## **We are Masterwin (MW)**

In just a few months, Masterwin managed to be listed on several top masternode sites and aswell on larger exchanges. We could achieve our first goals thanks to our investors and our community. We do our best to make Masterwin (MW) so well known in the next six months that everyone wants our coin.

With Masterwin-Coins (MW) you can not only win via the blockchain raffle, but also earn daily rewards via the masternode coins. At the same time, we also built a second platform: <https://www.mnodes.pro/> This is a platform on which you can find the most important information about masternodes. You can also conveniently use the masternode monitoring function on the page.

Many advantages are waiting for you, because the masternode reward structure (reward system) gives you additional coins as a bonus. As a result, our masternode is always a win! Thanks to our cooperation with many masternode sharing services, our customers earn money from the very first Masterwin (MW) coin they bought and can thus

collect a masternode using the masternode sharing services.

Take advantage of the opportunity to invest cheaply in Masterwin, as the price can rise continuously over the next few months.

## **How does the blockchain raffle work?**

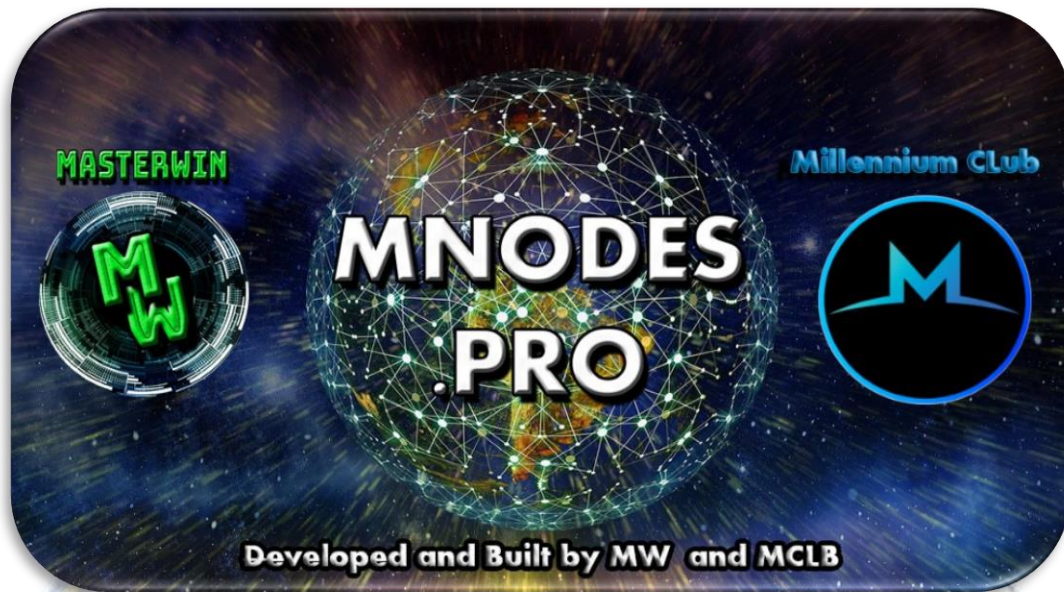

Register on our platform [mnodes.pro](https://mnodes.pro) to participate in the Masterwin (MW) raffle. After registration you can see the button "MW Tombola (MasterWin)". Click on this and follow the instructions.

You can find detailed instructions on how to participate here:  
<http://masterwin.online/tombola.html>

You can find the link to the blockchain raffle here:  
<https://www.mnodes.pro/>

The entire Masterwin team wishes you good luck with your participation! A little suggestion: You can also use the masternode monitoring function on [mnodes.pro](https://mnodes.pro) by clicking on the "My MasterNodes" button and entering your masternode wallet address.

### **Mnodes.pro- our second Project**

It is a platform from us where you can find the most important information about masternodes. This saves you a lot of time when looking for information about masternode coins. All statistics are updated automatically, so you are always up to date.

