

UNIMOOON

THE MISSION

The keepers of the blockchain galaxy have a simple mission to bring abundance, wisdom, guidance, love, and light to Earthlings. Therefore by the keepers' orders UNIMOON has been bestowed upon Earth to fulfill the keepers' mission. Now UNIMOON has been tasked to provide freedom and sovereignty for all Earthlings to the moon and beyond

The UNIMOON protocol has established itself with the blockchain galaxy and is now re-writing history as we know it. In order to help share the mission for freedom and humanity to all; UNIMOON bridges the technology gap between Web 2.0 (mobile, social, cloud) with Web 3.0 (blockchain; decentralization, AI) utilizing meme culture. UNIMOON will be the first interoperable decentralized digital media protocol. The journey of Decentralized Media, DeMe starts here, similar to Decentralized Finance, DeFi, we are pioneering DeMe.

Many will know UNIMOON as the Dogecoin, Shiba Inu, and Safemoon killer. But we're just UNIMOON. Our only mission is to fulfill the keepers orders and provide safe passage for our fellow Earthlings to the moon and beyond

MOON SHOT!

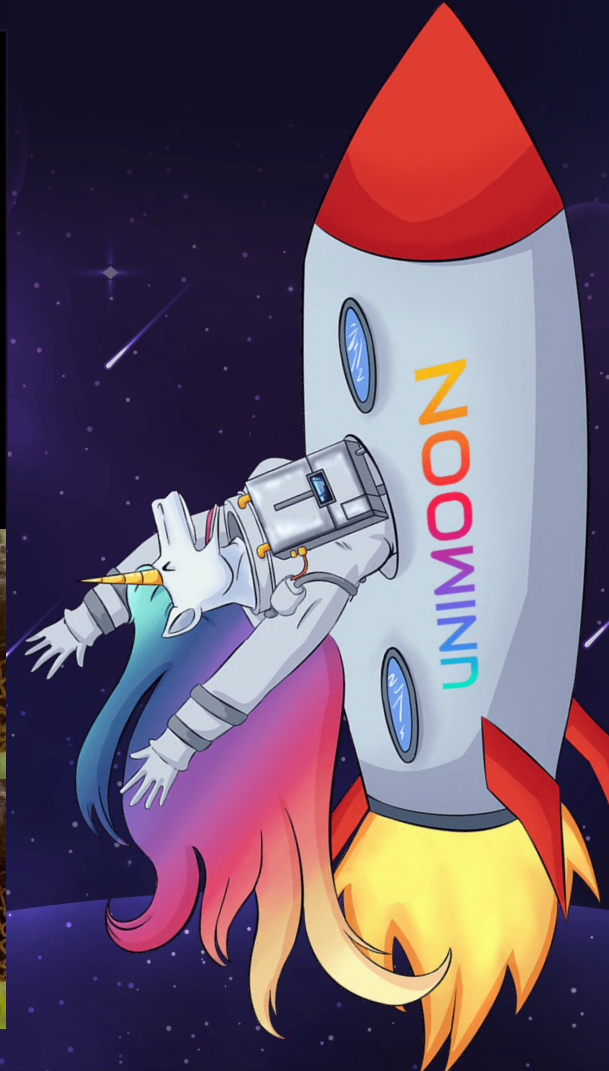

BUY!

Tokenomics gifted to Earth from alien
brains and the keepers of the galaxy

So just sit back relax and watch your
money grow to the moon

HODLERS REWARDED

NO impermanent loss (IL) with our **auto magic farming**, there is **no risk** or need to be a liquidity provider. Our protocol handles that for you. With our UNIMOON protocol we take the risk out so you get rewarded (the amount of UNIMOON you bought will increase every day, **true passive income**) through our AUTO MAGIC FARMING for just HODLING

DEFLATIONARY SUPPLY

490 Trillion UNIMOON tokens burned at launch with automated daily burns. Our network initiates auto burns making your UNIMOON more valuable each and every day.

