Most investments face risks, such as deteriorating business fundamentals, economic downturns and market volatility PLEASE ACT RESPONSIBLE AND ACCORDINGLY.

Vision

Please read this carefully before investing! Any investment has risks, not only gains! WE ALL UNITED is a Vision which we aim to turn into Reality. In order to raise the funds for a project, different teams use different methodologies. Our methodology is more or less similar with other projects, we do not claim to be the best, we only aim to be the best. We are a team of enthusiasts united to create a unique charity.

Introduction

Welcome to WE ALL UNITED!

Welcome to WE ALL UNITED! A place where unity and trust thrive. Feel confident in exploring our project, as we prioritize your safety and provide a platform that values your trust. Join us on this remarkable journey towards a brighter future, where we are truly united. Together, we can achieve greatness.

WE ALL UNITED main focus is charity. We will use simple methodologies and criteria, to use in the best way possible, all funds collected from fees and donations to charity. We will take great care to ensure that the help needed will positively impact in the longer term, not only in times of crisis.

We will help mainly people and sometimes organizations. People in poverty, who wants to start a small business. People who struggle to pay their bills or in a crisis. People who are sick. We will have teams ready for different categories to check the authenticity of the claims and we will help as much and as many as we can. Everyone should understand that regardless of the size of the project, our help and resources will be limited.

WAU token

WAU token is a symbol of faith, not an investment in a security. A token of our appreciation to all like-minded holders who also have longed to bring a desirable vision to fruition. The WAU token is a digital representation of this project achieving its goal to successfully plan, fund, and complete a real-life project that everyone will be able to benefit, as well as offer the possibility to be the saving grace for many people in many countries if used as promised. The token utility will evolve over time as the project progresses and updates will be reflected here once established definitively. Possible use cases are in discussion along with other incentives.

This is a vision of a large scale project. It started as an idea. We are pioneers. We know what we want, we know how to do, we know how to get there. We will create a strong and dynamic team capable to bring this to success. Partners will be acquired along the way, as the project progress, to ensure we obtain best results.
