to collect more CMF tokens. 200,000,000 tokens serve in this pool distributed in a vesting schedule of 3 years.
- Entrepreneurs NFT Yield Farming CMF Token.

HOW IT WORKS

To build a truly user driven NFT ecosystem, the Wisdom Meta platform provides a set of designs created by great artists and drawers to be used by our community.

"Whether you are a game developer, artist, or an NFT collector users can make use of the Wisdom META platform to not just create but also to earn".

Each Entrepreneur NFT minted in our random algorithm selection criteria has a Wisdom level potential that can be upgraded by staking Wisdom tokens.

TOKENS WILL BE DISTRIBUTED OVER 3 YEARS

ACCORDING TO THE BELOW SCHEDULE:

Total Token Rewards
after launch protocol.

200,000,000 CMF Tokens

Q1-Q2

30%
of the total
reward.

Q3-Q4

20%
of the total
reward.

Q5-Q6

20%
of the total
reward.

Q7-Q8

10%
of the total
reward.

P9-P10

10%
of the total
reward.

Q11-Q12

10%
of the total
reward.

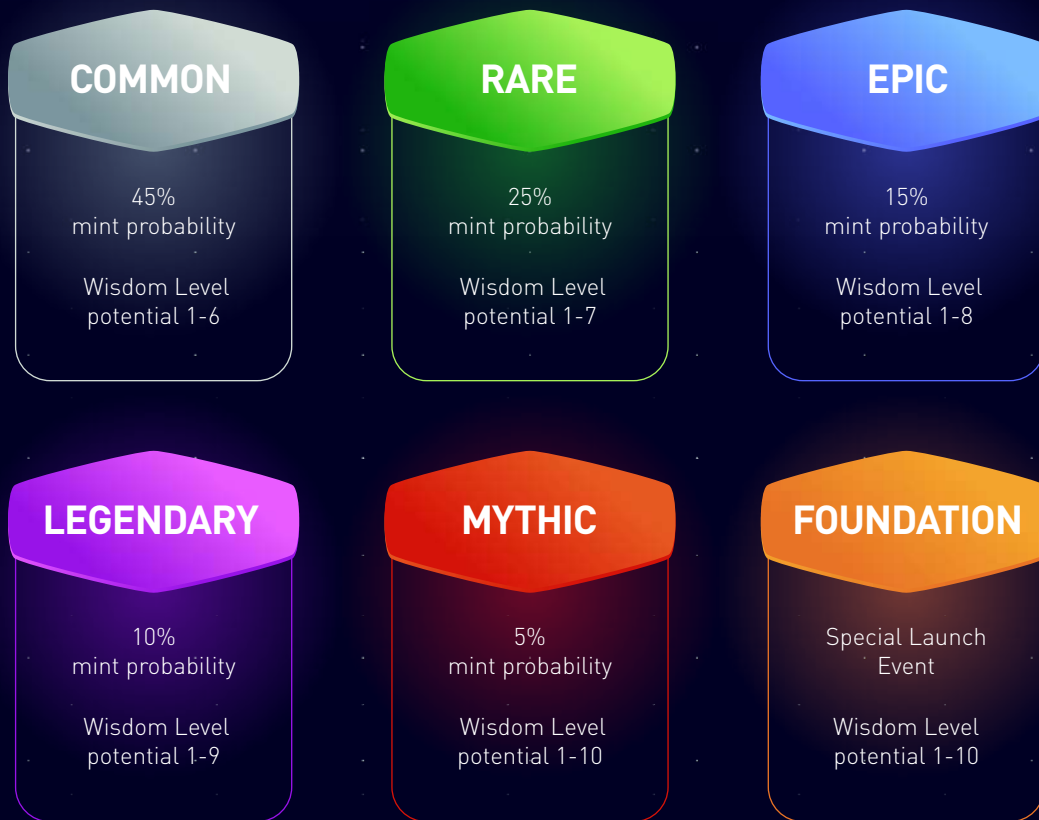

NFT ON-CHAIN ATTRIBUTES

Each unique NFT venture random creation has the following parameters.

