# INTRODUCTION

## Summary

Cryptocurrency has become increasingly popular to individuals and businesses. The majority of individuals and corporations have adjusted well to the change of currency. On the other hand, some find themselves daunted by the expertise and budget required to invest.

Some find themselves searching for predictions and accurate charts for their favorite asset, only to have to rummage through hundreds of ideas in-order to find one decent idea. That's where we want to come in and help. It's a win-win for everyone. Top level analysts will be rewarded for their contributions, and beginner investors will have reliable analytics to focus on. As the community grows, it will only become better. Bigger rewards and more and more top notch analysts helping to support the community with their knowledge. Read on to find out how!

Our team consists of talented programmers and investors with many years of experience, trading crypto in particular. We're very excited to start this project and help the crypto community abroad. We are consistently looking for talented employees to join and be a part of TANK token/coin.

# HOW IT WORKS

## Overview

Analysts from all ranges of experience can benefit from TANK coin. Not only do the well-versed analysts get rewarded for their work, beginners are able to view top rated and compensated predictions without weeding through hundreds of charts. This in turn will help beginners both save time and view overall solid charts in general.

The same goes for “viewers/investors”. No prescription fee, view top rated charts without going through hundreds, able to tip those analysts for their work, and overall save time and money in the long run.

## Analysts

Every 7 days there will be a % averaging and payout date. Not only will the top analysts be rewarded with TANK token, their profile as a whole will grow up the ranks of the top traders. Analysts with consistent predictions and feedback will be able to be featured on our top trader page. The tank coin team, with some help from our platform's code, will weed out the poor performing charts automatically.

Watch your ranks grow! As time goes on and we gather analyst's information/predictions, some will be able to lock their charts and charge a TANK fee to unlock them. Eventually, as the community grows, the rewards will be larger and viewers will rise.

## Compensation

As development moves along, and more pieces fall into place, we will have a detailed, percentage based, algorithm to pay out top analysts. We will be revising the whitepaper a lot regarding these details.

For a rough draft (please take this with a grain of salt, just an example): the top 50 analysts in a 48 hours time frame with a 5-7% prediction difference will be rewarded with 5 TANK. Those within 3-5% will be rewarded with 15 TANK. And finally, those within 0-3% will be rewarded with 30 TANK. Consistently active and well standing profiles with good feedback will also be rewarded with 1 TANK. Viewers are able to tip any analyst in TANK for their work.

## Reputation/Feedback

As a community, we need to all respect each other and vogue for those who are keeping the environment grounded and happy. That's why we're putting a reputation and feedback system in place. People with a certain amount of time and activity on the platform will be able to give other's positive or negative feedback. We know that this system can be corrupt, so we have implemented code

To alert us regarding suspicious activity. To also counter the possibility, you will be able to appeal a decision and our team will take a closer look.

## Leaderboard

To reward the best of the best, there will be a top traders page where both analysts and viewers are able to save time and look over consistent and solid predictions. Those who stay on the leaderboard for 2+ weeks will be able to lock their profile and charge people to view them. This is voluntary and not required. The number of people on the leaderboard will be put into place when we know more variables. Watch your ranks grow!

# THE TANK TOKEN

## Token Distribution

60% - Public sale

15% - Team

25% - Reward pool

## Token Sale Dates/Supply

Pre-sales: Mar 01, 2021 - Jun 01, 2021

Public sales: Jun 02, 2021 - Mar 15, 2022

Token supply: 150,000,000 TANK