On our website you will find a clear overview of the most important information, such as the value and cost of a masternode, how many coins are needed to start a masternode, the daily trading volume of a masternode, market capitalization and much more.

With the free registration you can use the masternode monitoring function for every coin we list and also participate in the MasterWin raffle.

It is worth noting that this project was launched by two coin development teams. A resulting cooperation between MasterWin and MillenniumCLub. With the experience of our two teams, which we have in the field of masternodes, we try to offer our community the best possible information about every coin listed on our platform.

### Masterwin coin details

COIN INFO	
Coin Name:	Masterwin
Ticker:	MW
Coin Type:	MN/POS
Block Reward	100% MN
Staking	0%
Block Time	90 Sec
Coin Maturity:	61 Blocks
Maximum Supply:	31.000.000 MW
Coin Lock:	11.000.000 MW
Masternode Collateral:	4000 MW
Network Port:	33533
RPC Port:	33534
Hashing Algorithm	Quark

## Reward System

MASTERNODE REWARD Table		
PHASE	BLOCKS	MN REWARDS
1	101-10000	1
2	10000-30000	1.6
3	30000-40000	2.6
4	40000-50000	3.6
5	50000-60000	4.6
6	60000-80000	5.6
7	80000-90000	6.6
8	90000-110000	7.6
9	110000-120000	8.6
10	120000-130000	9.6
11	130000-160000	8.6
12	160000-170000	7.6
13	170000-200000	6.6
14	200000-230000	5.6
15	230000-290000	4.6
16	290000-350000	3.6
17	350000-450000	2.6
18	450000-550000	1.6
19	550000-45434791	1

## Roadmap

### **Q4 2019**

The idea of the coin raffle was born and we started writing our white paper. We also built the website with all its functions and created all social channels. We also set goals that we wanted to achieve and were successful in all of them.

### **Q1 2020**

The year 2020 has begun and Masterwin has set itself the task of becoming big and famous this year. The first raffle was very successful with up to 100 participants, the 10 prizes were drawn via YouTube live streams. Thanks to our investors and the money we invested in our project, we were able to pay for many new listings. In the first quarter of 2020, we were already listed on 4 Exchanges, (Graviex, Crex24, Midas, Delion.DEX) as well as on Masternodes.online and on many other websites.

### **Q2/ 2020**

Further listings have been announced. By the end of April 2020, we had implemented all of the promises and announcements. We are now listed on five exchanges. SouthXchange has been added and we have been listed on the Polispay APP. You can now find us on CoinMarketCap, where our coin is listed. However, you cannot see any trading volume yet because our coin needs more volume so that all data is displayed on CoinMarketCap. Therefore, it is very important that you do not sell your coins below value.

### **Q2 / 2 2020**

We have created a new website for you with many new functions and a much better overview and presentation. We hope you like it as much as we do. If you have any ideas or suggestions about what we could change or integrate, just contact me at Discord MasterWin # 1221.

#### **Q2 / 3 2020**

In cooperation with the Millenium Club (MCLB) Masterwin (MW) has created a new website <https://mnodes.pro/>. It is a master node information platform. Coins can be listed on this page by paying a listing fee using MW or MCLB coins, adding another use case and value to each coin. It is believed that more coins will be bought on exchanges. We are also starting a wallet raffle on our side.

#### **Q3 2020**

Our wallet raffle becomes a blockchain raffle with the advantage that the winners are automatically drawn from the blockchain and the winnings are automatically paid out to the respective winners. It all starts in a test phase until everything works smoothly. After that, it is planned to distribute the profits of the blockchain raffle every 2 weeks.

#### **Q4 2020**

A wallet update is planned. Perhaps this will happen in the third quarter. We try to convert our coin with a tiered node system.

#### **Q1 2021**

We are working on developing and expanding our website. More listings are planned on even larger exchanges when the price rises above USD 1 per coin again. The roadmap will be extended at the end of 2020. We wish you good luck and health and we look forward to our further journey with the Masterwin (MW) coin.

