

THE ADULT NFT MARKETPLACE

WHITE PAPER

MAY • 7 • 2021

CURRENT STATE OF ONLINE ADULT CONTENT

We are changing the way Adult Content Creators interact with their fans via NFT's and Cryptocurrencies.

The online Porn Industry is estimated to generate \$90 Billion dollars per year globally.*

With the recent scandals on websites like PornHub, and Credit Card processing payment systems such as Mastercard changing the way banks certify sellers sell adult material online, there is a huge need for a shift in how things operate in the Global Online Porn Industry*.

We see a tremendous opportunity for growth and new technology entering the space.

Enter xxxNifty.

ABOUT XXXNIFTY

xxxNifty is a NSFW Adult Content Marketplace.

We are changing the way Adult Content Creators interact with their fans via NFT's and Cryptocurrencies.

NFT's allow fans a new and unique way to interact with their favorite Adult Content Creators.

Through the use of NFT technology, users will have a certifiable way to own unique content released by their favorite Adult Content Creators. This will grant them access to unique streams, content, and access to the adult content creators in a way that has never been done before.

The xxxNifty Platform also introduces the \$NSFW token, which will allow holders to purchase NFT's on the platform, as well as tip, and get access to exclusive events hosted by their favorite Adult Content Creators.

PRESALE INFORMATION

We initially listed our Presale on DxSale.

There was a Softcap of 80 BNB, and a Hardcap of 160BNB. Contribution limits were a minimum of 0.1 BNB with a maximum of 1.5 BNB.

The Hardcap was met on 5/5/2021. There were issues finalizing the presale, and we needed to redo the presale on Unicrypt.

The UniCrypt Presale was Whitelisted solely for contributors that participated in the DxSale Presale.

The market cap was set at \$250,000.

UniCrypt Presale Supply was 27,840,000,000 \$NSFW Tokens.

Contribution Limits remained the same, and the HardCap was hit in two and a half hours.

Within less than 24 hours of the live launch on PancakeSwap, \$NSFW hit a market cap high of over \$15 million dollars, over 3,500 Token Holder address, and was listed on CoinGecko.com (<https://www.coingecko.com/en/coins/xxxnifty>).

Liquidity provided from the Presale is locked on UniCrypt for 12 months.

THE ADULT NFT MARKETPLACE

ROADMAP

We currently launched the V1 of the xxxNifty platform which has been live since its first NFT drop with an adult content creator on 4/19/2021.

We have hosted 2-3 Drops per week since the initial launch. We wanted to have a basic functioning platform in place before issuing the \$NSFW Token.

Currently, the platform does not accept \$NSFW tokens as a payment method, but this will be introduced in the new release of the platform (Goal Q3 '21).

The final release of the xxxNifty platform will allow Adult Content Creators to interact with their fans by offering monthly subscriptions to their released content, the ability to host NFT drops, and a marketplace allowing users to resell the NFT's they collect.

NFT's will not only serve as a collectible but will also give access to unlockable content which allows them to even more exclusive ways to interact with the Adult Content Creator.

ADULT CREATOR ONBOARDING

xxxNifty will have an application process to vet all adult content creators that are listed on the platform, not only to ensure that the content provided is legally, and legitimately owned by the submitter.

We aim to take all necessary precautions to ensure that all content that is allowed on the platform is:

- Legally Owned
- Provided by Adult Content Creators that are of Legal Age of Consent
- Submitted by Non-Exploited Sex Workers
