

WHITEPAPER

Intro

Sling DAO is a project with a vision to support all degens and projects out there in defi space.

The project has multiple bots as the main utility which will be free forever with basic features for all projects. Projects and groups can install their bot on their own without any support and use for the project without paying.

Equipped with epic use cases & no cost to the client forever, SLING offers 'basic' but powerful features available on a **free version**.

Projects and Community Groups can install SLING-BOT on their own without any needed support.

Our bots can be used for projects & growing communities without paying a cent.

WHITEPAPER

Utility Bots:

Bots offered by Sling DAO are free for all projects.

SLING has the right to add project advertisements in a text format to all posts made by the bots.

The texts will help generate monetary income to Sling DAO which helps for the growth of the project.

Projects will also have the option to remove the ads + add more features available as premium options which are discussed below.

RAID Bots:

Brings fresh tweets from any influencer you have selected as well as community members or project pages.

Projects can select up to 20 influencers to raid.

For community tweets, users need to define hashtags or keywords.

Our bot will simply look for the tweet and deliver it to the telegram group if the keyword matches.

WHITEPAPER

Premium Features:

0.15 eth per project

1. Raid contest based on number of tweets made by community members
2. Ad-free TG posts
3. Support 2 minutes post frequency (Free version has 5 mins frequency)
4. Support up to 30 influencers. (Free version has 20 influencers)
5. Faster support if project wants to make any custom changes
6. Raider setup support with up to 10 twitter accounts. (Custom feature support.)

BURN Bots:

The bot posts about a burn event when a token is burned or sent into a dead wallet.

The SLING BURN Bot is very quick and listens to every burn event.

Premium:

1. Ad-free TG posts.
2. Speedy support & customization.

0.15 eth per project

WHITEPAPER

Advertisement in bot posts

Projects can be advertised in our bot posts in the text and link format.

We hold the right to decide how we want to display the ad of the project.

Projects & Users can purchase ads for a max of 1 week duration and a minimum of 2 days.

Options for shared & private ads are available to all premium users.

Shared Ads:

In this type of ad type, up to 3 project ads are run simultaneously for the given week.

For the same week, 3 different projects are shown in the TG bot post.

The price is cheaper because not all posts will have your ad due to ad frequency being shared with 3 different projects.

Price: 0.10eth for 2 days, 0.20 eth for 1 week

WHITEPAPER

Private Ads:

In this type of ad, a single project will be reserved for a whole duration.

So no other project ad will be shown for the given time the project has booked the ad for.

This ad is a bit expensive compared to the shared ad but the add frequency is reserved 100% for the project.
is reserved 100% for the project.

Price: 0.20 eth for 2 days, 0.50 eth for 1 week

Advertising Income:

Revenue made via advertisements will be used to grow & market SLING DAO as well as reward holders.

50% profits to the treasury wallet.

20% to rewards wallet.

20% to marketing and development.

10% buyback and burn.

WHITEPAPER

Decentralized Autonomous Organization

Sling DAO

Sling DAO is an Investment DAO where all members who hold the rights, propose the project to invest into.

Members holding certain percentages are eligible to vote for investment options.

When voting is successful, SLING DAO will invest funds from our treasury wallet into the chosen project.

Initials and gas fees will be taken out at a certain milestone and put back into the treasury wallet.

Profits will be distributed as follows:

50% profits to the treasury wallet.

20% to rewards wallet.

20% to marketing and development.

10% buyback and burn.

Note: DAO members will have the right to vote for the distribution once per month.

INVESTMENT EXAMPLE

Investment example:

1. DAO announces the investment fund to be invested into a new project.
2. Members propose the project to invest into.
(Requirements are given must be met)
3. Members vote on all projects that are proposed.
4. The top-voted projects will be picked.
5. DAO will wait 5 days to find a solid entry to ape into the project & review whether it is still a feasible investment.
6. After successful investment resulting in a 3X of invested funds, initials + 20% profits will be taken out leaving the rest to grow.

REWARDING DAO MEMBERS

All members will be rewarded directly or indirectly.

While we value both small and whale holders, the DAO reward system is designed to favor our whales with consistent passive income regularly.

Whales are considered those who are holding a certain percentage and are eligible to join the DAO whale group.