The NFT Wisdom META Creator is a platform for artists and designers to create their own NFT's to be used across the Gamefi Platform . By removing all the technical barriers with understanding Smart Contracts, makes the process as simple as possible and gives all the tools required for the user to be rewarded for their creations.

PROBABILITY OF MINT NFTS AND THEIRS WISDOM LEVEL POTENTIAL

Wisdom Level Stats used in the Metaverse ventures are synthesized from Rarity and the Wisdom Level of the NFT.

This is the formula that creates CMF tokens.

$$\begin{aligned} \text{Q1 \& Q2 Pool Rewards / Players} &= \text{X tokens} \\ \text{X Tokens / Players} &: \text{Rarity \%} + \text{Wisdom Level power.} \end{aligned}$$

HOW TO HAVE A STRONGER WISDOM LEVEL ?

Stake Wisdom Tokens in your NFT to level up and earn more CMF tokens.

Each NFT requires a certain EXP to level up, the more quantity of Wisdom tokens put in the NFT the fastest you can level up.

Rarity level % of Yield Farm Power

NFT MARKETPLACE THE WISDOM META

Is a decentralized exchange where users can buy and sell Entrepreneurs NFT's.

In order to provide the best experience and the least fees, we have optimized the smart contracts in the following ways.

1. NFT's can be exchanged directly in the NFT Marketplace.
2. Floor price is regulated by CMF Dao to ensure the protocol is secure for investors.
3. The platform takes a 5% exchange fee that goes to the Buyback and Burn pool.

ROAD MAP

PHASE 1

- Idea Conceptualization / June 2021
- Initial Fundraising / June 2021
- Build the Gamers Crew CMC 250 scholarships / July 2021
- Build the backers community CMF / September 2021
- CMF DAO / November 2021
- 1,000 scholarships program / November-December 2021

- Whitepaper release & Coinmarketcap / December 10
- Apply CoinGecko, CoinMarketCap, Blockfolio Listing / December 10
- Fundraising DAO CMF Private sale 0.01 / 14 December 2021
- Community Public sale CMF token 0.05 / 5 January 2022
- Smart contract public sale / 15 January 2022

PHASE 2

December 2021 / January 2022

PHASE 3

February 2022

- BSC our tokens Wallet testnet Launch / February 1
- Smart contract Wisdom Token / February 15
- Launch pools Community Private whitelist sales.
- Staking CMF Launch pool for Wisdom Tokens / February 21
- CMF Tokens rewards with LP Tokens BNB / CMF

- First weekly vesting releases community tokens.
- Whitelist NFT's Founder Collection- Limited edition
- NFT's Marketplace Launch
- Marketing and Airdrops launches

PHASE 4

March 2022

PHASE 5

April 2022

- Beta test NFT's Creation algorithm / April 2021
- Staking NFT's to Level Up / April 2021
- Gamefi Platform Launch / Join the Metaverse April 2021
- Influencers Marketing Campaign Launch

- Diversified the Ventures and NFT's Collection
- Build the 3d Metaverse

PHASE 6

2022

ABOUT US

Wisdom Meta is a Gamefi Protocol Powered by CMF DAO .

Wisdom Meta is our NFT's collection that revives the diversity of real people that help us to create our gaming guild DAO and honors them by giving the opportunity to create their own NFT's collection for their audiences.

What is CMF?

Crypto Makers Foundation is a decentralized autonomous organization focused on developing the play-to-earn economy by building a strong community of gamers for the metaverse.

Why Crypto Makers Foundation?

We are Creating a DAO that actually has its own economic ecosystem instead of only depending on other crypto gaming platforms.

COMMON QUESTIONS

How can I get involved as a scholar?

We handle everything related to scholarships in our Discord environment. To apply for a scholarship, please join this server and follow the instructions provided there.

Our managers are working really hard to onboard as many scholars as possible.

How can I get involved as a contributor?

As a decentralized autonomous organization, we want to ensure a widespread distribution of the \$CMF token. Therefore, we're actively researching several ways of having a public investment round where anyone will have the opportunity to purchase their stake of tokens and thereby become part of the Crypto Maker Foundation DAO.