## **What is a Masternode?**

A Masternode is a crypto full node (computer wallet) that supports the network by hosting an entire copy of the coin's ledger in real time. In return, the Masternode will receive crypto coins as a reward

A master node can perform the following tasks that a "normal" node cannot perform, such as:

- Processing anonymous transactions
  - Instant transactions
- Monitor the network itself (example hypernodes)
- Decentralized Voting (Governance)

Masternodes bring more security and scalability for the network through additional functions. The high investment limit prevents monopolization and centralization, for example through pool mining.

## **YouTube- Partnerships**

Since we have implemented many goals in the past few months since the start of our coin in December 2019, we are proud to be able to name some YouTubers as our partners.

We have achieved a unique cooperation with Emanuele from Melchionda Network, as his main focus is on masternodes. We already had our first appearance on his Krypto Friday show, which takes place every Friday at 9:00 p.m.

Here you can check the YouTube Channel of Melchionda Network:

[https://www.youtube.com/channel/UCNGAlkjZJygL-1\\_gReIUjg](https://www.youtube.com/channel/UCNGAlkjZJygL-1_gReIUjg)

## **Partnerships**

### **POLISPAY APP**

With Polispay you can hold your Masterwin (MW) coins on your smartphone, convert them into vouchers, or you can use your Epay Mastercard / PolisPay credit card to spend your cryptocurrencies at over 30 million merchants.

### **Crex24 Exchange**

Crex24 is a multi-cryptocurrency exchange based in Cyprus. It offers trading pairs such as BTC / EUR, BTC / USD, BTC / MW and many more. The user interface is for both experienced traders and beginners. A simple and uncomplicated analysis enables you to analyze the current situation on the exchange market quickly and accurately.

### **Graviex**

Graviex Exchange has its server center in Russia and was launched in 2017. It offers MW / BTC, MW / LTC, MW / DOGE trading pairs and offers a convenient trading process, low commissions and a quick process of transferring funds to the trading account.

### **southXchange**

SouthXchange is an cryptocurrency exchange based in Argentina.

The Exchange is proud to have been recognized as the best crypto exchange in South America at the 2019 ADVFN International Financial Awards.

### **MIDAS INVESTMENTS**

Midas Exchange's superior service offers our retail customers superior value for their company's investments. The trading programs offer a personalized experience that generates higher ROI and sales, as well as a higher return on investment for customers.

### **CoinMarketCap**

CoinMarketCap is one of the most famous information platforms in the crypto scene. At a glance, you can find informations about volume, price, market capitalization, and much more.

### **CoinGecko**

CoinGecko is an information platform for cryptocurrencies. All important data can be found here at a glance.

### **Masternodes Online**

MNO is a master node, coin monitoring, and statistics service. The customer can do his own research and invest at his own risk.

### **VAULT Investments**

VAULT Investments' master node hosting platform was developed by investors for investors. With the latest, state-of-the-art VAULT Investments platform, everyone with common master nodes can earn a regular income. The investment products were developed to enable long-term passive income with price stability and integrated growth.

## **Terms and conditions**

### Registration process

Users from all countries can register for a MasterWin account after entering a valid email address. To be able to restore a forgotten password, please send us an inquiry using the link "Forgot password" and then check your e-mail inbox. You will then automatically receive a recovery link to reset the password.

### General principles

By accessing the website / wallet and using the services, you confirm that you have read and accepted the general terms and conditions and that you agree to them. Any actual participation in the services constitutes such an acceptance. If you do not agree to these terms and conditions, you may not use the services.

By using the services you accept all possible risks related to the use of the wallet / website. The website owner cannot compensate for irreversible losses, but will do his best to avoid worst-case scenarios.

To use the service defined below and operated through the website, you must be at least sixteen (16) years old. By using the services you confirm that this information is correct.

### Disclaimer - Exclusions and Limitations

To the extent permitted by law, this service excludes all representations and warranties in connection with this website and its content, which are or can be provided by affiliated companies or other third parties.