UNIMOON

TREASURY

The UNIMOON Treasury is put in place as a mechanism to manage the UNIMOON protocol revenues, expenses, and various grants when appropriate. In addition, the Treasury shall manage the dSWF for policy options primarily to promote protocol growth, **but also for liquidity or when stabilization support is needed**. The UNIMOON Treasury is managed by the Grand Council along with the Parliament which is ultimately governed by the UNIMOON citizen token holders

The Treasury's sole purpose is to **provide security** in the macro **performance, stability and longevity** of UNIMOON's economic activities, investments and reinvestment strategies for long-term prosperity which is governed by UNIMOON community citizen token holders

DECENTRALIZED SOVEREIGN WEALTH FUND (dSWF)

UNIMOON's Decentralized Sovereign Wealth Fund (dSWF) is owned by the UNIMOON Protocol and managed by the Treasury and ultimately **governed by protocol token holders and citizens**.

The dSWF is designed and **operates for the longevity** and overall growth of UNIMOON's macroeconomic prosperity. The UNIMOON dSWF shall keep interest in regards to primarily cryptocurrency reserves, however other financial instruments may be acquired. The dSWF manages and invests the UNIMOON protocol's reserves **for macroeconomic prosperity, security, and to accelerate protocol growth** all of which keep a keen focus on the protocol's sovereignty

UNIMOON's dSWF will be initiated by the Foundation Treasury. The dSWF shall hold foreign cryptocurrency reserves that have value, yield and utility. The dSWF will evaluate digital assets based on the economic prosperity potential for UNIMOON's continued long term growth

UNIMOON EFFECT

RATE OF GROWTH FOR NEW HOLDERS

SCENARIO 1
Realized meme value
+ disrupting tech

SCENARIO 2
Still realized just slower ☹️

UNIMOOON TRAJECTORY

UNIMOOON has identified key value by pragmatically and skeptically assessing impact and feasibility at a granular level and focusing on addressing true pain points with specific use cases within the digital space regarding cryptocurrency and social media. Some of these include:

1. Instant monetization for active social media users
2. Decentralizing user data on social media platforms (Decentralized Media, DeMe)
 - a. Highly effective, cost-efficient and engaging media targeting with influencers for media buyers and brands with higher engagement (better experience for everyone)
 - b. Safer for users (no data hacks)
3. Decentralized identification process to become a new standard
4. Storage and media quality issues utilizing IPFS for digital content on network with new 4K compression
5. Convenient peer-to-peer payment infrastructure make payments easier and stimulate social media activity while creating more engaging viral content
6. Bridges to multiple layer 1 blockchains allow interoperability within the entire scope of cryptocurrency for ease of adoption

UNIMOOON is capturing value by tailoring strategic approaches specifically providing instant monetization opportunities for the current social media users of the global population. UNIMOOON has taken these custom tailored measures to help innovate the digital space, while reshaping the ecosystem and establishing new standards

ROADMAP

- UNIMOON Protocol Conceptualized
- Protocol Development

Q1

Q2

- Pre-Sale & Full Launch
- CMC & Coin Gecko Listing
- Expand Marketing Team
- Tik Tok, IG, Snap Chat Influencer Campaign
- Ambassador Program
- Add PancakeSwap BNB/UNIMOON LP

Q3

- Artist Initiative Launchpad + Hype Marketing Growth
- Complete Product Development
- Mobile Wallet Soft Launch
- \$1B Market Cap @ 1M Holders
- Major CEX Listing
- Tik Tok, IG, Snap Chat Influencers Campaign Expansion
- Major Celebrity Endorsements

Q4

- Massive Marketing + Partnerships
- uMOON & uLIVE Soft Launch
- Binance & Coinbase Listing
- \$5B Market Cap @ 5M Holders
- Bridges to Ethereum, Solana, Matic, Sora, Polkadot, Kusama and More Layer 1s
- Initiate UNIMOON Humanitarian Foundation

uMOON APP

Create beautiful new content with **production studio like technology** at your fingertips. uMOON is the most powerful and easy to use social media app packed w/ features. More fun options, filters, and choices to create new engaging content than Tik Tok, Snap Chat & IG combined. "uMOON Magic" takes creating content to the next level. Making fun new content has **never been easier**