Entering incorrect information, inaccurate information or an incorrect application on our website can result in the deletion of the user account. We exclude any liability for damages that arise in connection with the use of this website. This includes, without limitation, the direct loss, loss of business, or profit (regardless of whether the loss of such profit was foreseeable, normal, or you have informed the service of the possibility of such a potential loss) of the damage caused Your computer, your computer software, the systems and programs, as well as the data contained on them, or other direct or indirect damage, consequential damage and secondary damage.

The availability of the service or the website cannot be guaranteed. Maintenance work can occur under certain circumstances, which can lead to website failures. If this happens, you will be informed on our website. We are not responsible for the operation and security of the cryptocurrency networks. We at Masterwin are not responsible for any changes in cryptocurrency prices. The annual ROI is based on the actual premiums for each block in the past 24 hours calculated. The service cannot guarantee that the annual ROI of a coin will have a constant value.

Log files

We use IP addresses and cryptocurrency wallet addresses to analyze trends, manage the site, track user actions and collect broad demographic information for aggregate use. IP addresses are not linked to personal data. In addition, our web servers log system administration to identify usage patterns and for troubleshooting purposes. Information about automatic standard access information, browser type, access times / open emails, requested websites and the referrer URL will not be passed on to third parties. These are only used in the context of this service if this is necessary. All individually identifiable information relating to this data will never be used in any other way than the one specified above without your express permission.

#### Force majeure

For events or circumstances beyond the control of the website, which indicate force majeure, riots, wars, floods, fires, explosions, strikes and similar events, no liability is accepted for delays, failures or disruptions. In this case, services that have already been promised cannot be provided.

## **Privacy policy**

Your privacy is very important to us. To better protect them, we provide you with this privacy policy, which sets out our online information practices and how your information is collected and used.

This privacy policy applies to all information collected through the masterwin.online website and related applications. The following personal information is collected: name, email address, IP address, wallet address.

Personal data collected by us is only used for the purpose of providing our service to you as a user. We collect this information so that we can access your data in order to be able to transfer your paid Masterwin coins to your wallet. If there are any important changes, we will send them to you directly by email.

We use procedures to collect, store and process your data. Furthermore, we apply security measures to protect your personal information and data from unauthorized access, modification, disclosure, or destruction. The sensitive and private data exchange between you and our website / application takes place via an SSL-secured communication channel. This is encrypted and protected with a digital signature.

However, it is important to understand that no method of transmission over the Internet or electronic storage is 100% secure. Therefore, we cannot guarantee the absolute security of your personal identification data, although we use economically acceptable means to protect it. Regardless of our precautions, there is no "perfect security" on the Internet. We cannot guarantee or guarantee the security of information that you transmit to us. Therefore, you transmit this information at your own risk.

We never use or share personally identifiable information that is provided to us without your express permission or unless otherwise required by law. Our website and our application are intended for people who can conclude a legally binding contract in accordance with the laws applicable to them. Please do not enter any personal identification data on our website if you cannot conclude a legally binding contract according to the laws applicable to you.

Our website may contain links to third party services. We do not control the content or links that appear on these websites. As a result, we are not responsible for the practices that apply to websites that are linked to or from this website. In addition, these websites or services, including their content and links, are subject to change. These websites and the associated services may have their own privacy and customer service guidelines. The terms and guidelines of this website apply to surfing and interacting with other websites, including websites that link to our website.

We reserve the right to update the privacy policy at any time. If we do, we will update the date at the bottom of this page. We recommend that you regularly check this page for changes / updates so that you remain informed about how we protect the information and data we collect. Please also read the data protection guidelines regularly so that you are always informed about any changes or updates.

By using this website or our applications, you declare your consent to the data protection regulations described by us. If you do not agree with these guidelines, please do not use our website or application. Your continued use of the website, or use after the publication of changes to this policy, constitutes your consent to these changes.

If you have any questions about the data protection guidelines, please contact: [info@masterwin.online](mailto:info@masterwin.online)