Social Activity Coefficient (SAC) earns higher rewards leveraging time as an early adopter for uMOON and UNIMOON protocol

UNIMOON WALLET

UNIMOON Wallet is a next generation cryptocurrency wallet. The **most advanced crypto wallet** to date with **military-grade encryption** to make it impossible to hack, featuring: staking, farming, swaps, and on chain governance

UNIMOON Wallet will have liquidity from it's decentralized exchange

UNIMOON

REWARDS

uMOON

Earn UNIMOON rewards for social media activity by creating and posting original content consistently

uLIVE

Earn UNIMOON rewards for streaming activity by streaming consistently, with long streaming times

COMPETITIONS

Winners earn UNIMOON rewards from artist launchpads, social media meme competitions, to facilitate further marketing virality and community development

LEADERBOARDS

Earn extra UNIMOON rewards from the uMOON or uLIVE social media activity leaderboard, which will be verifiable on the blockchain. Top leaders from the leaderboard earn extra rewards. All users on the leaderboard are anonymous by default

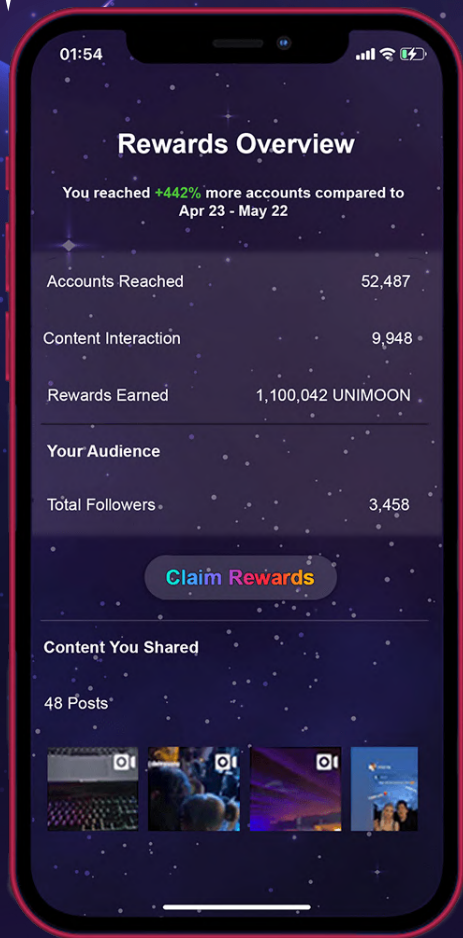

*Algorithm favors quality content and will earn higher rewards!

*Influencers can earn more rewards via advertising/media buyer relations (available on both uMOON and uLIVE with uADS –one click easy advertising options between influencers and advertisers). Influencers receive notifications for “advertising requests” directly from media buyers/advertisers/brands

REWARDS

Social Activity Coefficient (SAC) is a way for the algorithm to calculate rewards based on length of total social activity usage on the network. If two people have identical social activity usage in terms of posting, sharing, and creating new content then the SAC will provide higher rewards to the user that joined the platform earlier (rewarding loyalty on the network). This will promote higher levels of engagement and increase adoption exponentially creating urgency to join the network. **Users that have been using uMOON and uLIVE longer will get rewarded higher.**

The rate at which **rewards** are given will **decrease 25% every year**. This is similar to bitcoin's mining rewards, which bitcoin's halving event cuts miners reward every 4 years, UNIMOON however, will be cut every year. With UNIMOON building the most convenient and sensical bridge for adoption for the global population between web 2.0 and web 3.0; UNIMOON will naturally create a **much higher ratio of demand and adoption** into cryptocurrency

UNIMOON

REDEEM REWARDS

Easy to redeem daily rewards through our beautiful UI
